› Sunrosa Semi-Frameless Tub Shower Door (Model 59-2/8"W x 60"H) Instruction Manual

Sunrosa 59-2/8"W x 60"H

Sunrosa Semi-Frameless Tub Shower Door Instruction Manual

Model: 59-2/8"W x 60"H, Brushed Gold Finish

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your Sunrosa Semi-Frameless Tub Shower Door. This single sliding door features tempered glass and a brushed gold finish, designed for bathtub enclosures. Please read all instructions carefully before beginning installation to ensure safe and correct assembly.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or property damage.

- Always wear safety glasses during installation.
- Handle glass panels with extreme care. Tempered glass, while strong, can shatter if struck at the edges.
- Ensure the installation surface (walls, bathtub rim) is structurally sound and level.
- Do not overtighten screws, as this can damage components or glass.
- Keep children and pets away from the installation area.
- If you are unsure about any step, consult a qualified professional.

3. PACKAGE CONTENTS

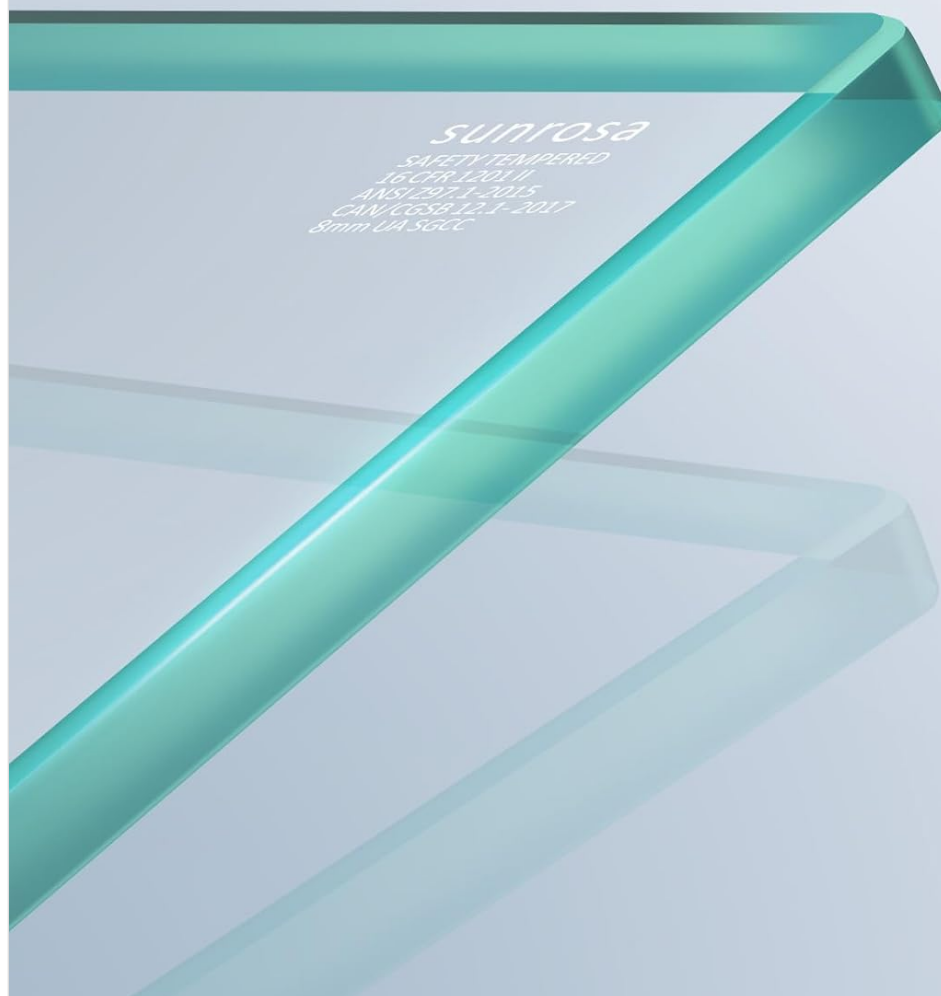

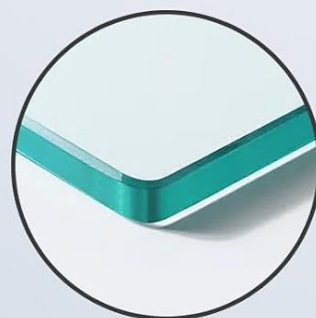

Verify that all components are present and undamaged before beginning installation. If any parts are missing or damaged, contact Sunrosa customer support.

