## AQUAPHOR 508463

# AQUAPHOR City Bottle Filter Pack Instruction Manual

Model: 508463

## INTRODUCTION

The AQUAPHOR City Bottle Filter Pack provides activated carbon fiber filters designed for use with the AQUAPHOR City Bottle. These filters are engineered to reduce chlorine and other impurities from tap water, offering improved taste and quality for on-the-go hydration. Each filter has a capacity of 150 liters.

**300 bottles of 0.5L**

Image: The AQUAPHOR City Bottle filter capacity is equivalent to 300 single-use 0.5-liter plastic bottles.

## SETUP AND FIRST USE

Before using your AQUAPHOR City Bottle filter for the first time, follow these steps:

- 1. Unpack the Filter:** Carefully remove the new filter from its packaging.
- 2. Rinse the Filter:** Rinse the filter under cold running tap water for approximately 30 seconds. This helps to remove any loose carbon dust.
- 3. Install the Filter:** Insert the rinsed filter firmly into the designated slot within the AQUAPHOR City Bottle lid. Ensure it is securely seated to prevent leaks and ensure proper filtration.
- 4. Fill the Bottle:** Fill the bottle with tap water.
- 5. Prime the Filter:** Take a few sips of water through the filter. The first few sips may contain some carbon particles; this is normal and harmless. Discard the first full bottle of filtered water to ensure the filter is fully primed.

## OPERATING INSTRUCTIONS

---

Using your AQUAPHOR City Bottle with the filter is straightforward:

1. **Fill with Water:** Open the bottle lid and fill the bottle with cold tap water. Do not use hot water or water from unknown sources.
2. **Close the Lid:** Securely close the lid, ensuring the filter is properly seated. The bottle features a leak-proof design when closed correctly.
3. **Drink:** To drink, open the one-handed lid and sip through the mouthpiece. The water will be filtered as you drink.

## MAINTENANCE

Proper maintenance ensures the longevity of your bottle and the effectiveness of the filter.

### Cleaning the Bottle

- The AQUAPHOR City Bottle is designed for **hand wash only**. Do not place the bottle or lid in a dishwasher.
- Wash the bottle and lid regularly with warm, soapy water. Rinse thoroughly.
- Ensure all parts are completely dry before reassembling or storing to prevent mold or mildew.

### Filter Replacement

- Each filter has a capacity of 150 liters (approximately 39.5 gallons).
- Replace the filter after 150 liters of use or every 1-2 months, whichever comes first, to maintain optimal filtration performance.
- To replace, simply remove the old filter from the lid and install a new one following the "Setup and First Use" instructions.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Difficulty drawing water / Requires significant suction	Filter not fully primed or clogged; airlock in the system.	<ul style="list-style-type: none"><li>Ensure the filter was rinsed for 30 seconds before first use.</li><li>Discard the first full bottle of filtered water to fully prime the filter.</li><li>Check if the filter is securely installed in the lid.</li><li>If the filter is old, replace it.</li></ul>
Water tastes unusual or unfiltered	Filter not installed correctly or expired.	<ul style="list-style-type: none"><li>Verify the filter is firmly seated in the lid.</li><li>Check the filter's usage duration; replace if it has exceeded 150 liters or 1-2 months.</li></ul>
Bottle leaks	Lid not closed properly or seal is damaged.	<ul style="list-style-type: none"><li>Ensure the lid is tightly screwed onto the bottle.</li><li>Check the silicone seal within the lid for any damage or misalignment.</li></ul>

## SPECIFICATIONS

- Brand:** AQUAPHOR
- Model Name:** Water Filter (for City Bottle)
- Model Number:** 508463
- Material:** Carbon Fibre Plastic (BPA-Free)

- **Filter Capacity:** 150 Liters (approx. 39.5 gallons)
- **Product Dimensions:** Approximately 3"W x 9"H (for the bottle, filter dimensions are smaller)
- **Care Instructions:** Hand Wash Only
- **Special Feature:** Washable (bottle components, not filter)
- **Reusability:** Reusable bottle, replaceable filter
- **Item Weight (Filter Pack):** 2.11 ounces (0.06 Kilograms)

## WARRANTY AND SUPPORT

---

For warranty information or technical support regarding your AQUAPHOR City Bottle Filter Pack, please refer to the official AQUAPHOR website or contact their customer service directly. Keep your purchase receipt as proof of purchase.

**Online Support:** Visit the official AQUAPHOR website for FAQs, product registration, and contact information.

**Contact Manufacturer:** AQUAPHOR

## IMPORTANT SAFETY INFORMATION

---

- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- Do not expose the filter to freezing temperatures. If the filter freezes, its integrity may be compromised, and it should be replaced.
- Keep out of reach of small children.
- Only use genuine AQUAPHOR replacement filters to ensure proper performance and safety.
