Team Power Smoke Pumping Engine Monster Truck

Team Power Monster Truck Instruction Manual

Model: Smoke Pumping Engine Monster Truck

PRODUCT OVERVIEW

The Team Power Smoke Pumping Engine Monster Truck is an interactive toy designed for children aged 3 and up. It features automatic wheel movements, realistic engine sounds, flashing lights, and a unique smoke-pumping function that operates by adding water. This durable toy provides an engaging play experience with multiple action buttons to control its features.

SETUP

1. Battery Installation

The monster truck requires 4 AA batteries, which are included with the product. To install the batteries:

1. Locate the battery compartment on the underside of the truck.
2. Using a small screwdriver (not included), open the battery compartment cover.
3. Insert 4 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

2. Adding Water for Smoke Effect

The truck features a smoke-pumping engine effect that uses water vapor. A water dropper is included for this purpose.

1. Locate the water inlet on the top of the truck, near the engine exhaust.
2. Use the provided water dropper to carefully add a small amount of clean water into the inlet. Do not overfill.

3. Ensure the water inlet cap (if present) is securely closed after filling.

OPERATING INSTRUCTIONS

The Team Power Monster Truck is designed for simple and intuitive operation. It features automatic movements, lights, and sounds activated by pressing buttons on the truck's body.

1. Power On/Off

Locate the power switch on the underside or side of the truck. Slide it to the "ON" position to activate the truck's functions. Slide to "OFF" when not in use to conserve battery life.

2. Action Buttons

The truck is equipped with three distinct action buttons on its roof, each controlling different features:

- **Movement Button:** Activates automatic forward and backward movements.
- **Sound Button:** Triggers realistic engine sounds and music.
- **Smoke/Light Button:** Activates the smoke-pumping effect and flashing lights.

Figure 4: The truck in action, showcasing its lights, sounds, and smoke effect.

3. Automatic Wheel Movements

When the movement button is pressed, the truck will automatically move forward and backward, simulating a real monster truck's driving action. The durable rubber wheels provide good traction on various indoor surfaces.

FLASHING LIGHTS AND RUBBER WHEELS

MAINTENANCE

1. Cleaning

To clean the truck, wipe it with a soft, damp cloth. Do not immerse the truck in water or use harsh chemicals, as this may

damage the electronic components.

2. Battery Replacement

When the truck's lights dim, sounds become faint, or movements slow down, it is time to replace the batteries. Follow the battery installation steps outlined in the "Setup" section.

3. Water for Smoke Effect

Only use clean tap water for the smoke effect. Distilled water is recommended to prevent mineral buildup. Empty any remaining water from the reservoir before long-term storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Truck does not turn on or operate.	Batteries are dead or incorrectly installed.	Check battery polarity. Replace with new AA batteries. Ensure power switch is in "ON" position.
Smoke effect is weak or absent.	Water reservoir is empty or low. Mineral buildup in the smoke mechanism.	Refill water reservoir with clean water. If problem persists, gently clean the water inlet area.
Sounds are distorted or too quiet.	Low battery power.	Replace batteries.

SPECIFICATIONS

- **Product Dimensions:** 8.66 x 6.14 x 5.91 inches
- **Item Weight:** 1.41 pounds
- **Batteries:** 4 AA batteries (included)
- **Recommended Age:** 3 years and up
- **Manufacturer:** Powco
