Evajoy EJ-HF047

EVAJOY 14ft x 7ft x 33in Metal Frame Swimming Pool Instruction Manual

Model: EJ-HF047

1. PRODUCT OVERVIEW

The EVAJOY 14ft x 7ft x 33in Metal Frame Swimming Pool is designed for outdoor recreational use, providing a spacious and durable swimming area for families. Its robust construction ensures stability and longevity, making it an ideal addition to your backyard or garden.

Image: The EVAJOY 14ft x 7ft x 33in Metal Frame Swimming Pool, shown with a family enjoying the water, highlighting its rectangular shape and sturdy frame.

Key Features:

- **Reliably Stable Frame:** Constructed with a sturdy steel frame that withstands active use and resists deformation.
- **Long-Lasting Durability:** Features a galvanized steel frame with powder coating on both sides to prevent rust and corrosion.
- **Rugged PVC Fabric:** Made from lightweight, high-gauge PVC material designed to resist rips, punctures, abrasion, and fading from sun exposure.
- **Family-Size Capacity:** Offers ample space for family activities, holding up to 1718 gallons of water.
- **Fast & Easy 3-Step Setup:** Designed for straightforward assembly, allowing for quick enjoyment.

2. SAFETY INFORMATION

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Always supervise children when they are in or near the pool. Ensure proper water chemistry and maintenance to prevent health hazards.

- Always ensure the pool is placed on a flat, stable surface.
- Do not dive into the pool.
- Keep children under constant supervision.
- Regularly inspect the pool for any signs of wear or damage.

- Follow all local regulations regarding pool safety and fencing.

3. SETUP GUIDE

Setting up your EVAJOY Metal Frame Swimming Pool is a straightforward process designed for quick assembly. It is recommended that two people perform the setup, which typically takes about 20 minutes.

Preparation:

- Choose a level, clear area in your backyard or garden. Ensure there are no sharp objects or debris that could damage the pool liner.
- Unpack all components and verify against the parts list in your packaging.

Assembly Steps:

1. **Lay the Pool Liner:** Carefully spread the pool liner on the prepared flat ground. Ensure it is fully extended and free of wrinkles.

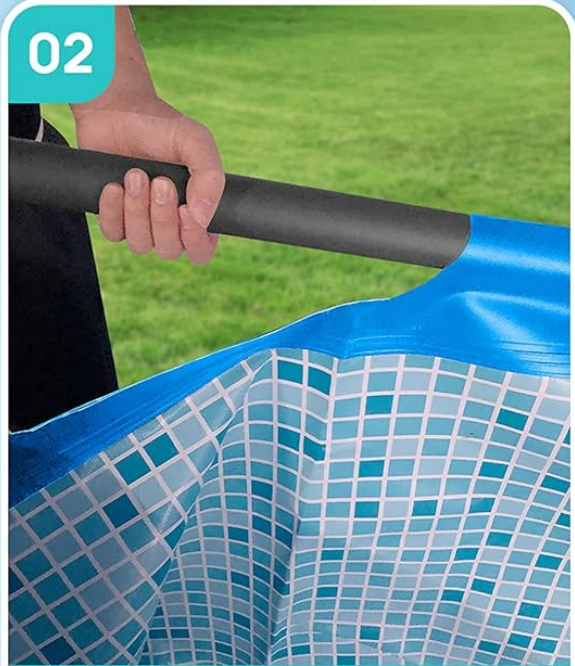

Easy Setup

01

Lay the pool on flat ground

02

Assemble the frame

03

Connect to the T port

04

Fill the pool with water

Image: A person carefully laying out the blue and white checkered pool liner on a grassy area, ensuring it is flat.

2. **Assemble the Frame:** Insert the metal poles through the sleeves on the pool liner. Connect the poles using the T-connectors and corner pieces to form the rectangular frame. Ensure all connections are secure.

Ultimate Stability

The pool's strengthened galvanized steel frame doesn't deform

Image: A person assembling the metal frame of the pool, showing the poles being inserted into the liner sleeves and connected at the corners.

