senri A9

Senri Mini Camera User Manual

Model: A9

Brand: senri

1. INTRODUCTION

This manual provides comprehensive instructions for the Senri Mini Camera (Model A9), a portable 1080P HD WiFi camera designed for home security, surveillance, and monitoring. Its compact and discreet design makes it suitable for various indoor and outdoor applications, including use as a nanny cam, pet camera, or door camera.

CONNECT IN SECONDS

No need for wiring, charging and use

1. Download APP software

2. Charge the camera

Figure 7: HD Infrared Night Vision capability.

4. SETUP GUIDE

Follow these steps for initial setup:

1. **Charge the Camera:** Before first use, fully charge the camera using the provided USB cable. Connect it to a USB power source (e.g., wall adapter, computer USB port).
2. **Insert Micro SD Card (Optional):** If you wish to record video, insert a Micro SD card (2GB to 128GB, not included) into the designated slot. Ensure the card is formatted correctly (FAT32 recommended).

3. **Download the App:** Scan the QR code in the quick start guide (or search for the recommended app name in your device's app store) to download the companion mobile application.
4. **Connect to Wi-Fi:**
 - Power on the camera.
 - Open the app and follow the on-screen instructions to add a new device.
 - Connect the camera to your 2.4Ghz Wi-Fi network. (5Ghz networks are not supported).
5. **Mount the Camera:** Use the included support frame to position the camera in your desired location. Its compact size allows for discreet placement.

Figure 8: Quick connection steps: App download and camera charging.

5. OPERATING INSTRUCTIONS

5.1. Live View

Once connected to Wi-Fi, open the mobile app to access the live video feed from your camera. You can monitor your space remotely from anywhere with an internet connection.

5.2. Recording Modes

- **Continuous Recording:** If an SD card is inserted and the camera is powered, it will continuously record.
- **Motion Detection Recording:** Configure motion detection settings in the app. The camera will automatically begin recording when motion is detected, saving storage space and alerting you to activity.
- **Loop Recording:** When the SD card is full, the camera will automatically overwrite the oldest files to continue recording.

5.3. Night Vision

The camera features HD infrared night vision. This mode automatically activates in low-light conditions, providing clear black and white video footage in the dark.

5.4. Playback

Access recorded footage directly through the mobile app. You can view saved videos from the Micro SD card on your smartphone, tablet, or other compatible devices.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using liquid cleaners or abrasive materials.
- **Battery Care:** To prolong battery life, avoid extreme temperatures. If storing for extended periods, charge the battery to about 50%.
- **Firmware Updates:** Periodically check the mobile app for any available firmware updates to ensure optimal performance and security.
- **SD Card Management:** Regularly back up important footage from the SD card. Consider formatting the SD card periodically to maintain performance.

7. TROUBLESHOOTING

Problem	Possible Cause / Solution
Camera not connecting to Wi-Fi.	• Ensure your Wi-Fi is 2.4Ghz. 5Ghz networks are not supported. • Check Wi-Fi password. • Move camera closer to the Wi-Fi router. • Restart the camera and your router.
Poor image quality / Black screen at night.	• Ensure the lens is clean. • Verify night vision is enabled in the app. • Ensure there are no obstructions blocking the infrared lights.
Camera not recording to SD card.	• Check if the SD card is inserted correctly. • Ensure the SD card is formatted (FAT32). • The SD card might be full (loop recording should overwrite, but check for errors). • Try a different SD card.
Battery not holding charge.	• Ensure the USB cable and power adapter are working correctly. • For continuous operation, keep the camera connected to a power source. • Battery life can vary based on usage and environmental factors.

8. SPECIFICATIONS

Feature	Detail
Model Name	A9

Feature	Detail
Video Capture Resolution	1080p
Connectivity Technology	Wireless (Wi-Fi 2.4Ghz)
Power Source	Battery Powered (1 Lithium Ion battery included)
