# **Naterial EORI Garden Gazebo (Model 3276000691105) Instruction Manual**

## **1. INTRODUCTION**

---

Thank you for choosing the Naterial EORI Garden Gazebo. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your gazebo. Please read these instructions carefully before use and retain them for future reference.

The Naterial EORI Garden Gazebo is designed to provide temporary shade and shelter for outdoor activities. It features a foldable steel frame and a waterproof, UV-protected polyester canopy, making it suitable for various garden and patio settings.

## 2. SAFETY INFORMATION

---

Always prioritize safety during assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Adult Assembly Required:** This product requires adult assembly. Keep children away during the assembly process.
- **Secure Installation:** Always anchor the gazebo securely to the ground using stakes or weights to prevent it from being lifted by wind. Do not use in strong winds or severe weather conditions.
- **Clearance:** Ensure adequate clearance from heat sources, open flames, and electrical lines.
- **Supervision:** Do not leave the gazebo unattended for extended periods, especially in unpredictable weather.
- **Weight Distribution:** Do not hang heavy objects from the frame.
- **Inspection:** Regularly inspect the frame and canopy for any signs of wear, damage, or loose connections. Replace damaged parts immediately.
- **Water Accumulation:** Do not allow water to accumulate on the canopy, as this can cause damage or collapse. Remove any standing water promptly.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Foldable Steel Frame (pre-assembled)
- Polyester Canopy (Light Grey)
- Ground Stakes (for securing)
- Storage Bag (for folded frame)

## 4. SETUP INSTRUCTIONS

---

Assembly of the Naterial EORI Garden Gazebo is designed to be straightforward due to its foldable frame. It is recommended that two people perform the assembly.

1. **Choose a Location:** Select a flat, level surface for the gazebo. Ensure there is sufficient space for the 2.95m x 2.95m footprint and adequate clearance around it.
2. **Unfold the Frame:** With a person at opposite corners, gently pull the folded frame outwards until it is partially open. Do not fully extend yet.

Figure 4.1: Illustration of the gazebo frame in its folded and partially unfolded states.

3. **Attach the Canopy:** Drape the polyester canopy over the partially opened frame. Secure the canopy corners to the frame's corner posts. Ensure the canopy is centered and evenly distributed.
4. **Fully Extend the Frame:** From underneath the canopy, push up on the central hub of the frame until it locks into place. You may hear a click. Ensure all cross-beams are fully extended and locked.

Figure 4.2: Detail of the frame joint mechanism, showing the locking button for secure assembly.

5. **Extend the Legs:** One by one, extend each leg downwards until it locks into the desired height. Press the push-pin button on each leg to adjust the height.

Figure 4.3: The leg adjustment pin allows for easy height modification and secure locking.

6. **Secure the Gazebo:** Use the provided ground stakes to anchor each leg base firmly to the ground. For additional stability, especially on hard surfaces, consider using sandbags or other weights on the leg bases.

