GIANTEX GT10139-PN

GIANTEX Patio Bar Table Instruction Manual

Model: GT10139-PN

INTRODUCTION

Thank you for choosing the GIANTEX Patio Bar Table. This manual provides essential information for the safe assembly, operation, and maintenance of your new table. Please read these instructions thoroughly before assembly and retain them for future reference.

SAFETY INFORMATION

Caution: Please observe the following safety guidelines to prevent injury or damage to the product.

- Do not exceed the maximum weight capacity of **165 lbs (75 kg)**. Overloading can cause the table to collapse, leading to injury or damage.
- Ensure all bolts and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Place the table on a flat, stable, and level surface to prevent tipping.
- Use the non-slip footpads provided to protect the ground from scratches and enhance stability.
- Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- Avoid standing or sitting on the table. It is designed for holding items, not supporting body weight.
- Do not expose the table to extreme weather conditions for prolonged periods without proper protection, as this may affect its longevity.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer service for assistance.

- 1 x Bar Table

- 1 x Instruction Manual
- All necessary hardware (bolts, washers, wrench, etc.)

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the GIANTEX Patio Bar Table is designed to be straightforward. Follow these steps carefully.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Identify Parts:** Refer to the included parts diagram (if available in your package) to identify each component.
3. **Attach Legs to Tabletop Frame:** Secure the table legs to the tabletop frame using the provided bolts and washers. Do not fully tighten the bolts at this stage.
4. **Install Crossbars/Support Frame:** Connect any crossbars or support frames between the legs as indicated in the diagram. Again, hand-tighten bolts only.
5. **Final Tightening:** Once all components are loosely assembled, place the table upright on a level surface. Apply gentle downward pressure to ensure all parts are aligned. Then, systematically tighten all bolts with the provided wrench until secure. Do not overtighten.
6. **Attach Footpads:** Ensure the non-slip footpads are securely attached to the bottom of each leg.

OPERATING INSTRUCTIONS

The GIANTEX Patio Bar Table is designed for versatile use in various indoor and outdoor settings.

- **Placement:** This table is suitable for dining rooms, courtyards, gardens, balconies, poolside areas, decks, and other similar locations.
- **Usage:** Use the table for meals, holding drinks, snacks, books, or as a general surface for leisure activities. Its 36.5-inch height is compatible with most standard bar stools.
- **Stability:** Always ensure the table is placed on a stable, level surface. Avoid placing heavy or unbalanced items on the edges to prevent tipping.

MAINTENANCE

Proper care will ensure the longevity and appearance of your GIANTEX Patio Bar Table.

- **Cleaning:** Wipe the table surface and frame with a dry cloth to remove dust and debris. For more stubborn dirt, use a damp cloth with mild soap and water, then dry thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, harsh chemicals, or solvents, as these can damage the powder-coated steel frame and the wood-like tabletop finish.
- **Rust Prevention:** The steel frame is powder-coated for rust resistance. However, to maximize protection, especially in humid environments, avoid prolonged exposure to moisture.
- **Seasonal Storage:** During harsh weather conditions (e.g., heavy rain, snow, extreme cold), it is recommended to store the table indoors or cover it with a protective outdoor furniture cover.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

If you encounter any issues with your patio bar table, refer to the following common solutions:

- **Table Wobbles:**
 - Ensure the table is on a completely level surface.
 - Check that all assembly bolts are securely tightened. Loosen slightly, adjust the table to level, then re-tighten.
 - Verify that all footpads are properly installed and making even contact with the ground.
- **Difficulty Assembling:**
 - Review the assembly instructions carefully, paying close attention to diagrams.
 - Ensure you are using the correct hardware for each step.
 - Do not fully tighten bolts until all components are loosely fitted together. This allows for minor adjustments.
- **Scratches on Surface:**
 - While the tabletop is scratch-resistant, avoid dragging sharp or heavy objects across its surface.
 - Use placemats or coasters to protect the surface from hot items or spills.

If problems persist, please contact GIANTEX customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	GIANTEX
Model Number	GT10139-PN
Color	Natural & Black
Material Type	Alloy Steel, Engineered Wood
