

HUYVMAY HUYVMAY T6

HUYVMAY Fitness Tracker User Manual

Model: HUYVMAY T6

1. INTRODUCTION

Thank you for choosing the HUYVMAY Fitness Tracker. This digital sports watch is designed for simplicity and effectiveness, providing essential fitness tracking without the need for complex smartphone applications or Bluetooth connections. It is ideal for children and women, offering a clear display and a comfortable wearing experience.

Key features include a pedometer, distance and calorie counter, stopwatch, and three vibration alarms. Its IP68 waterproof rating ensures durability for daily activities.

2. GETTING STARTED

2.1. Charging the Device

The HUYVMAY Fitness Tracker features a convenient USB direct charging design. No separate charging cable is needed.

1. Gently pull off one side of the watch strap to reveal the USB charging connector.
2. Insert the USB connector into any standard USB-A port (e.g., computer, USB wall adapter, power bank).
3. The watch will display a charging indicator. A full charge takes approximately 0.5 to 1 hour.
4. Once fully charged, the watch can operate for up to 21 days, depending on usage.

2.2. Initial Setup and Time Adjustment

The watch is designed for easy operation without an app. All settings are done directly on the device using its two silicone buttons.

- **Power On:** The watch typically powers on automatically when charged or by pressing and holding one of the buttons.
- **Navigating Menus:** Use the buttons to cycle through different display modes (time, steps, distance, calories, stopwatch, alarm).
- **Setting Time/Date:** Refer to the detailed instructions in the "Operating the Device" section for specific steps on setting the time, date, and other parameters.

3. OPERATING THE DEVICE

3.1. Display and Navigation

The watch features a large, clear LED display that is easily visible even in low-light conditions. Use the two side buttons to navigate through the various functions.

3.2. Fitness Tracking Functions

- **Pedometer:** The watch automatically tracks your steps throughout the day.
- **Distance:** Based on your steps, the watch estimates the distance covered.
- **Calories:** The watch calculates estimated calories burned based on your activity.

3.3. Alarm Function

The watch supports up to 3 vibration alarms. These silent alarms are ideal for waking up without disturbing others or for discreet reminders throughout the day.

3.4. Stopwatch

Access the stopwatch function through the menu to time activities, workouts, or other events.

3.5. Water Resistance

The HUYVMAY Fitness Tracker has an IP68 waterproof rating. This means it is resistant to splashes, sweat, and rain, and can be worn during hand washing or face washing.

Important: Do not wear the watch while showering, bathing, or swimming. If water accidentally enters the watch, allow it to dry naturally before continued use.

4. MAINTENANCE

4.1. Cleaning

To keep your fitness tracker clean, wipe it regularly with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the device or its strap.

4.2. Battery Care

- Charge the watch fully before its first use.
- Avoid completely draining the battery frequently, as this can reduce its overall lifespan.
- Store the watch in a cool, dry place when not in use for extended periods.

4.3. Strap Care

The watch features a soft, food-grade silicone strap. Clean the strap regularly to prevent skin irritation. If the strap

shows signs of wear or damage, consider replacing it to ensure secure wearing.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch does not power on or charge.	USB connector not fully inserted; faulty USB port; completely drained battery.	Ensure the USB connector is fully and correctly inserted into a working USB port. Try a different USB port or power adapter. Allow the watch to charge for at least 15 minutes before attempting to power on.
Display is dim or unreadable.	Low battery; display settings.	Charge the watch. The display brightness is fixed for optimal visibility.

Problem	Possible Cause	Solution
Pedometer/tracking data seems inaccurate.	Watch not worn correctly; natural variations in step counting technology.	Ensure the watch is worn snugly on your wrist. Step counters are estimates and may vary slightly based on arm movement and gait.
Watch strap tears or breaks.	Wear and tear; excessive force.	Contact customer support for replacement options. Handle the strap with care, especially when detaching for charging.

6. SPECIFICATIONS

Feature	Detail
Model Name	T6S
Brand	HUYVMAY
