3. SETUP AND FIRST USE

Before wearing your Mephisto Madison slippers for the first time, follow these steps to ensure optimal comfort and fit:

1. **Unpack:** Carefully remove the slippers from their packaging.
2. **Inspect:** Check for any visible damage or manufacturing defects.
3. **Adjust Straps:** The slippers feature two adjustable straps with hook & loop closures, disguised by decorative buckles.
 - Open the hook & loop fasteners on both straps.
 - Place your foot into the slipper.
 - Adjust each strap individually to achieve a snug yet comfortable fit. The straps should hold your foot securely without being too tight or causing pressure points.
 - Ensure your toes are not touching the front edge and your heel is comfortably seated in the heel cup.
4. **Break-in Period:** It is recommended to wear the slippers for short periods initially to allow the cork footbed to mold to the unique contours of your feet. This process enhances the personalized comfort provided by the SOFT-AIR technology.

Proper care will extend the life and maintain the appearance of your Mephisto Madison slippers.

5.1 Cleaning the Leather Upper

- For general cleaning, wipe the leather upper with a soft, damp cloth.
- For stubborn dirt, use a specialized leather cleaner suitable for waxy leather. Follow the product instructions carefully.
- Avoid harsh chemicals, abrasive cleaners, or excessive water, as these can damage the leather.
- Allow the slippers to air dry naturally, away from direct heat or sunlight.
- Periodically apply a leather conditioner to keep the leather supple and prevent cracking.

5.2 Cleaning the Cork Footbed

- The cork footbed can be gently wiped with a damp cloth.
- For deeper cleaning, a mild soap solution can be used, but ensure minimal moisture penetrates the cork.
- Do not submerge the slippers in water.
- Allow to air dry completely before wearing again.
