Aoodor 800-044-BR-a

Aoodor 10 x 12 ft Outdoor Pergola with Retractable Shade Canopy

Model: 800-044-BR-a

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Aoodor 10 x 12 ft Outdoor Pergola with Retractable Shade Canopy. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This pergola is designed to enhance your outdoor living space by providing adjustable shade and a comfortable environment for courtyards, patios, backyards, gardens, and decks.

SAFETY INFORMATION

Important Safety Guidelines:

- Always secure the pergola to a stable foundation using the included expansion screws and ground stakes to prevent tipping in windy conditions.
- Exercise caution during assembly and disassembly. Injuries may occur from moving parts or falling components.
- Do not leave the pergola unattended in windy or stormy conditions to prevent potential damage or injury. Retract the canopy and curtains during adverse weather.

PRODUCT FEATURES

- **Adjustable Shade:** Features a retractable shade canopy and four roller shade curtains for customizable sun protection.
- **Sturdy Aluminum Frame:** Constructed with a robust matte aluminum frame, powder-coated for protection against peeling, rust, and corrosion, ensuring long-term outdoor durability.

- **Durable Polyester Fabric:** Canopy and roller curtains are made from premium polyester fiber, offering UV and fade resistance. The fabric is coated with PA for waterproof performance.
- **Smooth Operation:** The adjustable canopy operates with a smooth pulley system and includes a locking mechanism to secure it in place.
- **Easy Assembly:** Designed for straightforward installation, typically requiring two people and approximately two hours. All parts are clearly labeled, and step-by-step instructions are provided.

SETUP AND ASSEMBLY

Assembly of the Aoodor pergola is designed to be straightforward. It is recommended that two people undertake the assembly process, which typically takes about 2 hours.

- 1. Unpack Components:** Carefully unpack all parts and lay them out. Verify that all components listed in the parts list are present and undamaged.
- 2. Identify Parts:** All parts are clearly labeled with letters to facilitate easy identification during assembly. Refer to the included step-by-step instructions for detailed diagrams.
- 3. Frame Assembly:** Begin by assembling the main aluminum frame according to the provided diagrams. Ensure all connections are secure before proceeding.
- 4. Canopy and Curtain Installation:** Install the retractable canopy and roller shade curtains onto the frame. Follow the instructions for proper alignment and attachment of the pulley system and locking mechanisms.
- 5. Anchoring:** Once the pergola is fully assembled, secure it to a stable foundation using the provided expansion screws and

ground stakes. This is crucial for stability, especially in windy conditions.

STABLE ANCHORING STAND

Heavy-Duty Anchoring Keeps Your Pergola Secure in Windy Weather

Image: A close-up of the pergola's stable anchoring stand, showing how the base of a leg is secured to a hard surface using bolts, with illustrations of suitable surfaces like concrete, grass, and pavers.

OPERATING INSTRUCTIONS

Your Aoodor pergola features an adjustable canopy and four roller shade curtains for flexible shade control.

Retractable Canopy:

- To extend the canopy, gently pull the fabric along the sliding rails using the integrated pulley system.
- To retract the canopy, push the fabric back along the rails.
- Use the locking system to secure the canopy in your desired position for optimal shade.
- Always retract the canopy fully during strong winds, heavy rain, or snow to prevent damage.

Roller Shade Curtains:

- The four roller curtains can be manually adjusted up or down to provide additional side shade or privacy.
- Gently pull the curtains down to extend them and push them up to retract.
- Ensure curtains are fully retracted during strong winds to prevent tearing or damage.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your pergola.

- **Cleaning the Frame:** Wipe the aluminum frame with a damp cloth and mild soap. Rinse thoroughly with water and dry to prevent water spots. Avoid abrasive cleaners.
- **Cleaning the Fabric:** The polyester canopy and curtains can be cleaned with mild soap and water. For stubborn stains, use a soft brush. Ensure the fabric is completely dry before retracting or storing to prevent mildew.
- **Seasonal Care:** In areas with heavy snow or extreme weather, it is recommended to remove the canopy and curtains during the off-season to prevent damage. Store them in a dry, protected area.
- **Hardware Check:** Periodically check all bolts, screws, and anchoring points to ensure they remain tight and secure. Tighten any loose hardware as needed.

TROUBLESHOOTING

If you encounter any issues with your Aoodor pergola, consider the following common solutions:

- **Canopy/Curtains Not Moving Smoothly:** Check the tracks for any obstructions (e.g., debris, leaves). Ensure the fabric is properly aligned within the rails. Apply a silicone-based lubricant to the tracks if necessary.
- **Pergola Instability:** Verify that all anchoring points are securely fastened to the ground or deck. Ensure all frame connections are tight. In extremely windy conditions, ensure the canopy and curtains are fully retracted.
- **Water Accumulation on Canopy:** While the fabric is waterproof, prolonged heavy rain can cause some pooling. Ensure the canopy is taut when extended. The fabric includes small drip holes to prevent excessive water trapping.
- **Missing or Damaged Parts:** If any parts were missing or damaged upon arrival, please contact Aoodor customer support immediately for assistance.

SPECIFICATIONS

Feature	Detail
Brand	Aoodor
Model Number	800-044-BR-a
Product Dimensions (L x W x H)	141.7" x 107.5" x 81"
