

WiZ 929003210801

WiZ Smart LED Imageo Spotlight Plate (3x GU10 5W) User Manual

Model: 929003210801

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your WiZ Smart LED Imageo Spotlight Plate. This smart lighting system offers versatile illumination with adjustable white and colored light, motion detection via SpaceSense technology, and voice control capabilities.

Figure 1: WiZ Smart LED Imageo Spotlight Plate with three GU10 bulbs and its product packaging.

2. PACKAGE CONTENTS

- 1x WiZ Smart LED Imageo Spotlight Plate (White)

- 3x GU10 5W Smart LED Bulbs
- Installation Hardware (screws, wall plugs)
- User Manual (this document)

3. SAFETY INFORMATION

- Ensure power is disconnected before installation or maintenance.
- Installation should be performed by a qualified electrician if you are unsure.
- Do not expose the product to water or excessive moisture.
- Use only GU10 bulbs as specified.

4. INSTALLATION

1. **Power Off:** Turn off the main power supply at the circuit breaker before beginning installation.
2. **Mounting the Plate:** Secure the circular ceiling plate to your desired location using the provided screws and wall plugs. Ensure the mounting surface is suitable to support the fixture's weight.
3. **Wiring:** Connect the electrical wires from your ceiling to the terminal block on the spotlight plate. Follow local electrical codes and ensure proper grounding.
4. **Insert Bulbs:** Gently insert the three GU10 smart LED bulbs into the spotlight sockets.
5. **Adjust Spotlights:** Adjust the direction of each spotlight as needed.
6. **Power On:** Restore power at the circuit breaker. The lights should turn on.

INSTALLA LE LUCI E INIZIA IN POCHI MINUTI

1. Installa il tuo nuovo faretto WiZ.

Figure 2: Visual guide for installing WiZ smart lights and downloading the app.

5. INITIAL SETUP AND APP CONNECTION

1. **Download the WiZ App:** Download the WiZ app from the Apple App Store or Google Play Store.
2. **Create an Account:** Open the app and follow the on-screen instructions to create a new WiZ account or log in to an existing one.
3. **Pairing:** In the app, select "Add Device" and follow the pairing process. Ensure your Wi-Fi network is active and your phone is connected to the 2.4GHz band during setup.
4. **Room Assignment:** Assign your new spotlight plate to a room within the app for organized control.

6. OPERATING YOUR WiZ SMART LED SPOTLIGHT

6.1. Basic Control (WiZ App)

- **On/Off:** Toggle the lights on or off directly from the app.
- **Dimming:** Adjust the brightness level using the dimmer slider in the app.
- **White Light Adjustment:** Change the white light from warm (yellowish) to cool (bluish) tones to suit your preference or time of day.
- **Color Selection:** Choose from millions of colors to create various ambiances.
- **Preset Scenes:** Utilize pre-programmed lighting scenes for different activities or moods.

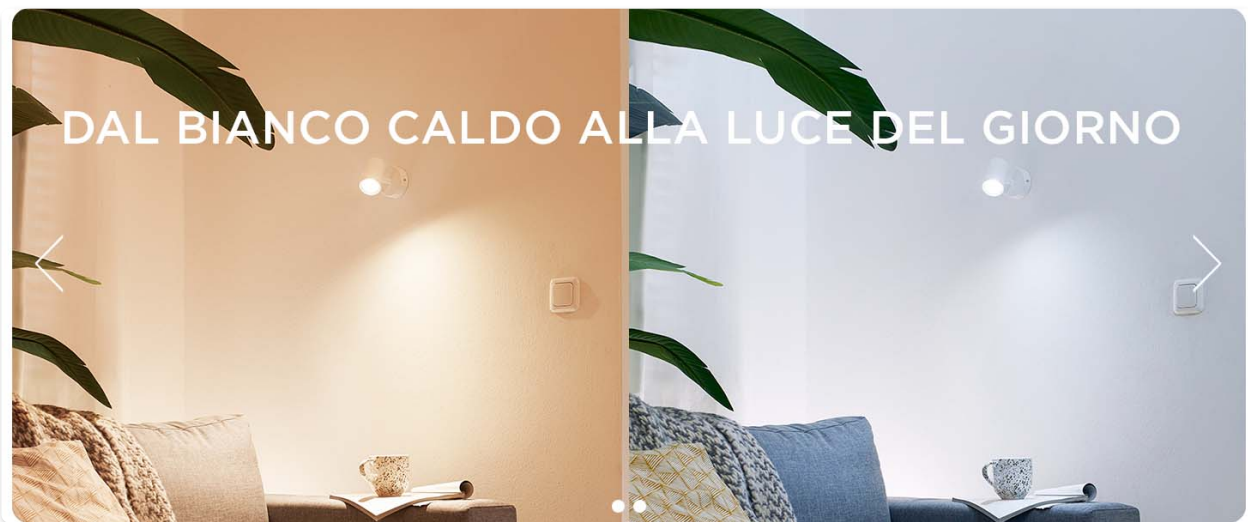

Figure 3: The WiZ spotlight plate can produce light from warm white to cool white.

