Puig 20363H

Puig 20363H Traffic Urban Windscreen Instruction Manual

Model: 20363H | Brand: Puig

1. PRODUCT OVERVIEW

The Puig Traffic Windscreen (Model 20363H) is designed to enhance the riding experience by improving aerodynamics and providing protection against wind and cold. This windscreen features an urban design, combining resistance and lightness for a stable and comfortable ride. It is constructed from durable 3mm polycarbonate with a smoked finish, which maintains visibility while adding an aesthetic touch.

This product is TÜV approved and ABE licensed for public road use, ensuring compliance with high quality and safety standards. Its rounded profile and aerodynamic design optimize protection without compromising vehicle maneuverability.

2. COMPATIBLE MODELS

The Puig 20363H Traffic Windscreen is compatible with the following Honda scooter models:

- HONDA SCOOPY SH350i: 2021, 2022, 2023
- HONDA SH 125i 4T E5: 2021, 2022, 2023, 2024, 2025
- HONDA SH 150i 4T E5: 2021, 2022, 2023, 2024, 2025
- HONDA SH 350i E5: 2021, 2022, 2023, 2024

A specific mounting kit is included for these selected models. A universal version with a complete fixing kit is also available from Puig for other motorcycles.

3. SETUP AND INSTALLATION

The Puig Traffic Windscreen comes with a specific mounting kit tailored for the compatible scooter models listed above. Follow the instructions provided in the physical mounting guide included with your product for detailed, step-by-step installation.

General Installation Advice:

- Ensure all components of the mounting kit are present before beginning installation.
- Park the scooter on a stable, level surface.
- Refer to your scooter's owner's manual for any specific instructions regarding accessory installation or handlebar area access.
- Tighten all fasteners securely, but do not overtighten, to avoid damaging components.
- If you are unsure about any step, it is recommended to seek assistance from a qualified mechanic or professional installer.

4. OPERATING INSTRUCTIONS

Once installed, the Puig Traffic Windscreen operates passively by deflecting airflow. No active controls or adjustments are required during operation.

- **Wind Protection:** The windscreen reduces direct wind impact on the rider, contributing to a more comfortable ride, especially at higher speeds or in colder conditions.
- **Aerodynamics:** Its design is optimized to improve the scooter's aerodynamic profile, potentially leading to a smoother ride.
- **Visibility:** The smoked finish is designed to provide an elegant look without significantly impairing the rider's forward visibility. Always ensure clear vision through the windscreen before and during your ride.

5. MAINTENANCE

Proper maintenance ensures the longevity and clarity of your Puig Traffic Windscreen.

- **Cleaning:** Clean the windscreen regularly with mild soap and water. Use a soft cloth or sponge. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the polycarbonate material and its finish. Rinse thoroughly with clean water and dry with a soft, lint-free cloth.
- **Inspection:** Periodically check the windscreen and its mounting hardware for any signs of damage, cracks, or loose connections. Ensure all bolts and screws are securely fastened.
- **Storage:** When not in use for extended periods, store the scooter in a covered area to protect the windscreen from prolonged exposure to direct sunlight and extreme weather conditions, which can cause material degradation over time.

6. TROUBLESHOOTING

If you encounter any issues with your Puig Traffic Windscreen, consider the following:

- **Excessive Vibration or Noise:**
 - Check all mounting bolts and ensure they are tightened correctly according to the installation instructions.
 - Verify that the windscreen is properly seated in its mounts and not making contact with other parts of the scooter.
- **Reduced Visibility:**
 - Clean the windscreen thoroughly using the recommended cleaning methods.
 - Inspect for scratches or hazing that might require replacement if severe.
- **Missing Parts Upon Delivery:**
 - Carefully check all packaging materials. If parts are genuinely missing, contact your retailer or Puig customer support immediately with your purchase details.

For issues not resolved by these steps, consult a professional mechanic or contact Puig customer support.

7. SPECIFICATIONS
