5. MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and liquids.
- Avoid dropping or subjecting the device to strong impacts.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use. For long-term storage, charge the power bank to about 50-70% every 3 months to preserve battery health.

6. TROUBLESHOOTING

Problem	Solution
---------	----------

Problem	Solution
Power bank not charging.	Ensure the charging cable and wall adapter are working correctly. Try a different cable or adapter. Check if the power bank's port is clean and free of debris.
Device not charging from power bank.	Press the ON/OFF button to activate the power bank. Ensure the cable is securely connected to both the power bank and your device. Try a different port or cable. Verify your device is compatible with the power bank's output specifications.
Slow charging.	Ensure you are using a fast-charging compatible cable and your device supports fast charging. For the power bank itself, use a 65W or higher wall adapter.
Digital display not working.	Press the ON/OFF button. If the issue persists, contact customer support.