Figure 4: The WiZ spotlight plate offers millions of color options for personalized lighting.

6.2. SpaceSense Motion Detection

The WiZ SpaceSense technology uses Wi-Fi signals to detect movement in a room without requiring additional sensors. This allows your lights to turn on automatically when you enter and off when you leave.

- **Activation:** Enable SpaceSense in the WiZ app for the desired room.
- **Sensitivity Adjustment:** Adjust the sensitivity settings in the app to fine-tune motion detection. You can set it to detect all movement or only human movement, ignoring pets.
- **No Extra Sensors:** This feature works using the existing WiZ lights and your Wi-Fi network, eliminating the need for separate motion sensors or batteries.

Your browser does not support the video tag.

Video 1: Demonstration of WiZ SpaceSense technology, showing lights automatically turning on and off based on movement detection.

6.3. Voice Control

The WiZ Smart LED Spotlight Plate is compatible with popular voice assistants, allowing for hands-free control.

- **Supported Platforms:** Works with Amazon Alexa, Apple HomeKit, and Google Home.
- **Setup:** Link your WiZ account to your preferred voice assistant app (e.g., Alexa app, Google Home app).
- **Commands:** Use voice commands such as "Alexa, turn on the living room lights," "Hey Google, dim the kitchen spotlights to 50%," or "Siri, set the bedroom lights to blue."

