Proper care will extend the life of your power adapter:

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme

temperatures. Avoid tightly winding the cord to prevent damage.

- **Inspection:** Periodically inspect the power cord and adapter for any signs of damage, such as fraying, cuts, or bent prongs. If damage is observed, discontinue use immediately.
