ZINUS ZU-FPWNH2-12K

ZINUS Moiz Wood Platform Bed Frame

Instruction Manual

Model: ZU-FPWNH2-12K

Product Overview

The ZINUS Moiz Wood Platform Bed Frame combines the natural elegance of a solid wood frame with the comfort of a soft, upholstered headboard. Designed for stability and ease of use, this bed frame eliminates the need for a box spring, providing direct support for your mattress.

Key features include a button-tufted upholstered headboard with foam cushioning, a durable wood frame with center support legs, and wood slats designed to extend mattress life. The headboard height is adjustable during assembly to accommodate various mattress thicknesses.

Features:

- **Solid Wood Construction:** Crafted from solid wood, plywood, MDF, and steel for durability.
- **Adjustable Headboard:** Headboard height can be set to 41.7 or 46.7 inches during assembly.
- **No Box Spring Needed:** Reliable wood slats provide direct mattress support.
- **High Weight Capacity:** Supports up to 700 lbs.
- **Easy Assembly:** All necessary parts, tools, and instructions are included for quick setup.
- **Upholstered Headboard:** Grey button-tufted fabric with foam cushioning for comfort.

Setup and Assembly

The ZINUS Moiz Wood Platform Bed Frame is designed for straightforward assembly. All required parts and tools

are conveniently packed within the shipping box. It is recommended to assemble with a friend's help for optimal ease and speed.

Before You Begin:

- Clear an open space for assembly.
- Unpack all components and verify against the parts list provided in your package.
- Keep all hardware organized.

Assembly Steps:

1. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided bolts and tools. Ensure all connections are secure but do not fully tighten yet.
2. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard, securing with bolts.
3. **Install Center Support Beam:** Place the center support beam along the length of the frame and secure it to the headboard and footboard. Attach any necessary support legs to the center beam.
4. **Adjust Headboard Height (Optional):** If your headboard has adjustable height settings, select your desired height (41.7 or 46.7 inches) and secure it in place.
5. **Install Wood Slats:** Lay the wood slats across the frame, ensuring they are evenly spaced. Many ZINUS frames feature a Velcro system to keep slats in place. Secure the slats to the frame as per the instructions.
6. **Final Tightening:** Once all components are in place, go back and fully tighten all bolts and screws. Do not overtighten.

