Bewinner T11

Bewinner T11 Smart Voice Language Translator User Manual

Model: T11

INTRODUCTION

Thank you for choosing the Bewinner T11 Smart Voice Language Translator. This device is designed to facilitate seamless communication across language barriers, offering real-time two-way translation for a wide range of languages, both online and offline. This manual provides essential information on setting up, operating, and maintaining your translator to ensure optimal performance.

PRODUCT OVERVIEW

The Bewinner T11 is a compact and portable smart translator featuring a 2.4-inch touchscreen. It supports up to 138 online and 14 offline languages with high accuracy. Key features include voice recognition, photo translation via a 500W pixel camera, dual noise-canceling microphones, and a long-lasting 1500mAh battery.

Built in 1500mAh battery
4 hours of continuous use
60 minutes of continuous recording
72 hours of standby

The Bewinner T11 translator is shown displaying its primary function menu on the 2.4-inch touchscreen. Icons for Translator, Recording, Settings, and Camera are visible, indicating the device's versatile capabilities. The image also highlights the device's sleek design and speaker.

SETUP

1. Charging the Device

Before first use, fully charge the translator. Connect the provided USB-C cable to the device's charging port and the other end to a compatible USB power adapter (not included) or a computer's USB port.

A detailed close-up view of the Bewinner T11 translator's bottom edge, clearly showing the USB-C port for charging and data transfer, alongside a 3.5mm headphone jack. This allows for private listening during translation or recording.

2. Powering On/Off

- **To Power On:** Press and hold the power button (usually the central button or indicated by a power symbol) for approximately 3 seconds until the screen illuminates.
- **To Power Off:** Press and hold the power button for approximately 3 seconds. A power-off confirmation prompt will appear on the screen. Select 'Power Off' to shut down the device.

3. Network Connection (Wi-Fi)

For online translation, a stable Wi-Fi connection is required.

1. From the main menu, tap on 'Settings'.
2. Select 'Wi-Fi'.
3. Toggle the Wi-Fi switch to 'On'.
4. Select your desired Wi-Fi network from the list.
5. Enter the password if prompted and tap 'Connect'.

Plug your headphones into the translator
Dual noise cancelling microphones
Provide more accurate recordings and translations
Maintaining more discreteness at the same time

This image shows the Bewinner T11 Smart Voice Language Translator held in hand, with its 2.4-inch touchscreen displaying the main settings menu, including options for Wi-Fi, Offline Languages, Display, Sound, Language, and Date & Time. The device features a speaker grille at the bottom.

OPERATING INSTRUCTIONS

1. Voice Translation (Online/Offline)

The device supports two-way voice translation. Ensure your desired source and target languages are selected in the 'Language' settings.

1. From the main menu, tap 'Translator'.
2. Select the source and target languages by tapping on the language indicators at the top of the screen.
3. Press and hold the designated voice input button (often a large central button or indicated by a microphone icon) and speak clearly into the device.
4. Release the button once you have finished speaking. The device will process and translate your speech, displaying the text and playing the audio translation.

For offline translation, ensure the required language packs are downloaded via the 'Offline Languages' setting when connected to Wi-Fi.

Built in microphone to record your voice

Use a 500W pixels camera to take pictures and translate
Manual adjustment if text is blurry

Small and portable

Meet your various needs
Ideal for study, business, international travel or appointments

This image illustrates the Bewinner T11 translator's voice input screen, prompting the user to "Press the button" for translation. Accompanying lifestyle images depict various scenarios where the translator can be used, such as during travel, business meetings, or educational settings, emphasizing its utility for study, business, international travel, or appointments.

Covers up to 138 online and 14 offline languages in seconds
98% accuracy
Real time online and offline voice translator
Create conversation and understanding in real time
Improve face to face communication

The Bewinner T11 translator is shown in action, displaying a translation on its screen. In the background, people are engaged in conversation, symbolizing the device's ability to facilitate real-time, two-way communication across up to 138 online and 14 offline languages with 98% accuracy.

2. Photo Translation

The built-in 500W pixel camera allows for translation of text from images.

1. From the main menu, tap 'Camera'.
2. Point the camera at the text you wish to translate. Ensure the text is well-lit and clear.
3. Tap the capture button on the screen.
4. The device will process the image and display the translated text. If the text is blurry, manual adjustment may be required on-screen.

A close-up shot of the Bewinner T11 translator's integrated 500W pixel smart camera, located on the rear of the device. This camera enables photo translation, allowing users to capture text from signs or documents and have it translated.

3. Recording Function

The device can record audio, which can then be translated.

1. From the main menu, tap 'Recording'.
2. Tap the record button to start recording.
3. Tap the stop button to end the recording.
4. Recorded audio can be played back or selected for translation.

4. Using Headphones

For private listening or more accurate recordings in noisy environments, plug headphones into the 3.5mm jack. The dual noise-canceling microphones will enhance recording clarity.

MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- Protect the screen from scratches by using a screen protector if available.
- Avoid exposing the device to extreme temperatures, direct sunlight, or moisture.
- Store the device in a cool, dry place when not in use.

- Regularly charge the battery to maintain its health, even if the device is not used frequently.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------------------|---|---|
| Device does not power on. | Low battery; device frozen. | Charge the device for at least 30 minutes. If still unresponsive, perform a hard reset (refer to manufacturer support if no reset button is visible). |
| Translation is inaccurate or slow. | Poor Wi-Fi connection; unclear speech; language settings incorrect. | Ensure a strong Wi-Fi signal. Speak clearly and at a moderate pace. Verify that the correct source and target languages are selected. |
| Offline translation not working. | Language packs not downloaded. | Connect to Wi-Fi and download the necessary offline language packs from the 'Offline Languages' menu in Settings. |
| Photo translation is blurry. | Insufficient lighting; camera not focused; text too small. | Ensure adequate lighting. Hold the device steady. Adjust the camera focus manually if the option is available. Try to capture larger text. |
| Battery drains quickly. | High screen brightness; continuous Wi-Fi use; background apps. | Reduce screen brightness. Turn off Wi-Fi when not needed. Close unused applications. |
