De'Longhi PACEX370LN-6AL DG

De'Longhi Pinguino Portable Air Conditioner User Manual

Model: PACEX370LN-6AL DG

Brand: De'Longhi

Product Overview

The De'Longhi Pinguino Portable Air Conditioner is a versatile 3-in-1 unit designed to provide cooling, dehumidifying, and fan modes for rooms up to 500 sq. ft. This unit offers efficient performance and user-friendly operation, making it an ideal solution for maintaining comfortable indoor temperatures.

Key Features

- **3-in-1 Functionality:** Air conditioning, dehumidifying, and fan modes for versatile climate control.
- **Efficient Cooling:** Designed for rooms up to 500 sq. ft. with 17% more efficiency than previous models.
- **Optimized Airflow:** Motorized louver ensures steady, even airflow for effective cooling.
- **Washable Filter:** Easy-to-clean filter screens impurities, promoting cleaner air.
- **Programmable Timer:** Schedule cooling operation according to your needs.
- **User-Friendly Design:** Portable with pre-attached wheels, built-in handle, and a front-facing lighted display.

Setup and Installation

The De'Longhi Pinguino is designed for quick and easy setup. It requires placement near a window to vent exhaust air. The unit comes with a window kit for simple installation.

Window Kit Installation

1. Attach the exhaust hose to the back of the unit.
2. Insert the window kit into your window opening. The kit is adjustable to fit various window sizes (vertical or horizontal).
3. Connect the exhaust hose to the window kit. Ensure a secure fit to prevent air leakage.
4. Plug the unit into a grounded electrical outlet. An extension cord may be used if necessary, ensuring it is rated for the appliance's power requirements.

Included: remote control.

Operating Instructions

The unit can be operated using the control panel on top or the included remote control.

Control Panel

The front-facing lighted display shows current settings and dims automatically. Buttons on the panel allow for power on/off, mode selection, temperature adjustment, and fan speed control.

Figure 5: Detailed view of the unit's control panel and display.

Remote Control

The remote control provides convenient access to all functions from a distance, including power, mode, temperature, fan speed, and timer settings.

Maintenance

Regular maintenance ensures optimal performance and longevity of your air conditioner. The primary maintenance task is cleaning the washable filter.

Filter Cleaning

1. Locate the filter compartment, typically at the back of the unit.
2. Remove the filter. It is designed for easy removal.
3. Clean the filter by wiping it with a damp cloth or rinsing it under running water.
4. Ensure the filter is completely dry before reinserting it into the unit.
5. Regular cleaning (e.g., every 2 weeks during heavy use) is recommended to maintain air quality and unit efficiency.

Troubleshooting

Problem	Possible Cause	Solution
Unit not cooling effectively	Dirty air filter; Room size exceeds capacity; Poor window seal; Obstruction in exhaust hose.	Clean filter; Ensure room is within 500 sq. ft.; Check window kit for leaks; Clear any obstructions.
Unit shuts off unexpectedly	Water tank full (dehumidifying mode); Overheating.	Drain water tank; Ensure proper ventilation and clear air intakes/outlets.
Unusual noise	Unit not level; Internal component issue.	Place unit on a flat, stable surface; Contact customer support if noise persists.

Product Specifications

Model Number: PACEX370LN-6AL DG

Brand: De'Longhi

Product Dimensions: 16"D x 18"W x 32"H

Item Weight: 72 pounds

Cooling Power: 6800 British Thermal Units

Floor Area Coverage: Up to 500 Square Feet

Voltage: 115V

Noise Level: 40 dB

Special Feature: Energy Efficient, Portable

Included Components: Window Kit, Remote Control

Color: Dark Gray