- Glass panel
- Handle (Brushed Gold)
- Aluminum frame components (Brushed Gold)
- Rollers and guides
- Mounting hardware (screws, anchors, gaskets)
- Installation manual

4. SPECIFICATIONS

Feature	Detail

5. SETUP AND INSTALLATION

Professional installation is recommended. If performing a DIY installation, ensure you have the necessary tools and assistance.

5.1 Pre-Installation Measurements

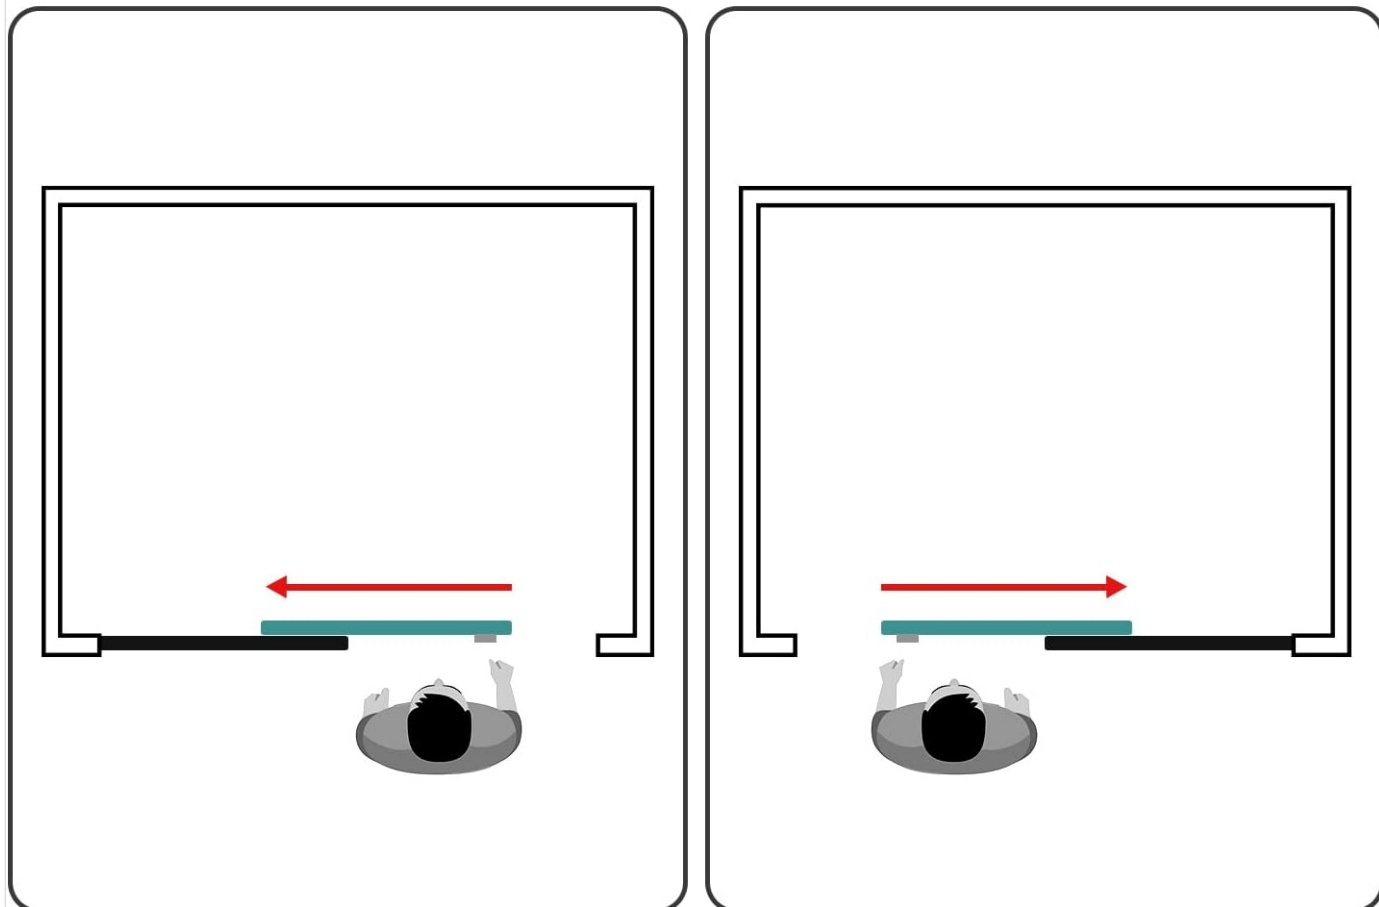

Before starting, accurately measure your bathtub and wall dimensions to ensure compatibility. The adjustable width range is 58 3/8" to 59 2/8", with a fixed height of 60".

5.2 Reversible Installation

The shower door is designed for reversible installation, allowing you to choose the opening direction that best suits your bathroom layout. Determine your preferred sliding direction before mounting the frame components.

REVERSIBLE INSTALLATION

Customize the right shower door opening and closing direction for you.

5.3 General Installation Steps (Summary)

1. **Prepare the Area:** Clean and dry the installation area. Ensure walls are plumb and the bathtub rim is level.
2. **Install Wall Profiles:** Mount the vertical wall profiles to the bathroom walls according to the chosen reversible direction. Use appropriate anchors for your wall type.
3. **Assemble Top and Bottom Tracks:** Secure the top and bottom aluminum tracks between the wall profiles.
4. **Install Fixed Glass Panel:** Carefully place the fixed glass panel into its designated position within the frame. Secure it with the provided gaskets and fasteners.
5. **Install Sliding Glass Panel:** Attach the rollers to the top of the sliding glass panel. Carefully hang the sliding panel onto the top track.

6. **Install Bottom Guide:** Position and secure the bottom guide for the sliding door on the bathtub rim.
7. **Attach Handle:** Install the brushed gold handle onto the sliding glass panel.
8. **Seal and Adjust:** Apply silicone sealant to all exterior joints where the frame meets the wall and bathtub. Test the door's sliding action and make any necessary adjustments to the rollers for smooth operation.

