Garmin D2 Air X10

Garmin D2™ Air X10 Aviator Smartwatch User Manual

Model: 010-02496-09

1. Introduction

Welcome to the user manual for your Garmin D2™ Air X10 Aviator Smartwatch. This guide provides essential information for setting up, operating, and maintaining your device. The D2™ Air X10 is a GPS aviator smartwatch designed with comprehensive piloting tools for preflight, in-flight, and postflight activities, alongside advanced health and fitness tracking capabilities.

2. What's in the Box

Upon unboxing your Garmin D2™ Air X10, please ensure all the following items are present:

- Garmin D2 Air X10 Smartwatch

- Charging/Data Cable
- Trial Subscription to Garmin Pilot App (where applicable)
- Documentation (this user manual and other guides)

3. Setup Guide

3.1 Initial Charging

Before first use, fully charge your D2™ Air X10 smartwatch using the provided charging/data cable. Connect the cable to the charging port on the back of the watch and plug the USB end into a power source. A full charge typically takes approximately 2 hours.

3.2 Powering On/Off

To power on the device, press and hold the **Power button** (usually the top right button) until the Garmin logo appears. To power off, press and hold the **Power button** until the power options menu appears, then select **Power Off**.

3.3 Pairing with a Smartphone

To unlock the full potential of your D2™ Air X10, pair it with a compatible smartphone using the Garmin Connect™ app. Download the app from your smartphone's app store. Follow the on-screen instructions within the app to complete the pairing process. This enables features such as call and text notifications, aviation weather updates, and flight logging synchronization.

4. Operating the Smartwatch

4.1 Touchscreen Navigation

The D2™ Air X10 features a responsive AMOLED touchscreen display. Swipe left or right to scroll through widgets and data screens. Tap to select options or open applications. Swipe down from the top of the watch face to access quick controls.

4.2 Button Functions

The smartwatch includes multiple physical buttons for quick access to functions:

- **Power/Light Button (Top Right):** Press to turn on the backlight. Hold to access the controls menu, including power options, Garmin Pay, and phone connection.
- **Up/Menu Button (Middle Left):** Press to scroll through widgets and data screens. Hold to access the main menu.
- **Down Button (Bottom Left):** Press to scroll through widgets and data screens.
- **Start/Stop Button (Top Right, below Power):** Press to start or stop an activity.
- **Back/Lap Button (Bottom Right):** Press to return to the previous screen. During an activity, press to mark a new lap.

5. Key Features and Aviation Tools

5.1 Aviation Weather

Access real-time aviation weather information directly on your wrist when paired with your compatible smartphone. This includes METARs (Meteorological Aerodrome Reports) and TAFs (Terminal Aerodrome Forecasts), providing details on winds, visibility, barometric pressure, and more.

Access aviation weather, including METARs and TAFs, to see winds, visibility, barometric pressure and more.*

*When paired with a compatible smartphone and in range of BLUETOOTH technology.

5.2 Navigation Capabilities

The D2™ Air X10 features a worldwide aeronautical database. You can navigate directly to a specific location or waypoint, or use the "Nearest" function to find and activate a path to a nearby airport.

Navigate straight to a location or waypoint in the worldwide aeronautical database, or choose the Nearest function to activate a path to a nearby airport.

Image: The D2 Air X10 smartwatch displaying a navigation screen with an HSI-like course needle pointing towards a destination (KRVS) with estimated time en route (ETE).

5.3 Airport Information

As you approach your destination, view critical airport information such as runway orientation (including wind components), runway lengths, and airport frequencies directly on your watch.

Image: The D2 Air X10 smartwatch displaying airport information for KBKL, including VFR status, METAR, frequencies (ATIS), and runway info.

5.4 Automatic Flight Logging

The smartwatch automatically logs your flights, recording details such as takeoff time, duration, total flight time, and route. This data can then be automatically transferred to your flyGarmin.com account.

5.5 Health and Wellness Features

Beyond aviation, the D2™ Air X10 offers extensive health and wellness monitoring. This includes Pulse Ox monitoring (where available), heart rate tracking, sleep monitoring, and stress tracking. It also features over 25 built-in sports apps for

various activities.

Know your body better with extensive health monitoring features and find new ways to keep moving with more than 25 built-in sports apps.

Date First Available	March 14, 2022
Standing Screen Display Size	1.3 Inches
Wireless Communication Standard	Bluetooth
Battery Cell Composition	Lithium Polymer
Shape	Round
Screen Size	1.3 Inches

7. Maintenance

7.1 General Care

To maintain the appearance and functionality of your D2™ Air X10, regularly clean the device. Avoid exposing it to extreme temperatures or harsh chemicals. Rinse the watch with fresh water after exposure to chlorinated or salt water.

7.2 Cleaning the Device

Use a soft, lint-free cloth to wipe the screen and watch body. For stubborn dirt, a slightly damp cloth can be used. Ensure the device is completely dry before charging or prolonged storage.

7.3 Battery Information

The D2™ Air X10 features a rechargeable Lithium Ion battery. Battery life can vary based on usage and settings. For optimal battery longevity, avoid fully discharging the battery frequently and store the device in a cool, dry place when not in use for extended periods.

8. Troubleshooting

8.1 Device Not Powering On

Ensure the device is fully charged. Connect it to the charging cable and a power source for at least 30 minutes. If it still does not power on, perform a soft reset by holding the Power button for 15 seconds.

8.2 Connectivity Issues (Bluetooth)

Verify Bluetooth is enabled on both your smartwatch and smartphone. Ensure the Garmin Connect™ app is open and running in the background. Try unpairing and re-pairing the device through the Garmin Connect™ app settings.

8.3 Inaccurate Data Readings

For GPS-related issues, ensure you have a clear view of the sky. For heart rate or Pulse Ox readings, ensure the watch is worn snugly on your wrist, one finger-width above your wrist bone. Clean the optical sensor on the back of the watch.

9. Warranty and Support

Your Garmin D2™ Air X10 is covered by a limited warranty. For detailed warranty information, please refer to the warranty card included in your product packaging or visit the official Garmin website. For technical support, product registration, or to access additional resources, please visit Garmin Support.

You can also find more information and purchase accessories at theOfficial Garmin Store on Amazon.

Ask a question about this manual
