Assembly Guide

General Assembly Tips

nanoblock pieces are exceptionally small, with some measuring as tiny as 4mm x 4mm x 5mm. This micro-sized design allows for incredible detail in your finished models. Precision and patience are key during assembly.
Each character in this set comes with its own dedicated, detailed, step-by-step instruction sheet. It is crucial to refer to the specific instruction sheet provided for each individual figure you are building.

Basic Assembly Steps

1. **Unpack:** Carefully open the packaging for one character at a time to avoid mixing pieces.
2. **Identify:** Sort the blocks by type and color as needed. Familiarize yourself with the different shapes.
3. **Follow Instructions:** Adhere strictly to the numbered steps and diagrams in the instruction manual provided with each character.
4. **Connect Firmly:** Ensure each nanoblock is pressed firmly into place to create a stable and secure connection.
5. **Review:** After completing each step, compare your progress with the diagram to ensure accuracy.

Care and Maintenance

To maintain the appearance of your nanoblock figures, gently wipe them with a dry, soft cloth to remove dust. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the plastic blocks or printed details.
Store your assembled figures away from direct sunlight and extreme temperatures to prevent discoloration or deformation of the plastic material.

Troubleshooting

Missing Pieces

In the rare event that you find a piece missing from your kit, please contact nanoblock customer support. Provide your product details and proof of purchase for assistance.

Difficulty Assembling

Due to the small size of nanoblocks, assembly requires careful attention. If you encounter difficulty, ensure you are following the instructions precisely. A pair of fine-tipped tweezers can be helpful for manipulating and placing tiny pieces. Double-check the orientation of each block as shown in the diagrams.
