## VB GK K1006

# VB GK 5-Burner Induction Cooktop User Manual

Model: K1006

## 1. INTRODUCTION

Thank you for choosing the VB GK 5-Burner Induction Cooktop. This appliance is designed to provide efficient and versatile cooking with its five high-power heating zones, sensor touch controls, and multiple safety features. This manual provides essential information for the safe and effective operation, installation, and maintenance of your new induction cooktop. Please read it thoroughly before use and keep it for future reference.

# VB GK

5 burner induction cooktop is ideal for big families or anytime you need extra burners!

The VB GK 5-burner induction cooktop is ideal for large families or when extra cooking zones are needed.

## 2. SAFETY INSTRUCTIONS

Your safety and the safety of others are paramount. Please observe the following safety precautions:

- **Electrical Safety:** This cooktop operates on 240V. Ensure proper electrical installation by a qualified electrician to prevent electric shock or fire. Do not use extension cords or adapters.
- **Child Safety Lock:** The cooktop features a child safety lock to prevent accidental operation. Always activate the child lock when the cooktop is not in use, especially if children are present.
- **Overheating Protection:** The cooktop is equipped with overheating protection. If the temperature exceeds safe limits, the cooktop will automatically shut off.
- **Auto Shutdown Protection:** The cooktop will automatically shut off if left unattended for an extended period or if a pan is removed without turning off the power.
- **Small Articles Detection:** The cooktop can detect small articles on the cooking zone and will not activate heating if non-cookware items are present.
- **Cookware Compatibility:** Only use magnetic cookware (cast iron, iron, magnetic steel, enameled iron, stainless steel with a magnetic bottom). Non-magnetic cookware will not work.
- **Ventilation:** Ensure adequate ventilation around the cooktop to prevent overheating. Do not block air vents.

The control panel highlights key safety and operational features.

### 3. PRODUCT OVERVIEW

The VBGK Induction Cooktop features a sleek glass surface with five independent heating zones, providing ample space for multiple dishes. Each zone offers precise temperature control and rapid heating capabilities.

#### Heating Zones and Power

The cooktop is equipped with five high-power burners for efficient cooking:

- Two 1200W zones
- Two 1500W zones
- One 2000W zone

The total power output is 7400W, ensuring fast heat transfer and energy efficiency.

Illustration of the five high-power burners and their respective wattages.

## Compatible Cookware

For optimal performance, use cookware made of magnetic materials. If a magnet sticks to the bottom of your cookware, it is compatible with this induction cooktop.

# ENJOY YOUR COOKING TIME

Examples of compatible and incompatible cookware for induction cooktops.

## 4. SETUP

The VB GK Induction Cooktop can be used as a desktop appliance or built into your countertop. Ensure the installation area meets the specified dimensions and electrical requirements.

### Dimensions and Installation

- **Product Size:** 35.4" (W) x 20.5" (D) x 3.07" (H)
- **Cut-out Size (for built-in):** 34.6" (W) x 19.7" (D)

Ensure sufficient clearance for ventilation around the unit, especially if built-in.

