Huffy 17348WP Disney Lightning McQueen Kids Electric Ride On Car Instruction Manual

Model: 17348WP

1. INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Huffy 17348WP Disney Lightning McQueen Kids Electric Ride On Car. Please read all instructions carefully before use and retain this manual for future reference.

The Huffy 17348WP is an official battery-powered electric vehicle designed for children to experience the thrill of driving their own Lightning McQueen car. It features a bright red finish, signature racing graphics, lightning bolt accents, functional headlights, and realistic car sounds. The design is inspired by the legendary Disney Pixar Lightning McQueen race car from '95. It includes easy-to-open doors and an accelerator pedal for a realistic driving experience.

2. SAFETY WARNINGS

WARNING: Not suitable for children under 12 months. Recommended age for use is 3 to 7 years.

- Always supervise children during operation of the vehicle.
- Ensure the child wears appropriate safety gear, such as a helmet, if used in areas where falls could occur.
- Do not operate the vehicle near stairs, steep inclines, swimming pools, or public roads.
- Only use on flat, dry surfaces. Avoid sand, loose dirt, or gravel.
- The vehicle is designed for one rider only.
- Ensure the seat belt is securely fastened before each use.
- Keep hands, hair, and clothing away from moving parts.
- Do not modify the electrical system. Any alterations could cause a fire, explosion, or electric shock.
- Only use the provided battery and charger.

3. PACKAGE CONTENTS

Your Huffy 17348WP Disney Lightning McQueen Kids Electric Ride On Car package should include the following items:

- Huffy Disney Lightning McQueen Electric Ride On Car (main body)
- 6V Rechargeable Battery

- Battery Charger
 - Instruction Manual
 - Wheels (4)
 - Doors (2)
-

4. ASSEMBLY

The Huffy 17348WP electric ride-on car is designed for quick and easy assembly, often requiring no tools. The main body of the car comes largely pre-assembled. You will primarily need to attach the wheels and the two functioning doors.

1. Carefully remove all components from the packaging.
2. Attach the four wheels to the designated axles. Ensure they are securely fastened according to the specific instructions in the included manual.
3. Install the two doors onto the car body. These are designed to be easy to open and close.
4. Connect the battery terminals as instructed in the detailed manual.
5. Before first use, fully charge the battery (refer to Section 5: Charging Instructions).

5. CHARGING INSTRUCTIONS

The Huffy 17348WP is powered by a 6V rechargeable battery. Proper charging ensures optimal performance and battery longevity.

1. Locate the charging port on the vehicle.
2. Ensure the vehicle is turned off before charging.
3. Connect the charger to the charging port.
4. Plug the charger into a standard wall outlet.
5. Allow the battery to charge for the recommended duration (typically 8-12 hours for the first charge, and 6-8 hours for subsequent charges, but refer to the specific manual for exact times). Do not overcharge.
6. Unplug the charger from the wall and then from the vehicle once charging is complete.

Important: Only use the charger provided with your Huffy electric ride-on car. Using an incorrect charger can damage the battery or cause a fire.

6. OPERATING INSTRUCTIONS

Operating your Lightning McQueen ride-on car is straightforward, designed for an engaging and safe experience.

1. Ensure the battery is fully charged.
2. Open the car door and help the child sit comfortably in the seat.
3. Fasten the seat belt securely.
4. Locate the power button (often labeled 'Engine' or 'Power') and turn the vehicle on. You may hear realistic engine sounds.
5. Use the forward/reverse switch to select the desired direction of travel.
6. To move, press the foot pedal accelerator. The car will begin to move.
7. To stop, simply remove your foot from the accelerator pedal. The car will come to a stop.
8. The car features functional headlights and authentic McQueen sounds for an enhanced play experience.

7. MAINTENANCE

Regular maintenance will help ensure the longevity and safe operation of your electric ride-on car.

- **Cleaning:** Wipe the car with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:** Always fully charge the battery after each use. If storing the vehicle for an extended period, charge the battery once a month to prevent deep discharge and damage.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all nuts, bolts, and fasteners to ensure they are tight. Inspect the wheels and tires for wear or damage.

8. TROUBLESHOOTING

If you encounter issues with your Huffy electric ride-on car, refer to the following common troubleshooting steps:

- **Car does not move:**
 - Check if the battery is fully charged.
 - Ensure all electrical connections are secure.
 - Verify the forward/reverse switch is in the correct position.
 - Check if the power button is pressed.
- **Car runs slowly:**
 - The battery may be low; recharge it.
 - The vehicle might be overloaded (exceeding weight limit).
 - Operating on an unsuitable surface (e.g., grass, uphill).
- **No sounds or lights:**
 - Check battery charge.
 - Ensure all connections are secure.

If problems persist after attempting these steps, please contact Huffy customer support.
