EVAJOY Inflatable Swimming Pool Instruction Manual

Model: AMZEJ-HF038B01

1. INTRODUCTION

Thank you for choosing the EVAJOY Inflatable Swimming Pool. This manual provides essential information for the safe and proper use, setup, maintenance, and storage of your new inflatable pool. Please read all instructions carefully before assembly and use to ensure a safe and enjoyable experience.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety guidelines may result in serious injury or death.

- **Adult Supervision Required:** Always supervise children in and around the pool. Never leave children unattended.
- **Proper Location:** Set up the pool on a level, stable surface free of sharp objects. Do not set up on slopes or uneven ground.
- **Water Depth:** The pool is designed for shallow water play. Ensure water levels are appropriate for all users, especially children.
- **No Diving or Jumping:** This is an above-ground inflatable pool. Do not dive or jump into the pool.
- **Electrical Safety:** Keep all electrical devices away from the pool.
- **Chemicals:** Use pool chemicals according to manufacturer instructions. Keep chemicals out of reach of children.
- **Drainage:** Ensure proper drainage away from the house or other structures when emptying the pool.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- EVAJOY Inflatable Swimming Pool (Model AMZEJ-HF038B01)
- Repair Patch Kit (if included)
- Instruction Manual

4. SETUP INSTRUCTIONS

1. **Choose a Location:** Select a flat, level area in your backyard or garden. Clear the area of any sharp objects, debris, or rough surfaces that could puncture the pool. A ground cloth (not included) is recommended for added protection.
2. **Unfold the Pool:** Carefully remove the pool from its packaging and unfold it in the chosen location. Ensure the drain plugs are closed.
3. **Inflate the Pool:** The pool features two independent air chambers. Inflate each chamber using an air pump (not included) until it is firm to the touch but not overinflated. Overinflation can cause damage. Ensure all inflation valves are securely closed after inflation.
4. **Inflate Seats and Backrests:** The pool includes 4 built-in inflatable seats and 4 backrests. Inflate these components until they are comfortable and supportive.
5. **Fill with Water:** Begin filling the pool with water using a garden hose. Stop filling when the water level reaches the recommended fill line, or approximately 25 inches high. Do not overfill.

6. MAINTENANCE

- **Cleaning:** Regularly clean the pool walls and floor to prevent algae growth. Use a soft brush or cloth and mild soap if necessary. Rinse thoroughly.
- **Water Treatment:** For prolonged use, consider using appropriate pool chemicals (e.g., chlorine tablets in a dispenser) to maintain water quality. Follow chemical manufacturer guidelines strictly.
- **Draining:** The pool features two deep-sealed drainage outlets for quick emptying. Open the drain plugs located at the bottom of the pool to release water. Ensure the water drains to an appropriate area.

7. STORAGE

1. **Empty and Clean:** Completely drain all water from the pool using the two drainage outlets. Clean the interior and exterior surfaces thoroughly.
2. **Dry Completely:** Allow the pool to dry completely in the sun or with towels to prevent mold and mildew.
3. **Deflate:** Open all air valves and allow the pool to deflate. You can gently press on the pool to help expel air.
4. **Fold and Store:** Once fully deflated and dry, carefully fold the pool. Store it in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it away from pests and sharp objects.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool deflates quickly	Loose air valve cap or puncture	Ensure all valve caps are securely closed. Inspect the pool for punctures. Use the included repair patch kit to fix small holes.
Water is dirty/cloudy	Lack of cleaning or water treatment	Clean the pool regularly. Consider using appropriate pool chemicals or changing the water more frequently.
Pool is unstable/uneven	Uneven ground or insufficient inflation	Ensure the pool is set up on a completely flat surface. Re-inflate air chambers to recommended firmness.