# Place on the Table or Embedded

Built-in Design

Countertop

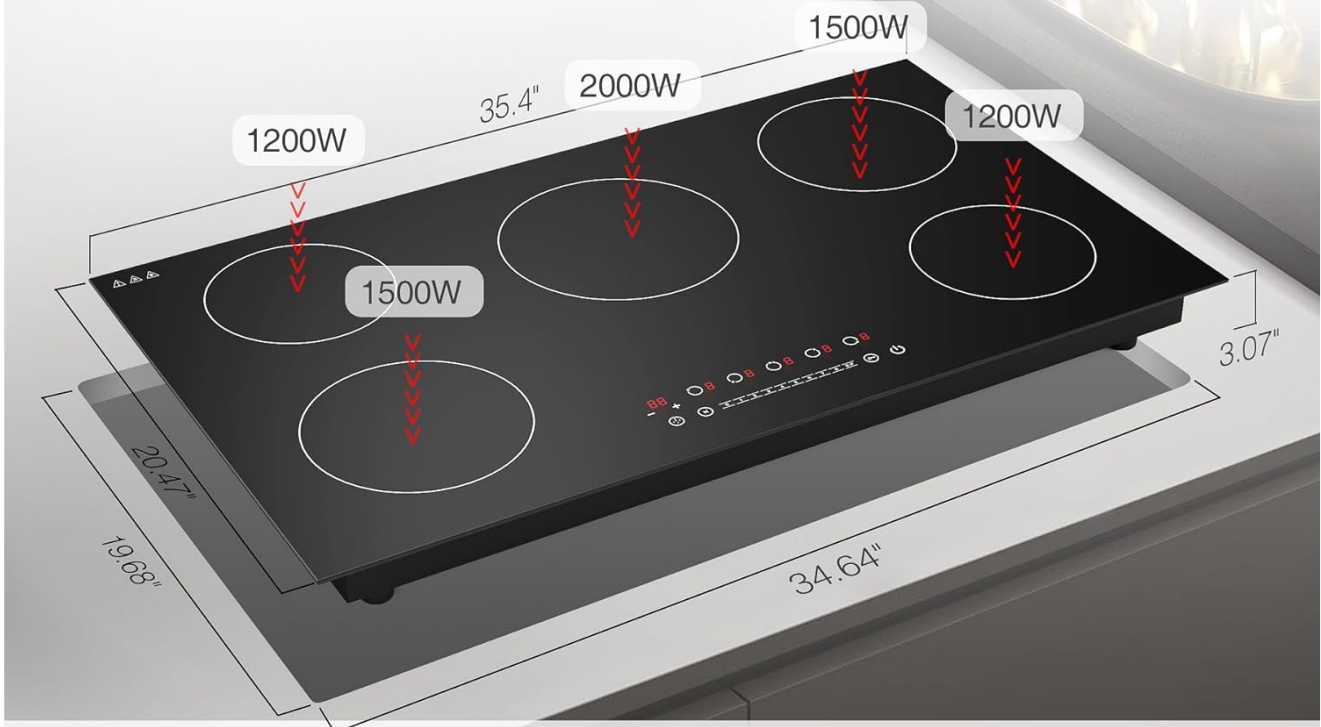

The cooktop can be placed on a table or embedded into a countertop.

## Electrical Connection

This cooktop requires a 240V AC power supply. Refer to the wiring diagram for proper connection. It is recommended to have a qualified electrician perform the installation.

# Specifications

Voltage: AC 240V-60Hz , Max Currency: 30A

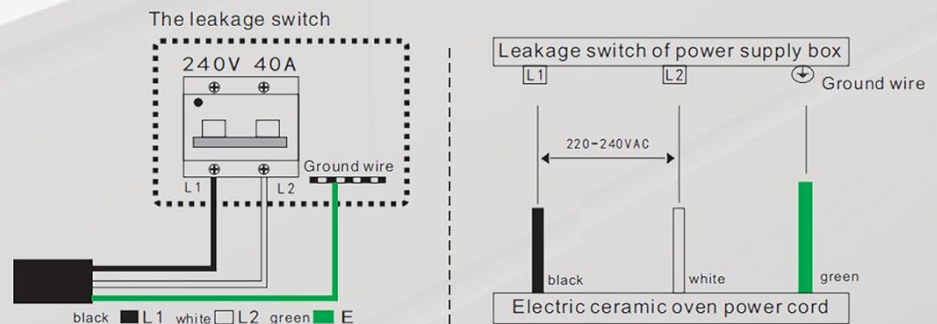

Power :

1200-2000W

Temperature :

140°F - 464 °F

Detailed specifications and wiring diagram for installation.

## 5. OPERATING INSTRUCTIONS

The VBGK Induction Cooktop features a sensor touch control panel for easy operation.

### Basic Operation

- Power On/Off:** Touch the power symbol ( ) to turn the cooktop on or off.
- Select Cooking Zone:** After powering on, select the desired cooking zone by touching its corresponding control.
- Adjust Power Level:** Use the '+' and '-' buttons or the slider regulating key to adjust the power level from 1 to 9. Level 9 provides maximum heat for rapid boiling.
- Boost Function:** The cooktop features a boost function to reach maximum power immediately for faster heating.

### Timer Setting

The cooktop includes a 1-99 minute timer for precise cooking control. To set the timer:

1. Select the cooking zone you wish to set the timer for.
2. Touch the timer symbol ( ).
3. Use the '+' and '-' buttons to adjust the desired cooking time.
4. The cooktop will automatically shut off the selected zone once the timer expires.

## Child Safety Lock

To activate the child safety lock, touch and hold the lock symbol ( ) for a few seconds until the indicator lights up. This will disable all controls. To deactivate, touch and hold the lock symbol again until the indicator turns off.

## 6. MAINTENANCE

Keeping your VBGK Induction Cooktop clean will ensure its longevity and optimal performance.

### Cleaning the Cooktop

The glass cooktop surface is easy to clean. For best results, wipe spills immediately after cooking, once the surface has cooled down.

- Use a damp cloth and mild detergent to wipe the surface.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can scratch or damage the glass.
- For stubborn stains, a ceramic cooktop cleaner can be used following the product instructions.
- Ensure the cooktop is completely dry before next use.

# EASY CLEANING

Your kitchen will always be clean and tidy  
Safety cools instantly

The smooth glass surface allows for easy cleaning with a damp cloth.

## 7. TROUBLESHOOTING

If you encounter issues with your VBGK Induction Cooktop, refer to the following common error codes and solutions:

<b>Error Code</b>	<b>Description</b>	<b>Possible Solution</b>
