2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use to prevent injury or damage to the product.

- **Weight Capacity:** The tabletop has a maximum load capacity of 60 kg (approximately 132 lbs). Each shelf has a maximum load capacity of 25 kg (approximately 55 lbs). Do not exceed these limits to ensure stability and prevent collapse.
- **Fillet Design:** The desk's tabletop features a fillet (rounded edge) design to enhance safety and

minimize the risk of injury from accidental impact.

- **Stability:** Ensure all screws are tightened securely during assembly. The adjustable feet allow for leveling the desk on uneven surfaces, preventing wobbling.
- **Placement:** Place the desk on a flat, stable surface. Avoid placing it in areas with high humidity or direct sunlight, which may affect material integrity over time.

5. MAINTENANCE

The ODK L-shaped desk is constructed with high-strength melamine laminated board, making it resistant to dirt, scratches, heat, and moisture. Regular cleaning will help maintain its appearance and longevity.

5.1. Cleaning

- Wipe the desk surface with a soft, damp cloth.
- For stubborn stains, use a mild soap solution and then wipe dry immediately.
- Avoid using abrasive cleaners, harsh chemicals, or rough sponges, as these can damage the finish.

5.2. General Care

- Periodically check all screws and connections to ensure they remain tight. Tighten if necessary.

- Avoid dragging the desk across the floor; lift it when moving to prevent damage to the legs and floor.
- Do not place extremely hot items directly on the surface without a protective coaster.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your ODK L-shaped desk.

6.1. Desk Wobbles

- **Check Leveling:** Ensure the desk is placed on a flat surface. Use the adjustable feet at the bottom of the legs to level the desk and eliminate any wobbling.
- **Tighten Screws:** Verify that all assembly screws are securely tightened. Loose connections can cause instability.

- **Cross-Bracing:** Confirm that the cross-bracing hardware is correctly installed and tightened, as this is designed to prevent lateral swaying.
