# CROMA 1200 Watts Dry Vacuum Cleaner User Manual

**Brand:** CROMA | **Model:** CRSHAF503sVC12

## 1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always unplug the vacuum cleaner from the power outlet before cleaning or performing maintenance.
- Do not use the vacuum cleaner to pick up water or any other liquids. This appliance is designed for dry vacuuming only.
- Do not pick up flammable or combustible materials, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Do not operate the vacuum cleaner with a damaged cord or plug. If the appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

## 2. PRODUCT OVERVIEW

The CROMA 1200 Watts Dry Vacuum Cleaner is designed for efficient dry cleaning of various surfaces, particularly hard floors. It features a powerful motor, a dust bag full indicator, and a washable HEPA filter for improved air quality.

### 2.1 Included Components

- Main Vacuum Unit
- Flexible Hose
- Telescopic Wand
- Floor Brush

- Crevice Nozzle
- User Manual

## 2.2 Key Features

- **Powerful 1200 Watts Motor:** Provides strong suction for effective cleaning.
- **Dust Bag Full Indicator:** Automatically alerts you when the dust bag needs emptying.
- **Low Sound Operation:** Engineered for a quieter cleaning experience (approx. 60-78 dB).
- **Wheels:** For easy maneuverability around your home.
- **Washable HEPA Filter:** Captures small dust particles and allergens, ensuring cleaner expelled air.
- **1.5m Cord Re-winder:** One-touch automatic cord retraction for convenient storage.
- **1.5L Dust Cup Capacity:** Sufficient capacity for typical household cleaning tasks.

### 3. SETUP

---

Follow these steps to set up your vacuum cleaner for first use:

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Attach Hose:** Insert the flexible hose into the suction inlet on the main unit until it clicks securely into place.
3. **Assemble Wand and Brush:**
  - Connect the telescopic wand to the handle end of the flexible hose.
  - Attach the desired cleaning attachment (e.g., floor brush or crevice nozzle) to the end of the telescopic wand.
4. **Check Dust Container:** Ensure the dust container is properly installed and empty before use.
5. **Power Connection:** Extend the power cord and plug it into a suitable electrical outlet.

## 4. OPERATING INSTRUCTIONS

---

Operating your CROMA vacuum cleaner is straightforward:

1. **Power On:** Press the power button (Push Button control) located on the main unit to start the vacuum cleaner.
2. **Adjust Suction (if applicable):** Some models may have a suction control slider on the hose handle. Adjust as needed for different surfaces.
3. **Cleaning:** Move the floor brush or chosen attachment slowly over the surface to be cleaned. For hard floors, ensure the brush setting is appropriate.
4. **Dust Bag Full Indicator:** Monitor the dust bag full indicator. When it changes color or illuminates, it's time to empty the dust container.
5. **Power Off:** After cleaning, press the power button again to turn off the vacuum cleaner.
6. **Cord Re-winder:** Press the cord re-winder button to automatically retract the power cord into the unit for neat storage. Guide the cord manually to prevent tangling.

**Note:** This vacuum cleaner is recommended for use on hard floors. While it can be used on low-pile carpets, its primary design is for dry hard floor cleaning.

## 5. MAINTENANCE

---

Regular maintenance ensures optimal performance and extends the life of your vacuum cleaner.

### 5.1 Emptying the Dust Container

1. Ensure the vacuum cleaner is unplugged from the power outlet.
2. Locate the dust container release button/latch, usually near the handle of the dust cup.
3. Carefully remove the dust container from the main unit.
4. Position the dust container over a waste bin and open its bottom lid to empty the collected dust and debris.
5. Close the lid securely and re-attach the dust container to the vacuum cleaner until it clicks into place.

### 5.2 Cleaning the Washable HEPA Filter

The HEPA filter should be cleaned regularly, especially if you notice reduced suction or increased dust in the exhaust air.

1. Unplug the vacuum cleaner.
2. Remove the dust container as described above. The HEPA filter is typically located within or near the dust container.
3. Carefully remove the HEPA filter. Tap it gently over a waste bin to dislodge loose dust.
4. Rinse the filter under cool running water until the water runs clear. Do not use detergents or hot water.
5. Allow the filter to air dry completely for at least 24 hours before re-installing it. Do not use a hairdryer or other heating devices.
6. Once completely dry, re-insert the filter into its compartment and re-attach the dust container.

**Important:** Do not operate the vacuum cleaner without the HEPA filter properly installed and dry.

### 5.3 Cleaning Attachments and Exterior

- Wipe the exterior of the vacuum cleaner with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Check the floor brush and other attachments for tangled hair or debris. Remove any obstructions to ensure efficient cleaning.

## 6. TROUBLESHOOTING

Before contacting customer support, please refer to the following troubleshooting guide for common issues:

Problem	Possible Cause	Solution
Vacuum cleaner does not turn on.	Not plugged in. Power outlet not working. Power cord or plug damaged.	Ensure the power cord is securely plugged into a working outlet. Test the outlet with another appliance. Inspect the cord and plug for damage. If damaged, do not use and contact service.
Reduced suction power.	Dust container is full. HEPA filter is clogged. Hose, wand, or attachment is blocked.	Empty the dust container. Clean the HEPA filter as per maintenance instructions. Ensure it is completely dry before re-installing. Check the hose, wand, and attachments for any obstructions and remove them.
Unusual noise during operation.	Obstruction in the hose or brush. Dust container or filter not properly installed.	Check for and remove any obstructions. Ensure all parts, especially the dust container and filter, are securely in place.
Dust escaping from the vacuum cleaner.	Dust container not properly sealed. Filter not installed or damaged.	Ensure the dust container is correctly closed and locked into position. Check that the HEPA filter is properly installed and not damaged. Replace if necessary.
