### Moen 84947SRN

## MOEN Banbury 8 in. Widespread Double Handle High-Arc Bathroom Faucet

Model: 84947SRN | Brand: Moen

### PRODUCT OVERVIEW

The Moen Banbury 8-inch Widespread Double Handle High-Arc Bathroom Faucet in Spot Resist Brushed Nickel is designed to provide both elegant style and practical functionality for your bathroom. Featuring a high-arc spout for ample clearance and two handles for precise control of water temperature and flow, this faucet is a sophisticated addition to any modern or traditional bathroom decor. The Spot Resist Brushed Nickel finish helps prevent water spots and fingerprints, making cleaning easier and maintaining its pristine appearance.

## INSTALLATION AND SETUP

This Moen Banbury faucet is designed for a **3-hole installation**, common for widespread bathroom sink configurations. Ensure your sink or countertop has three pre-drilled holes spaced appropriately for a widespread faucet. For optimal performance and to ensure proper sealing, it is recommended to follow the detailed instructions provided in the physical installation guide that accompanies the product. Professional installation is advised if you are unfamiliar with plumbing procedures.

## Will this faucet fit my sink?

This faucet fits a three hole configuration.

### Key Dimensions for Installation:

- **Height:** 8.50 inches (from deck to top of spout)
- **Spout Reach:** 4.90 inches (from center of faucet body to center of water stream)
- **Maximum Deck Thickness:** 1.25 inches
- **Connection Size:** 1/2 inch

## OPERATING INSTRUCTIONS

The Moen Banbury faucet features a double-handle design, allowing for precise control over both water temperature and flow. The left handle typically controls hot water, and the right handle controls cold water. Turning the handles counter-clockwise will increase water flow. The high-arc spout provides ample space for washing hands or filling containers in the sink.

## MAINTENANCE AND CARE

---

To maintain the pristine appearance and functionality of your Moen Banbury faucet, regular cleaning and proper care are essential. The **Spot Resist Brushed Nickel** finish is specifically designed to resist water spots and fingerprints, simplifying maintenance.

### Cleaning Guidelines:

- Use a soft, damp cloth and mild soap to clean the surface.
- Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- Wipe the faucet dry after each use to prevent mineral buildup and maintain its luster.

## Maintain the Brilliance

Spot Resist does just what it says, preventing water spots and fingerprints.

### TROUBLESHOOTING

If you encounter any issues with your Moen Banbury faucet, consider the following common troubleshooting steps before contacting support:

- **Low Water Pressure:** Check if the aerator is clogged with debris. Unscrew and clean the aerator. Ensure water supply valves are fully open.
- **Leaking Faucet:** A drip from the spout often indicates a worn-out cartridge. Consult the full product manual for cartridge replacement instructions. Leaks at the base might require tightening connections or replacing O-rings.
- **No Hot/Cold Water:** Verify that the hot and cold water supply lines are connected correctly and that the shut-off valves are open.
- **Stiff Handles:** Mineral buildup can cause handles to become stiff. Cleaning around the handle bases may help.

For more complex issues or if these steps do not resolve the problem, refer to the comprehensive troubleshooting guide in your product's full manual or contact Moen customer support.

## SPECIFICATIONS

---

Feature	Detail
Brand Name	Moen
Model Name	Moen Banbury 8 in. Widespread Double Handle High-Arc Bathroom Faucet in Spot Resist Brushed Nickel
Part Number	84947SRN
Color	No Color (Refers to finish: Spot Resist Brushed Nickel)