3. **Connect the Filter Pump:** Attach the included filter pump system to the designated ports on the pool liner. Ensure all hoses are securely fastened to prevent leaks.

Video: This video demonstrates the assembly process of the 14ft x 7ft x 33in Metal Frame Swimming Pool, including laying out the liner, assembling the frame, and connecting the pump system. It also shows the pool in use.

4. **Fill with Water:** Begin filling the pool with water. As the water level rises, gently smooth out any remaining

wrinkles in the liner. Stop filling when the water reaches the recommended fill line.

4. OPERATING INSTRUCTIONS

Once assembled and filled, your EVAJOY pool is ready for use. The pool has a capacity of approximately 1718 gallons, providing ample space for multiple users.

Spacious & Leak-Proof

Suitable for kids and adults of all ages

Note: kids should play under adult supervision.

Image: A family enjoying the spacious EVAJOY pool, illustrating its large capacity suitable for multiple people.

Filter Pump Operation:

The included filter pump is essential for maintaining water clarity. Refer to the separate filter pump manual for detailed operating instructions, including daily run times and filter cleaning procedures.

Water Chemistry:

Regularly test your pool water for pH, chlorine, and alkalinity levels. Adjust chemicals as needed to maintain a safe and clean swimming environment. Consult a pool supply professional for specific chemical recommendations.

5. MAINTENANCE

Proper maintenance will extend the life of your EVAJOY pool and ensure a safe swimming experience.

- **Cleaning:** Regularly skim debris from the water surface and vacuum the pool floor. Clean the pool liner walls as needed to prevent algae buildup.
- **Filter Maintenance:** Clean or replace the filter cartridge/media as recommended by the filter pump manual. A dirty filter reduces water circulation and filtration efficiency.
- **Winterization:** Before freezing temperatures, drain the pool completely, clean the liner, and disassemble the frame for storage in a dry, protected area.
- **Frame Inspection:** Periodically check the steel frame for any signs of rust, corrosion, or damage. The galvanized steel with powder coating is designed for durability, but regular inspection is advised.

Image: Two children in the EVAJOY pool, demonstrating its robust design suitable for active play and long-term enjoyment.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your pool.

- **Water is Green/Cloudy:** This usually indicates poor water chemistry or inadequate filtration. Test water, adjust chemicals (chlorine, pH), and ensure the filter pump is running sufficiently and the filter is clean.
- **Pool is Leaking:** Inspect the liner for punctures or tears. Small holes can often be repaired with a vinyl patch kit (not included). Check all hose connections to the pump for tightness.
- **Frame Appears Unstable/Deformed:** Ensure the pool is on perfectly level ground. Verify that all frame components are correctly assembled and securely connected. The steel frame is designed to be stable, but uneven ground can cause stress.
- **Pump Not Working:** Check power connection, ensure the pump is primed (filled with water), and inspect for any blockages in the hoses or filter. Refer to the pump's specific manual for electrical troubleshooting.

7. SPECIFICATIONS

Feature	Detail
Brand	Evajoy
Model Number	EJ-HF047
Product Dimensions	156"L x 84"W x 32"H (14ft x 7ft x 33in)
Shape	Rectangular
Color	Blue
Material	Polyvinyl Chloride (PVC)
Frame Material	Galvanized Steel with Powder Coating
Capacity	1718 Gallons
Item Weight	78 Pounds
Included Components	Ladder, Filter Pump, Pool Cover
Assembly Required	Yes
Indoor/Outdoor Usage	Outdoor
UPC	719710511439
Country of Origin	China

8. WARRANTY AND SUPPORT

EVAJOY products are designed for quality and durability. This product typically comes with a 30-day return policy from the point of purchase.

For any product-related inquiries, missing parts, or technical assistance, please contact EVAJOY customer support. Refer to your product packaging or the official EVAJOY website for the most current contact information.

It is recommended to retain your proof of purchase for warranty claims.
