DAREU LM138G White&Blue

DAREU Vertical Ergonomic Gaming Mouse User Manual

Model: LM138G White&Blue

Introduction

Thank you for choosing the DAREU Vertical Ergonomic Gaming Mouse. This manual provides essential information for setting up, operating, and maintaining your new mouse. Designed with a unique vertical orientation, this mouse aims to reduce wrist and hand strain, promoting a more natural and comfortable user experience for extended periods.

Product Features

- **Ergonomic Vertical Design:** Positions your hand in a natural handshake posture to minimize forearm twisting and muscle strain.
- **Lightweight Construction:** Weighing approximately 89g (excluding cable), designed for comfortable, long-term use.
- **Comfortable Surface:** Features a smooth, sweat-proof surface treatment to prevent slippage during prolonged use.
- **Unique Wing Tail Bionic Tray:** Supports the weight of your hand, reducing pressure on the arm and friction between the palm and desktop. Feathered stripes on the tray provide a non-slip grip.
- **Adjustable DPI:** Offers multiple DPI settings (1000/1600/3200/6400) for precise cursor control.
- **6 Programmable Buttons:** Includes Left, Right, Middle, Forward, Back, and DPI buttons for versatile functionality.

- **USB Wired Connectivity:** Ensures stable and reliable performance without the need for batteries.
- **RGB Lighting:** Integrated RGB lighting for an enhanced gaming aesthetic.

Image: This illustration compares the wrist posture when using a traditional mouse versus the DAREU vertical mouse, highlighting the ergonomic benefits of the vertical design in reducing wrist strain.

Setup Guide

1. **Unpack the Mouse:** Carefully remove the DAREU Vertical Ergonomic Gaming Mouse from its packaging.
2. **Connect to Computer:** Locate an available USB port on your laptop, desktop PC, or Mac. Insert the USB connector of the mouse firmly into the USB port.
3. **Driver Installation:** The mouse is plug-and-play and typically does not require any additional driver installation. Your operating system (Windows, macOS, Linux) should automatically detect and configure the device.
4. **Test Functionality:** Once connected, move the mouse and click the buttons to ensure it is functioning correctly. The RGB lighting should illuminate.

For optimal performance, ensure your operating system is up to date.

Operating Instructions

Basic Operation

- **Left Click:** Primary action, typically used for selecting items or activating functions.
- **Right Click:** Secondary action, usually opens context menus.
- **Scroll Wheel (Middle Button):** Scroll up or down to navigate documents and web pages. Pressing the scroll wheel acts as the middle click button.

DPI Adjustment

The DAREU Vertical Ergonomic Gaming Mouse features a dedicated DPI button to adjust cursor sensitivity on the fly. DPI (Dots Per Inch) determines how far the cursor moves on the screen relative to the physical movement of the mouse.

- Press the **DPI Button** (located near the scroll wheel) to cycle through the available DPI settings: 1000, 1600, 3200, and 6400 DPI.
- Each press will change the sensitivity, allowing you to find the optimal speed for your tasks, whether it's precise graphic design work or fast-paced gaming.

Additional Buttons

- **Forward Button:** Typically used to navigate forward in web browsers or file explorers.
- **Back Button:** Typically used to navigate backward in web browsers or file explorers.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your DAREU mouse.

- **Cleaning:**
  - Disconnect the mouse from your computer before cleaning.
  - Use a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaning solution to wipe the surface of the mouse.
  - Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the finish.
  - For the optical sensor, use a cotton swab lightly dampened with rubbing alcohol to gently clean the lens. Ensure no liquid enters the mouse body.
- **Storage:** Store the mouse in a clean, dry environment away from extreme temperatures and direct sunlight when not in use.
- **Cable Care:** Avoid sharp bends or kinks in the USB cable to prevent internal wire damage.

Troubleshooting

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection; USB port issue; Driver conflict.	Ensure USB cable is securely plugged in. Try a different USB port. Restart your computer. Check Device Manager for driver issues.
Cursor erratic or not moving smoothly	Dirty optical sensor; Uneven mouse pad surface; Software interference.	Clean the optical sensor with a soft cloth. Use a clean, flat mouse pad. Close unnecessary background applications.

Problem	Possible Cause	Solution
DPI button not changing sensitivity	Button malfunction; Software conflict.	Ensure the button is not physically stuck. Restart your computer. If the issue persists, contact DAREU support.
RGB lighting not working	Power issue; Software setting.	Ensure the mouse is properly connected and receiving power. Check if there are any software settings (if applicable) that control the lighting.