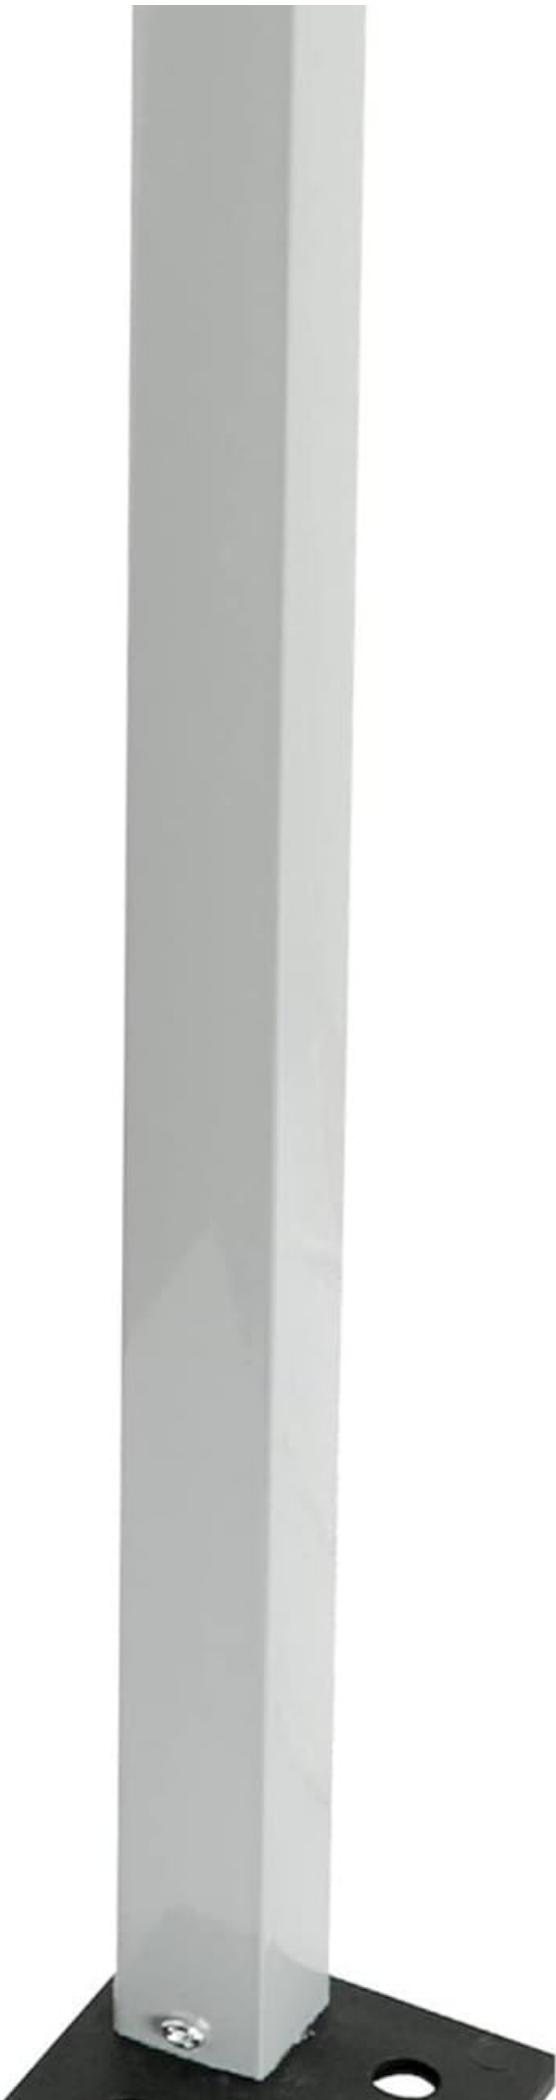

Figure 4.4: The leg base plate includes holes for securing the gazebo with ground stakes.

## 5. OPERATING THE GAZEBO

---

The Naterial EORI Garden Gazebo is designed for temporary outdoor use, providing shade and protection from light rain.

- **Shade and Shelter:** Position the gazebo to maximize shade during sunny periods. Its waterproof canopy offers protection from light precipitation.
- **Ventilation:** The open design allows for good airflow.
- **Disassembly:** To disassemble, reverse the setup steps. Retract the legs, unlock the frame, and gently push the frame inwards to fold it. Remove the canopy before folding the frame completely for storage.

Figure 5.1: The gazebo provides a comfortable shaded area in a garden setting.

## 6. MAINTENANCE AND STORAGE

---

Proper maintenance and storage will extend the lifespan of your Naterial EORI Garden Gazebo.

- **Cleaning the Canopy:** Clean the polyester canopy with mild soap and water. Do not use harsh chemicals or abrasive cleaners. Allow the canopy to air dry completely before folding and storing.
- **Frame Care:** Wipe the steel frame with a damp cloth to remove dirt. Ensure the frame is dry before storage to prevent rust. The alloy steel frame is designed to be rust-resistant.
- **Storage:** When not in use, especially during off-season or severe weather forecasts, disassemble the gazebo and store it in its provided storage bag. Store in a cool, dry place away from direct sunlight and extreme temperatures.

Figure 6.1: The gazebo frame folds compactly for convenient storage and transport.

## 7. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your gazebo.

- **Gazebo is unstable:** Ensure all legs are fully extended and locked. Verify that the frame is fully expanded and the central hub is locked. Use ground stakes and additional weights if necessary.
- **Canopy sags or collects water:** Ensure the canopy is correctly attached and stretched taut over the frame. Check that the frame is fully extended and locked at all points. Remove any accumulated water immediately.
- **Difficulty folding/unfolding:** Ensure all locking pins on the legs and frame joints are disengaged before attempting to fold. Do not force the frame; check for any obstructions.
- **Frame parts are stiff:** Apply a silicone-based lubricant to moving joints if they become stiff. Avoid oil-based lubricants that can attract dirt.

## 8. SPECIFICATIONS

---

Feature	Detail
Model Number	3276000691105
Brand	NATERIAL
Dimensions (Assembled)	295 cm (L) x 295 cm (W) x 255 cm (H)
Surface Area	8.8 m <sup>2</sup>
Weight	11.5 kg

Feature	Detail
Canopy Material	160 g/m <sup>2</sup> Polyester
Frame Material	Alloy Steel
UV Protection	Yes (90% UV protection)
Water Resistance	Waterproof
Assembly Required	Yes
