## Game Preparation

1. Unfold the game board and place it on a flat surface.
2. Place the Treat Tiles and Obstacle Tiles face down in designated areas or as instructed for the chosen game variant.
3. Each player chooses a character pawn and places it on the starting space of the game board.
4. Keep the wooden die accessible to all players.

## OPERATING INSTRUCTIONS (GAMEPLAY)

The game is designed for 2-3 players, with an estimated playtime of 20-30 minutes.

### Basic Gameplay (Variant I)

1. The youngest player starts the game.
2. On your turn, roll the wooden die. The die features colored paw prints corresponding to the character pawns.
3. Move the character pawn indicated by the die roll one space forward along the path on the game board.

4. If you land on a space with a Treat Tile, collect it.
5. If you land on a space with an Obstacle Tile, follow the instructions on the tile (e.g., lose a turn, move back).
6. The goal is to collect the most treats by the end of the game. The game ends when all treat tiles are collected or a specific condition is met (e.g., a player reaches the end of the path).

### Collecting Treats and Avoiding Obstacles

Players must strategically move their pawns to collect Treat Tiles while navigating around Obstacle Tiles. The game encourages basic counting skills and understanding of cause and effect.
