Assembly Instructions

The nanoblock Christmas Snowman kit includes a detailed, step-by-step instruction sheet. Follow these instructions carefully to ensure correct assembly. nanoblock pieces are very small (as small as 4mm x 5mm), requiring precision during construction.

1. **Preparation:** Open the package and carefully sort the blocks by color and shape if desired. This can help streamline the building process.
2. **Follow the Manual:** Refer to the included instruction booklet for visual guides and block placement. Each step illustrates which blocks to use and where to attach them.
3. **Precision Placement:** Due to the small size of nanoblocks, use tweezers (not included) for precise placement if needed. Ensure each block is firmly connected to the previous one for stability.
4. **Layer by Layer:** Build the model layer by layer, as indicated in the instructions. Pay close attention to the orientation of each block.
5. **Completion:** Once all steps are completed, your nanoblock Christmas Snowman will be ready for display.

Video: A product overview demonstrating the assembly process for a nanoblock kit, showing how to handle the small pieces and follow instructions. This video provides general tips applicable to all nanoblock models.

Display and Care

Once assembled, your nanoblock Snowman is a delicate display piece. Handle with care to prevent accidental disassembly.

- **Display:** Place the model on a stable, flat surface away from direct sunlight or extreme temperatures to preserve its colors and structural integrity.
- **Cleaning:** To clean, gently dust with a soft brush or a can of compressed air. Avoid using liquids or harsh chemicals.

Troubleshooting

- **Missing Pieces:** If you believe a piece is missing, double-check the packaging and your work area. Due to their small size, pieces can be easily overlooked.
- **Difficulty Connecting Blocks:** Ensure blocks are correctly oriented and aligned before applying gentle pressure. Avoid forcing blocks together, as this may cause damage.
- **Model Instability:** Re-examine previous steps to confirm all blocks are securely attached and in their correct positions.

Specifications

Product Name	nanoblock Christmas Snowman
Model Number	NBC-368
Number of Pieces	160
Approximate Height	2.52 inches (6.4 cm)
Difficulty Level	2 (Entry Level)
Recommended Age	8 years and up
Material	High-quality plastic
Manufacturer	Kawada
