4. OPERATING INSTRUCTIONS

The HXSJ J900 mouse features multiple buttons for enhanced functionality:

Figure 5: Button layout and functions of the HXSJ J900 mouse.

- **Left Button:** Standard left-click function.
- **Right Button:** Standard right-click function.
- **Middle Button (Scroll Wheel):** Used for scrolling and as a clickable middle button.
- **Forward Key:** Navigates forward in web browsers or file explorers.
- **Back Button:** Navigates backward in web browsers or file explorers.
- **DPI Key:** Press this button to cycle through the available DPI settings (800-1600-2400-3200-4800-6400). Each press changes the sensitivity.
- **Light Mode Key:** Press this button to cycle through the 7 programmable RGB backlight modes.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your HXSJ J900 mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** When not in use for extended periods, store the mouse in a clean, dry environment.

6. TROUBLESHOOTING

If you encounter issues with your HXSJ J900 mouse, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely plugged in. Try a different USB port. Restart your computer.
DPI setting not changing	DPI button not pressed correctly, software conflict.	Press the DPI button firmly. Ensure no other mouse software is interfering.
RGB lighting not working or stuck	Light mode button not pressed, power issue.	Press the Light Mode key to cycle through modes. Re-plug the USB cable.
Inaccurate tracking or cursor jumps	Dirty optical sensor, unsuitable mouse pad surface.	Clean the optical sensor. Use a clean, uniform mouse pad surface.

7. PRODUCT SPECIFICATIONS