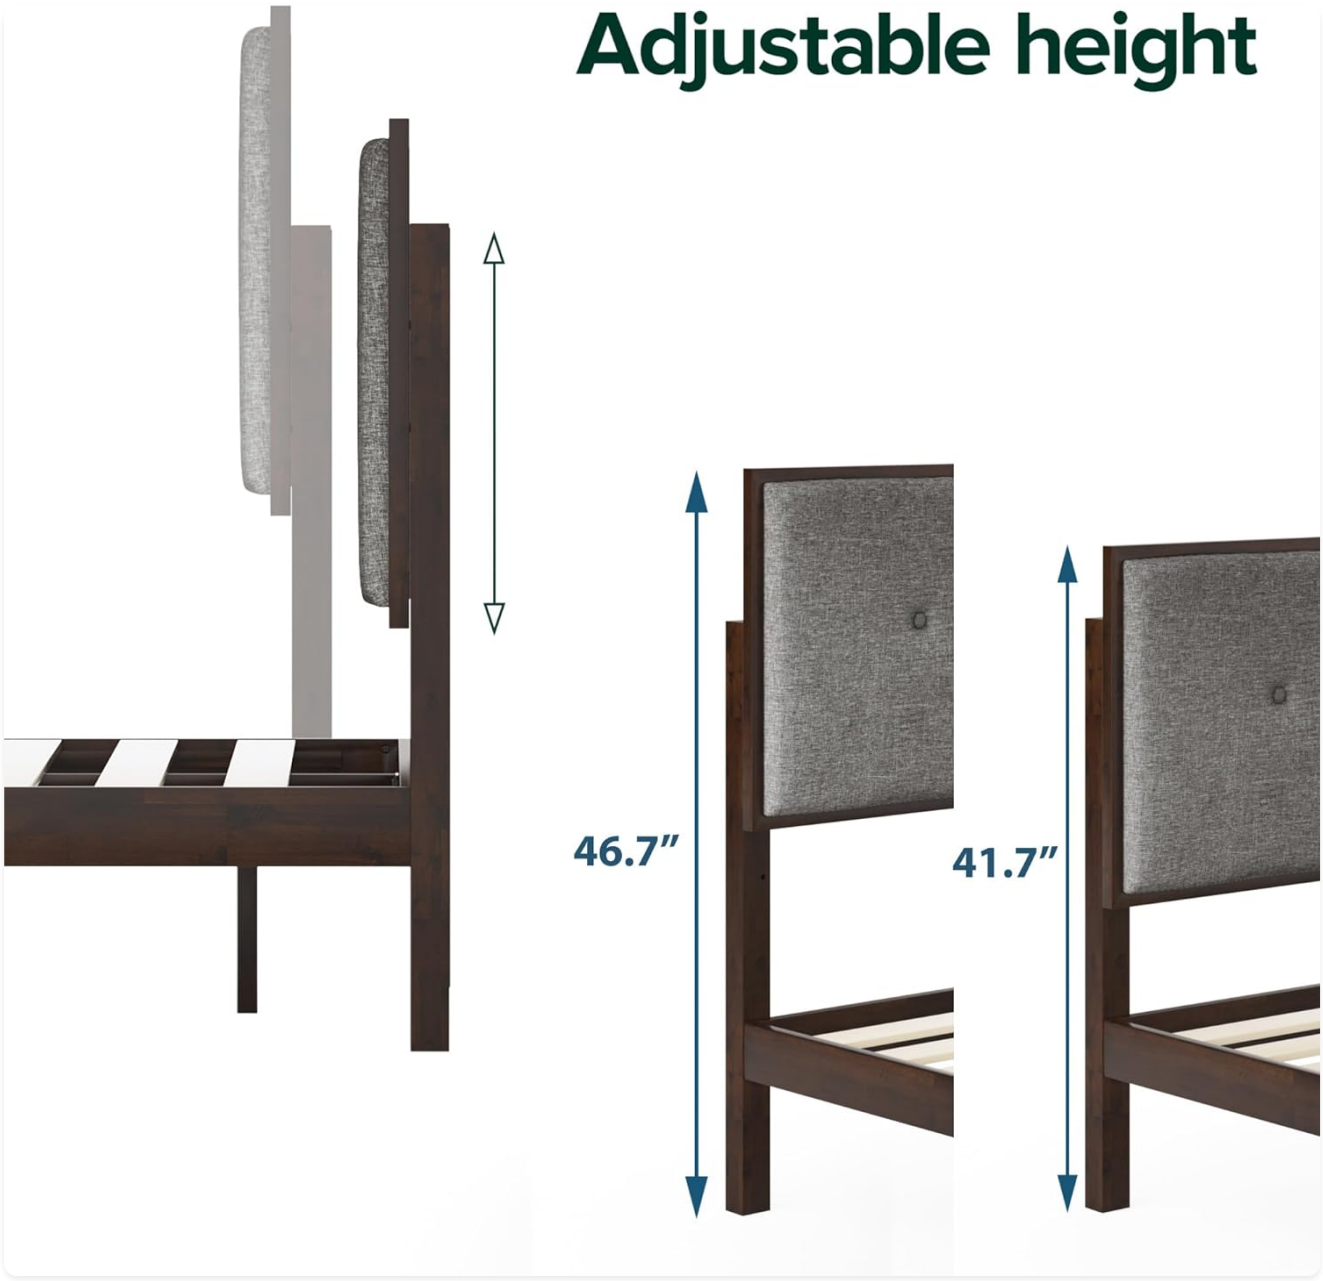

Image: Illustration demonstrating the adjustable height feature of the headboard, allowing for two different height settings to suit mattress thickness.

Operating Instructions

The ZINUS Moiz Wood Platform Bed Frame is designed for simple and reliable operation once assembled.

Mattress Placement:

- Place your mattress directly onto the wood slats. A box spring is not required.
- Ensure the mattress is centered on the frame for even weight distribution.

Weight Capacity:

- The bed frame is designed to support a total weight of up to 700 lbs (including mattress and occupants).
- Do not exceed this weight limit to ensure stability and prevent damage.

Maintenance

Proper care and maintenance will help prolong the life and appearance of your ZINUS Moiz Wood Platform Bed Frame.

Wood Frame Care:

- Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- For deeper cleaning, use a wood-safe cleaner as directed by the product manufacturer.
- Protect wood from direct sunlight and extreme temperature changes to prevent warping or fading.

Upholstered Headboard Care:

- Vacuum the fabric regularly using an upholstery attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub.
- For stubborn stains, consult a professional upholstery cleaner or use a fabric-specific cleaner, testing on an inconspicuous area first.

General Maintenance:

- Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.
- Avoid dragging the bed frame when moving it; lift it to prevent damage to legs and joints.

Troubleshooting

If you encounter any issues with your ZINUS Moiz Wood Platform Bed Frame, refer to the common solutions below.

Squeaking Noises:

- **Check all bolts:** Ensure all assembly bolts are securely tightened. Loose connections are a common cause of squeaking.
- **Verify slat placement:** Make sure all wood slats are properly seated and evenly spaced across the frame.
- **Inspect center support:** Confirm that the center support beam and its legs are firmly in place and making proper contact with the floor.

Instability or Wobbling:

- **Re-check assembly:** Review the assembly instructions to ensure all steps were followed correctly and all parts are installed in their designated positions.
- **Tighten all connections:** Systematically tighten every bolt and screw on the frame.
- **Ensure level surface:** Make sure the bed frame is placed on a flat, level floor. Uneven surfaces can cause wobbling.

Mattress Sliding:

- Some ZINUS bed frames include non-slip tape on the slats. Ensure this tape is clean and making good contact with your mattress.
- Consider using a non-slip mattress pad between the mattress and the slats if sliding persists.

Specifications

Attribute	Detail
Model Number	ZU-FPWNH2-12K