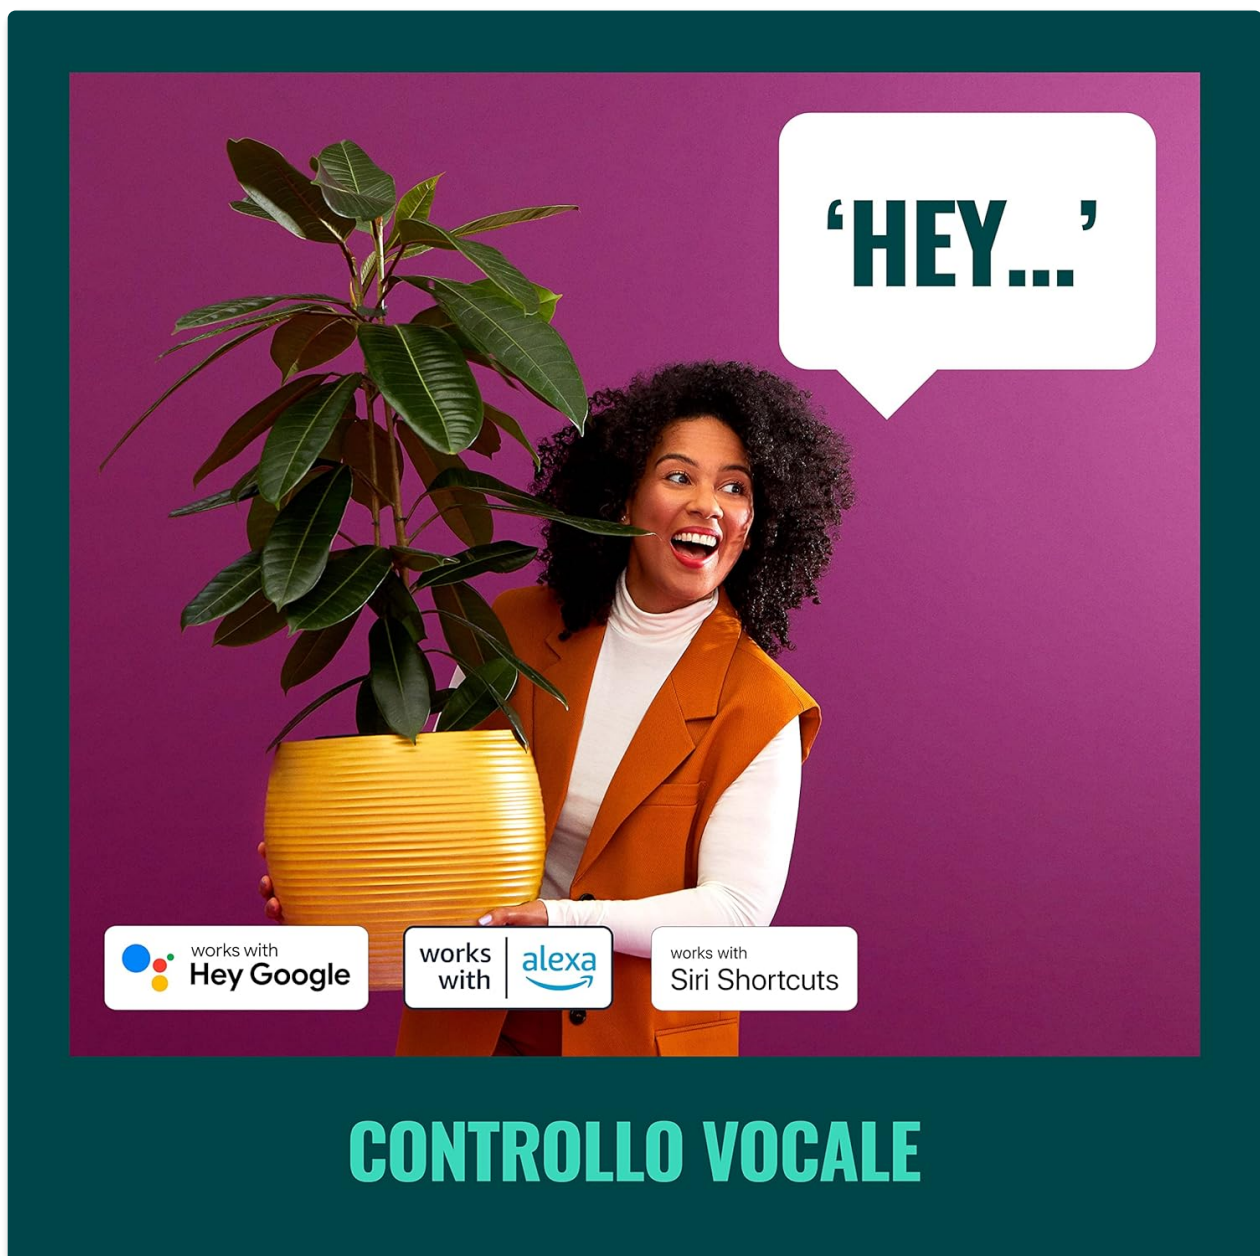

Figure 5: The WiZ system supports voice control via popular smart home platforms.

6.4. Schedules and Routines

Automate your lighting to fit your daily routine.

- **Scheduling:** Set specific times for lights to turn on/off, change brightness, or alter color.

- **Circadian Rhythm:** Enable Circadian Rhythm to automatically adjust light color and brightness throughout the day to mimic natural light patterns, promoting well-being.

Figure 6: Overview of advanced control features including scene personalization, remote control, scheduling, and circadian rhythm.

7. MAINTENANCE

- **Cleaning:** Disconnect power before cleaning. Wipe the fixture with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** Ensure power is off. Allow bulbs to cool before handling. Twist and pull to remove old GU10 bulbs, then insert new ones by aligning and twisting.
- **Software Updates:** Regularly check the WiZ app for firmware updates to ensure optimal performance and access to new features.

8. TROUBLESHOOTING

- **Lights Not Responding:**
 - Check if the main power switch is on.
 - Ensure your Wi-Fi network is active and stable.
 - Verify that the WiZ app is connected to the correct Wi-Fi network.
 - Try power cycling the spotlight plate (turn off for 10 seconds, then on).
- **Difficulty Pairing:**
 - Ensure your phone is connected to a 2.4GHz Wi-Fi network during pairing.
 - Move closer to your Wi-Fi router.
 - Reset the bulbs by turning them on/off three times (on for 1-2 seconds, off for 1-2 seconds) until they flash.
- **SpaceSense Not Detecting Movement:**
 - Increase the sensitivity setting in the WiZ app.
 - Ensure there are at least two WiZ lights in the room for optimal detection.
 - Check for obstructions that might block Wi-Fi signals.
- **Voice Control Issues:**

- Confirm that your WiZ account is correctly linked to your voice assistant.
- Check your internet connection.
- Ensure the device name in the WiZ app matches the name used in voice commands.

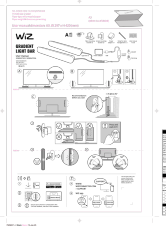

9. SPECIFICATIONS

Feature	Specification
Brand	WiZ
Model Number	929003210801
Product Dimensions	12 x 11 x 26 cm
Weight	1 kg
Color	White
Material	Metal (fixture), Plastic (shade)
Style	Contemporary
Number of Lights	3
Bulb Type	LED
Bulb Base	GU10
Wattage (per bulb)	5 Watt
Luminous Flux	1350 lumens (total)
Voltage	230 Volt (AC)
IP Rating	IP20
Average Lifespan	15,000 Hours
Special Features	Dimmable, Energy Saving, SpaceSense Technology, Voice Control

10. WARRANTY AND SUPPORT
