Redragon H510 RGB

Redragon H510 Zeus-X RGB Wired Gaming Headset User Manual

Model: H510 RGB

Introduction

The Redragon H510 Zeus-X RGB Wired Gaming Headset is designed to provide an immersive audio experience for gaming and multimedia. It features 7.1 Surround Sound technology, 53mm audio drivers for clear sound, and a noise-cancellation microphone for effective communication. The headset also includes customizable RGB lighting and comfortable memory foam ear pads with a durable fabric cover.

Setup

To set up your Redragon H510 Zeus-X RGB headset, connect the integrated USB cable directly to an available USB port on your device. The headset is compatible with PC, Mac, PlayStation 4 (PS4), and Nintendo Switch (NS) consoles. No additional drivers are typically required for basic functionality on most operating systems, as the headset uses standard USB audio protocols.

Operating Instructions

The Redragon H510 Zeus-X RGB headset features an in-line control box for convenient audio and lighting adjustments:

- **Volume Control:** Use the '+' and '-' buttons to adjust the headset's audio output volume.
- **Microphone Mute:** Press the microphone icon button to mute or unmute the microphone. An indicator light may show the microphone's status.
- **RGB Mode Switch:** Use the light bulb icon button to cycle through different RGB lighting modes (Dynamic, Static, Off) on the earcups.

Maintenance

Proper maintenance ensures the longevity and performance of your headset:

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For the fabric ear pads, a slightly damp cloth can be used, but ensure they are completely dry before use. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight. Avoid coiling the cable tightly to prevent damage.
- **Cable Care:** Handle the braided USB cable gently. Do not pull on the cable to disconnect the headset.

Troubleshooting

If you encounter issues with your headset, refer to the following common solutions:

- **No Sound:**
  - Ensure the USB cable is securely connected to your device.
  - Check the volume level on the in-line control box and your device's system settings.
  - Verify that the headset is selected as the default audio output device in your operating system's sound settings.
- **Microphone Not Working:**
  - Confirm the microphone is not muted via the in-line control button.
  - Check your device's sound settings to ensure the microphone is enabled and set as the input device.
  - Adjust microphone volume levels in your system settings and communication software.

- **RGB Lighting Not Functioning:**
  - Press the RGB mode switch button on the in-line control to cycle through modes or turn it on.
  - Ensure the headset is properly connected and receiving power.

Specifications
