# nanoblock My Hero Academia Vol. 3 mininano Series Building Kit Instruction Manual

Model: NBMC\_42S

## INTRODUCTION

This manual provides instructions for assembling the nanoblock My Hero Academia Vol. 3 mininano Series Building Kit. This set includes micro-sized building blocks to construct six characters from the My Hero Academia series. Please read all instructions carefully before beginning assembly.

## SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.**

This product contains very small building blocks. Adult supervision is recommended for younger builders. Keep all components away from small children and pets to prevent accidental ingestion.

## PACKAGE CONTENTS

The nanoblock My Hero Academia Vol. 3 mininano Series Building Kit (NBMC\_42S) is a complete blind box set containing all six characters. Each individual package includes the necessary blocks and detailed instructions for one character.

- Izuku Midoriya

## SETUP AND ASSEMBLY

Each character comes with its own set of blocks and a dedicated instruction sheet. Follow the steps below for general assembly guidance:

1. **Unpack:** Carefully open the individual character package. You will find several small bags of nanoblocks and a folded instruction sheet.
2. **Organize:** Empty the blocks onto a clean, flat surface. It is helpful to sort the blocks by color and size to make the assembly process easier.
3. **Follow Instructions:** Refer to the detailed step-by-step instructions provided with each character. These instructions typically use diagrams to show where each block should be placed.
4. **Precision:** nanoblocks are micro-sized (as small as 4mm x 4mm x 5mm), requiring careful placement. Use tweezers (not included) if needed for precise positioning.
5. **Secure Connections:** Ensure each block is firmly pressed into place to create a stable model.

## CARE AND MAINTENANCE

To ensure the longevity of your nanoblock models, follow these care guidelines:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to gently remove dust from the assembled models. Avoid using water or chemical cleaners, as these may damage the plastic or loosen connections.
- **Storage:** Store assembled models in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or warping.
- **Handling:** Handle models carefully to avoid accidental disassembly. If a part comes loose, reattach it according to the original instructions.

## TROUBLESHOOTING

- **Missing Pieces:** Carefully check all packaging and the assembly area. Due to their small size, blocks can be easily overlooked. If pieces are genuinely missing, contact customer support.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. Some blocks may require a firm, even press to snap into place.

- **Model Instability:** Double-check all connections. Loose blocks can lead to an unstable model. Refer to the instructions to verify each step.
- **Instructions Unclear:** Review the diagrams carefully. If a step remains unclear, try to visualize the connection from different angles or refer to online community resources for nanoblock builders.
