ANPABO AMG G 63

ANPABO Licensed Mercedes-Benz G63 12V Ride-On Car Instruction Manual

Model: AMG G 63

1. INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your ANPABO Licensed Mercedes-Benz G63 12V Ride-On Car. Please read all instructions carefully before use and retain this manual for future reference.

2. SAFETY INFORMATION

Your child's safety is paramount. Adhere to the following guidelines:

- **Age Recommendation:** Suitable for children aged 24 months and up.
- **Adult Supervision:** Always supervise children during operation.
- **Seatbelt:** Ensure the child is securely fastened with the provided seatbelt before driving.
- **Soft Start:** The vehicle features a soft start mechanism to prevent sudden acceleration, reducing the risk of startling the child.
- **Parental Remote Control:** For younger children or added safety, parents can use the remote control to manage speed and direction, and activate the emergency stop function.
- **Power Switch:** The car will only start when the power switch is engaged, preventing accidental activation.
- **Low Battery Prompt:** The vehicle provides a voice prompt when the battery is low, indicating it's time to recharge.
- **Environment:** Use on flat, even surfaces. Avoid public roads, steep inclines, or hazardous areas.

3. PRODUCT FEATURES

- **Authentic Design:** Officially licensed Mercedes-Benz G63 replica with iconic grille and detailing.
- **Dual Driving Modes:** Operates via child-controlled pedal and steering wheel, or parent-controlled remote.

- **Powerful Performance:** Equipped with two 35W motors and a 12V rechargeable battery, reaching speeds up to 3 MPH.
- **Durable Wheels:** Treaded wheels provide enhanced grip for various terrains, including grass and asphalt.
- **Smooth Ride:** Features spring suspensions for a comfortable and stable driving experience.
- **Interactive Dashboard:** Includes LED headlights, horn, engine sounds, and a music player with USB and Bluetooth connectivity.
- **Battery Monitoring:** Unique battery indicator with visual level display and low battery voice prompt.
- **Portability:** Designed with a hidden handle for easy transportation.

Image: Detailed view of the car's wheels, illustrating features like enhanced grip, wear-resistance, and integrated shock absorbers for a smoother ride across different surfaces.

Image: The ride-on car is shown with its hidden portable handle extended from the rear, demonstrating the 'Easy Dragging Design' for convenient transport.

4. SETUP

Follow these steps to assemble your ANPABO Mercedes-Benz G63 Ride-On Car:

1. **Unboxing:** Carefully remove all components from the packaging.
2. **Wheel Assembly:** Attach the wheels to the axles, securing them with the provided washers and nuts. Ensure they are firmly in place.
3. **Battery Connection:** Locate the battery compartment, typically under the seat. Connect the red wire to the red terminal and the black wire to the black terminal. Ensure a secure connection.
4. **Seat Installation:** Place the seat into its designated position and secure it with the screws.
5. **Steering Wheel Attachment:** Connect the steering wheel to the steering column, ensuring all wires are properly connected before securing.
6. **Windshield Installation:** Attach the windshield to the front of the car.
7. **Side Mirror Attachment:** Secure the side mirrors to the designated slots on the doors.
8. **Spare Tire Cover:** Attach the decorative spare tire cover to the rear of the vehicle.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

- To turn on the car, press the red power button on the dashboard. You will hear engine startup sounds and the LED headlights will illuminate.
- To turn off the car, press the red power button again.

5.2 Driving Modes

- **Manual Mode (Child Operated):** The child can press the foot pedal to accelerate and use the steering wheel to control direction.
- **Parental Remote Control Mode:** For younger children, an adult can use the remote control to drive the car. The remote allows control over forward/backward movement, left/right steering, and speed settings.

Image: A child is shown driving the ride-on car while a parent holds the remote control, illustrating the dual control feature with variable speeds and an emergency brake option.

5.3 Speed and Direction Control

- Use the forward/backward switch on the dashboard to select the desired direction.
- Press the foot pedal to move the car. Release the pedal to stop.
- The remote control also has buttons for forward, backward, left, and right movement.

5.4 Music and Sound Features

- **Built-in Music:** The car comes with pre-loaded songs. Use the controls on the dashboard or steering wheel to play/pause and switch tracks.
- **USB/Bluetooth:** Connect a USB device or pair your phone via Bluetooth to play your own music through the car's speakers.
- **Horn:** Press the horn button on the steering wheel to activate the horn sound.
- **LED Headlights:** The headlights automatically turn on when the car is powered on.

Image: A child enjoys driving the ride-on car, with visual cues indicating features like USB and Bluetooth connectivity for music, engine startup sounds, and LED display. A smartphone is shown connected, demonstrating music playback.

6. MAINTENANCE

6.1 Charging the Battery

- Locate the charging port, typically on the dashboard or under the seat.
- Plug the charger into the port and then into a standard wall outlet.

- Charge the battery for the recommended duration (refer to specifications). Do not overcharge.
- The battery indicator will show the current charge level.

Image: The ride-on car is displayed with an overlay highlighting its 'Rechargeable Battery' (12V 7Ah) and indicating its speed range of 1.8-3.1 Mph.

UNIQUE BATTERY INDICATOR

Image: A detailed view of the car's dashboard, featuring a battery indicator with LED lights to show the battery level and a microphone icon indicating a low battery voice prompt.

6.2 Cleaning and Storage

- Clean the car with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Store the car in a dry, cool place away from direct sunlight and moisture.
- If storing for an extended period, ensure the battery is fully charged and disconnect it if recommended by the manufacturer.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move	Battery is low or disconnected; Power switch is off; Fuse blown.	Charge battery; Check battery connections; Turn on power switch; Check and replace fuse if necessary.

Problem	Possible Cause	Solution
Car moves slowly	Low battery; Overload (too much weight); Rough terrain.	Recharge battery; Reduce load; Move to smoother terrain.
Remote control not working	Remote batteries dead; Not paired correctly.	Replace remote batteries (2*1.5 AAA batteries not included); Refer to remote pairing instructions in the full manual.
No sound/music	Volume too low; Device not connected properly.	Increase volume; Check USB/Bluetooth connection.

8. SPECIFICATIONS
