Setup

To begin using your Stealth 600 Gen 2 MAX headset, follow these steps:

1. **Connect the USB-A Wireless Transmitter:** Plug the USB-A Wireless Transmitter into an available USB port on your gaming console (Xbox Series X|S, Xbox One, PS5, PS4, Nintendo Switch) or PC/Mac.
2. **Power On Headset:** Press and hold the Power button on the headset until you hear a tone and the LED indicator lights up.
3. **Pairing:** The headset and transmitter are pre-paired from the factory. If they do not connect automatically, ensure both devices are powered on and within range. The LED on the headset will indicate a solid color when connected.
4. **Platform Selection:** For multiplatform compatibility, ensure the switch on the USB-A Wireless Transmitter is set to the correct platform (Xbox or USB for PlayStation/Nintendo Switch/PC/Mac).
5. **Firmware Update:** For optimal performance, it is recommended to update your headset's firmware using the Turtle Beach Audio Hub desktop application. Visit the Turtle Beach website for download instructions.

Comfort Features

Designed for extended gaming sessions, the headset incorporates several comfort-enhancing features:

- **Glasses-Friendly Ear Cushions:** Turtle Beach's exclusive ProSpecs glasses relief system features dual-foam ear cushions with softer foam in the section that rests against your glasses, alleviating pressure.
- **Breathable Athletic Fabric:** The uniquely shaped ear cushions use soft, breathable material to improve comfort and allow for a wider audio soundstage.

- **Durable Headband:** A durable, reinforced headband and hinge design provide flexible, long-term durability.

Maintenance

Proper care will ensure the longevity of your headset:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid abrasive cleaners or solvents.
- **Charging:** Charge the headset using the included USB-C cable. A full charge provides 48+ hours of battery life. Quick charging offers 8.5 hours of battery life from just 15 minutes of charge.
- **Storage:** Store the headset in a cool, dry place when not in use.

Troubleshooting

If you encounter issues with your headset, try the following:

- **No Audio/Mic Not Working:** Ensure the headset is powered on, fully charged, and correctly paired with the USB-A Wireless Transmitter. Check the platform switch on the transmitter.
- **Poor Audio Quality:** Verify the headset's volume levels and audio presets. Ensure no obstructions are blocking the transmitter's signal.
- **Connection Issues:** Try re-pairing the headset with the transmitter. Refer to the Turtle Beach support website for detailed pairing instructions.
- **Firmware:** Always ensure your headset has the latest firmware installed via the Turtle Beach Audio Hub.
