## 4. MAINTENANCE AND CARE

---

Proper maintenance will extend the life and preserve the appearance of your SEFRO Buffet. The product is designed to be easy to clean and resistant.

### 4.1. Cleaning

- For the white lacquered surfaces, use a soft, damp cloth with a mild, non-abrasive cleaner. Wipe dry immediately.
- For the oak-effect surfaces, use a dry or slightly damp cloth. Avoid excessive moisture.
- Do not use harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the finish.
- Spills should be wiped immediately to prevent staining.

## 4.2. General Care

- Avoid placing hot items directly on the surface. Use coasters or protective mats.
- Keep the buffet away from direct sunlight and heat sources to prevent fading or warping.
- Periodically check all screws and fittings and tighten if necessary to maintain stability.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your SEFRO Buffet, refer to the following common problems and solutions.

### 5.1. Buffet is Wobbly

- **Solution:** Ensure all assembly screws are securely tightened. Check that the buffet is placed on a level surface. Use furniture glides or shims if the floor is uneven.

### 5.2. Doors Do Not Align Properly

- **Solution:** Adjust the hinges. Most furniture hinges allow for vertical, horizontal, and depth adjustments using a screwdriver. Refer to the hinge manufacturer's instructions if available, or gently adjust screws on the hinge plates until alignment is achieved.

### 5.3. Scratches or Minor Damage to Finish

- **Solution:** For minor scratches on lacquered surfaces, a furniture repair pen or touch-up paint matching the white finish may be used. For oak-effect surfaces, a wood repair kit can help conceal minor imperfections.