6. OPERATING INSTRUCTIONS

To open or close the shower door, gently grasp the brushed gold handle and slide the door along the top and bottom tracks. The door is designed for smooth and quiet operation.

7. MAINTENANCE AND CLEANING

Regular cleaning will help maintain the appearance and functionality of your shower door.

- **Glass Panels:** Clean tempered glass with a soft cloth and a non-abrasive glass cleaner. Avoid harsh chemicals or abrasive pads that can scratch the glass or damage the special lacquering process.
- **Aluminum Frame:** Wipe the brushed gold aluminum frame with a soft, damp cloth. For stubborn spots, use a mild, non-abrasive cleaner specifically designed for metal finishes.
- **Tracks and Rollers:** Periodically clean the top and bottom tracks to remove soap scum, hair, or debris that could impede smooth sliding. Check rollers for any buildup and clean as needed.
- **Seals:** Inspect seals and gaskets regularly for wear or damage. Replace if necessary to prevent leaks.

8. TROUBLESHOOTING

- **Door not sliding smoothly:** Check the top and bottom tracks for obstructions (e.g., debris, soap scum). Clean the tracks and rollers. Ensure rollers are properly aligned and lubricated if necessary.
- **Water leaking from the door:** Verify that all seals and gaskets are properly installed and intact. Check the silicone sealant around the frame and bathtub for cracks or gaps and reapply if needed. Ensure the door is fully closed when showering.
- **Door feels loose:** Inspect all mounting screws and fasteners to ensure they are tight. Do not overtighten.

9. WARRANTY AND SUPPORT

Sunrosa offers a guarantee for its products. If you are not completely satisfied with your product or receive a defective item, please do not hesitate to contact Sunrosa customer support for assistance. We are committed to resolving any issues you may encounter.

For support, please refer to the contact information provided with your purchase documentation or visit the official Sunrosa website.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
