Olakids 12V Battery Powered Electric Toy Car

OLAKIDS Kids Ride-On Truck User Manual

Model: 12V Battery Powered Electric Toy Car

Introduction

Thank you for choosing the OLAKIDS Kids Ride-On Truck. This manual provides important information for the safe assembly, operation, and maintenance of your new electric toy car. Please read it thoroughly before use and keep it for future reference. This 12V battery-powered electric toy car is designed to provide a realistic and fun driving experience for children aged 3-7 years, featuring parental remote control, spring suspension, LED lights, and music functions.

Safety Information

Your child's safety is paramount. Please adhere to all safety guidelines.

- **Adult Supervision Required:** Always supervise children when operating the vehicle.
- **Age and Weight Limits:** Suitable for children aged 3-7 years old, with a maximum weight capacity of 66 lbs (30 kg).
- **Seat Belt Use:** Ensure the adjustable seat belt is securely fastened before each use.
- **Safe Driving Environment:** Operate the vehicle on flat, dry surfaces away from public roads, swimming pools, or steep inclines.
- **Soft Start Function:** The vehicle is equipped with a soft start function to prevent sudden acceleration, ensuring a smoother and safer ride.
- **Battery Safety:** Only use the provided charger. Do not overcharge the battery. Refer to the "Maintenance" section for charging instructions.
- **Material Compliance:** This product complies with US CPSIA and ASTM Requirements, made from safe materials free from BPA, PVC, Phthalates, Lead, Latex, and Formaldehyde.

Package Contents

Please check the package to ensure all items are present and undamaged.

- 1 x OLAKIDS Kids Ride-on Car

- 1 x Charger
- 1 x Remote Control (*AAA batteries not included*)
- 1 x Use Guide (this manual)

Setup and Assembly

Assembly is required before first use. Please follow these general steps. For detailed visual instructions, refer to the assembly video if available or the included assembly diagram.

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Wheel Installation:** Attach the four wear-resistant wheels to the axles. Ensure they are securely fastened.
3. **Steering Wheel Assembly:** Install the steering wheel, connecting any necessary electrical wires for horn and music functions.
4. **Seat and Seat Belt:** Secure the seat in place and ensure the multi-point seat belt is properly installed.
5. **Battery Connection:** Connect the battery terminals. Ensure correct polarity.
6. **Initial Charge:** Fully charge the battery before the first use (refer to "Maintenance" section).

Operating Instructions

Driving Modes

- **Child Control Mode:**

  Children can operate the truck using the foot pedal for acceleration and the steering wheel for direction. The foot pedal also acts as a brake when released.

Image: A child happily seated in the OLAKIDS Ride-On Truck, demonstrating the driving position.

- **Parental Remote Control Mode:**

  For younger children or for parental assistance, use the included 2.4GHz remote control. This allows parents to control the vehicle's movement (forward/backward) and steering. Ensure the remote control has 1.5V AAA batteries (not included).

Dashboard and Controls

Familiarize yourself with the controls located on the dashboard and steering wheel.

Perfect Detail

Image: Close-up of the steering wheel and dashboard, highlighting the horn button, music button, and various input ports.

- **Power Switch:** Turns the vehicle on/off.
- **Forward/Stop/Backward Switch:** Selects the driving direction.
- **Foot Pedal:** Press to accelerate, release to brake.
- **Horn Button:** Activates the horn sound.
- **Music Button:** Plays built-in music.
- **Light Switch:** Controls the bright LED lights.
- **MP3 Player/AUX Input:** Connect external audio devices.
- **USB Port & TF Card Slot:** Insert USB drives or TF cards to play your own music.
- **Rocking Mode:** The vehicle also features a rocking mode for stationary entertainment.

Multifunction Steering Wheel

Music & Horn sound, bring fun to your baby

Maintenance

Battery Charging

- Use only the charger provided with the vehicle.
- Charge the battery for 8 to 12 hours before first use. Do not exceed 20 hours.
- Subsequent charges should also be 8 to 12 hours.
- Do not allow the battery to completely drain before recharging.
- If the vehicle will not be used for an extended period, charge the battery at least once a month to maintain its life.

General Care

- Clean the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.

- Store the vehicle in a dry place, away from direct sunlight and extreme temperatures.
- Regularly check all screws and fasteners to ensure they are tight.
- The vehicle features a portable handle under the car for easy transportation when not in use or when the battery is low.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move.	Battery is low or disconnected. Power switch is off. Loose wire connection.	Charge the battery. Ensure battery is properly connected. Turn on the power switch. Check all wire connections.
Short battery life.	Battery not fully charged. Battery is old or damaged. Overcharging/undercharging.	Ensure battery is charged for the recommended 8-12 hours. Avoid overcharging (max 20 hours). If battery life continues to be short, consider replacing the battery.
Remote control not working.	Remote control batteries are dead or incorrectly inserted. Remote not paired.	Replace 1.5V AAA batteries in the remote. Refer to remote control pairing instructions (if applicable, usually in a separate remote manual).

Problem	Possible Cause	Solution
Music/lights not working.	Power is off. Loose connection.	Ensure vehicle is powered on. Check connections to the music module and lights.
