## WCFHYSCM789 Premium Aromatherapy Diffuser with Night Light

# User Manual: Premium Aromatherapy Diffuser with Night Light

**Model:** Premium Aromatherapy Diffuser with Night Light

**Brand:** WCFHYSCM789

## 1. IMPORTANT SAFETY INSTRUCTIONS

---

Please read all instructions carefully before using this product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not immerse the base unit in water or other liquids.
- Always unplug the diffuser from the power outlet before cleaning or when not in use.
- Ensure the power adapter is compatible with your local voltage.
- Keep out of reach of children and pets.
- Do not block the mist outlet.
- Use only clean tap water or distilled water. Do not use hot water.
- Add essential oils carefully; avoid direct contact with the outer casing.
- Place the diffuser on a stable, flat, and water-resistant surface.
- Do not disassemble or attempt to repair the unit yourself. Contact customer support for assistance.

## 2. PRODUCT OVERVIEW

---

The Premium Aromatherapy Diffuser combines the benefits of an essential oil diffuser, a humidifier, and an ambient night light. Its large capacity allows for extended operation, providing a continuous mist and customizable lighting to enhance your environment.

**Figure 2.1:** Front view of the Premium Aromatherapy Diffuser. This image shows the diffuser's main components: a clear glass-like dome, a white mountain-shaped mist outlet and light source, and a dark circular base with a power input port.

**Figure 2.2:** The diffuser in operation, displaying its warm ambient night light feature. The image captures the diffuser on a wooden surface, illuminating the surrounding area with a soft, warm glow.

**Figure 2.3:** The diffuser producing mist and displaying a blue light. This image highlights the mist output and the color-changing LED light feature, showing the device in an active state on a table.

**Figure 2.4:** Two diffusers side-by-side, showcasing different base color options (dark and light) and their warm light output. This image illustrates the aesthetic versatility of the product.

### 3. SETUP

---

1. **Unpack:** Carefully remove the diffuser and all accessories from the packaging.
2. **Placement:** Place the diffuser on a flat, stable, and water-resistant surface away from direct sunlight, heat sources, and electronic devices.
3. **Fill Water Tank:** Remove the top cover. Fill the water tank with clean tap water or distilled water up to the MAX fill line. Do not overfill.
4. **Add Essential Oils (Optional):** Add 3-5 drops of your preferred essential oil directly into the water tank. Adjust the amount based on personal preference.
5. **Replace Cover:** Securely place the top cover back onto the base unit.
6. **Connect Power:** Plug the power adapter into the DC input port on the back of the diffuser base, then plug the adapter into a standard electrical outlet.

### 4. OPERATION

---

The diffuser features touch controls for easy operation.

- **Power On/Off:** Touch the power icon on the base to turn the diffuser on. Touch again to turn off.
- **Mist Control:** The diffuser typically operates with continuous mist. Refer to the specific model's touch controls for any mist intensity adjustments if available.
- **Night Light Control:** Touch the light icon on the base to cycle through light modes (e.g., warm white, color-changing, fixed color, off).

*Note:* If the water level is too low, the diffuser may automatically shut off to prevent damage. Refill the water tank to resume operation.

## 5. MAINTENANCE AND CLEANING

---

Regular cleaning is essential for optimal performance and longevity of your diffuser.

### 1. Daily Maintenance:

- Before each new use, empty any remaining water from the tank.
- Wipe the inside of the water tank with a clean cloth.

### 2. Weekly Cleaning:

- Unplug the diffuser and remove the top cover.
- Drain any remaining water from the tank.
- Add a small amount of warm water (not hot) and 1-2 drops of white vinegar to the water tank.
- Gently wipe the inside of the tank and the ultrasonic disc (the small metal disc at the bottom of the tank) with a soft brush or cotton swab. Do not scrub aggressively.
- Rinse the tank thoroughly with clean water, ensuring no vinegar residue remains.
- Wipe the exterior of the diffuser with a soft, damp cloth.
- Allow all parts to air dry completely before reassembling or storing.

3. **Important:** Do not use harsh detergents, abrasive cleaners, or corrosive liquids. Do not immerse the base unit in water.

## 6. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
No mist or low mist output.	Insufficient water in the tank.	Add water to the tank.
	Water level exceeds MAX line.	Pour out excess water.
	Ultrasonic disc is dirty.	Clean the ultrasonic disc as per maintenance instructions.
	Mist outlet is blocked.	Clear any obstructions from the mist outlet.
No power.	Power adapter not properly connected.	Ensure the power adapter is securely plugged into both the diffuser and the wall outlet.
	No power from the outlet.	Test the outlet with another device.

Problem	Possible Cause	Solution
Unusual noise.	Insufficient water. Diffuser not on a flat surface.	Add water. Place the diffuser on a stable, flat surface.

If the problem persists after trying the above solutions, please contact customer support.
