T-Fal L1509202

Tefal Ingenio L1509202 Frying Pans 24/28 cm with Removable Handle User Manual

INTRODUCTION

Welcome to the user manual for your new Tefal Ingenio L1509202 Frying Pans. This set includes two non-stick frying pans (24 cm and 28 cm) and a versatile removable handle. The Ingenio range is designed to simplify your cooking experience, offering convenience for stovetop cooking, oven baking, and efficient storage. Please read this manual carefully to ensure proper use, maintenance, and longevity of your cookware.

PRODUCT OVERVIEW

The Tefal Ingenio L1509202 set features durable aluminum pans with a high-performance Titanium 2X non-stick coating, ensuring excellent cooking results and easy cleaning. The innovative removable handle allows for seamless transition from hob to oven, and compact storage. The pans are equipped with Thermo-Signal technology for optimal cooking temperature indication and a Diffusion Base+ for even heat distribution.

Key Features:

- **Removable Handle:** Easily attach and detach the handle for cooking, baking, and storage.
- **Titanium 2X Non-Stick Coating:** Lasts 2 times longer than standard Tefal coatings, PFOA-free, lead-free, and cadmium-free for safe cooking.
- **Thermo-Signal Technology:** Indicates the ideal temperature to start cooking for perfect results.
- **Stackable Design:** Saves significant space in your cupboards.
- **Versatile Use:** Suitable for gas, electric, and glass-ceramic hobs. Oven safe (without handle).
- **Diffusion Base+:** Ensures even heat distribution across the pan surface.

SETUP

Initial Cleaning:

1. Before first use, wash the pans thoroughly with warm soapy water.
2. Rinse and dry completely.
3. Condition the non-stick surface by lightly rubbing a small amount of cooking oil over the interior with a paper towel. Heat the pan over low heat for 30 seconds, then let it cool and wipe off any excess oil. This step helps to optimize the non-stick performance.

Attaching and Detaching the Handle:

The Ingenio removable handle is designed for secure attachment and easy release.

- **To Attach:** Align the handle with the pan's attachment points. Press the red button on the handle and slide it onto the pan until it clicks securely into place. Ensure the handle is firmly attached before lifting or moving the pan.
- **To Detach:** While holding the pan steady, press the red button on the handle and slide it off the pan. Always detach the handle when the pan is not in use on the stovetop or in the oven.

OPERATING INSTRUCTIONS

Stovetop Cooking:

- The Ingenio pans are suitable for gas, electric, and glass-ceramic hobs. **They are not compatible with induction hobs.**
- Place the pan on a burner that matches its base size to ensure efficient heating.
- Use the removable handle to place the pan on the stovetop. Once cooking begins, you can detach the handle to prevent it from overheating and to free it for other Ingenio pans.
- The Thermo-Signal indicator in the center of the pan will change color (from solid red to a uniform red) when the pan has reached the ideal cooking temperature.

Oven Use:

- The Ingenio pans are oven safe. **Always remove the handle before placing the pan in the oven.**
- Use oven mitts when handling hot pans from the oven.

Refrigerator Storage:

- After cooking, allow the pans to cool. You can store leftovers directly in the pans in the refrigerator.
- If available, use compatible Ingenio lids (sold separately) for hygienic storage.

MAINTENANCE AND CLEANING

Cleaning the Pans:

- The Ingenio pans are dishwasher safe. For optimal longevity of the non-stick coating, hand washing is recommended.
- If hand washing, use warm soapy water and a non-abrasive sponge. Avoid harsh scourers or metallic pads that can damage the non-stick surface.
- For dishwasher use, Tefal recommends SUN All in 1 products for their formula that ensures optimal longevity.
- **Always remove the handle before placing the pan in the dishwasher. The removable handle is NOT dishwasher safe and should be wiped clean with a damp cloth.**

Care for Non-Stick Coating:

- To protect the non-stick coating, use wooden, silicone, or plastic utensils. Avoid metal utensils that can scratch the surface.
- Do not cut food directly in the pan.
- Avoid overheating empty pans.

STORAGE

The Ingenio system is designed for maximum space-saving. Detach the handle from the pans for compact, stackable storage. This allows the pans to nest neatly within each other, optimizing cupboard space.

TROUBLESHOOTING

Common Issues and Solutions:

- **Food Sticking:** Ensure the pan is properly conditioned (see Setup) and heated to the correct temperature (indicated by Thermo-Signal). Use a small amount of oil or butter.
- **Uneven Heating:** Verify that the pan is placed on a burner of appropriate size. The Diffusion Base+ is designed for even heating, but an undersized burner can lead to localized hot spots.
- **Handle Not Attaching Securely:** Check for any debris in the attachment mechanism on both the handle and the pan. Ensure the red button is fully depressed when attaching and that you hear a click.
- **Discoloration of Pan Exterior:** This can occur over time due to high heat or certain foods. It does not affect the pan's performance. Regular cleaning can help minimize this.

SPECIFICATIONS

Feature	Detail
Brand	T-Fal
Model Name	Tefal Ingenio Easy Plus Frying Pan Set 24/28 cm with Removable Handle
Item Model Number	L1509202
Material	Aluminium with Titanium 2X non-stick coating
