LEVC TX TAXI

Image: The Matchbox LEVC TX Taxi die-cast model, presented in its original blister packaging. The packaging features the Matchbox logo, product details, and an illustration of the taxi on a city background. The black taxi model is visible through the clear plastic blister.

The Matchbox LEVC TX Taxi is a highly detailed die-cast replica of the modern London electric taxi. It is part of the Matchbox mainline series, identified as #46/100. This model features a black finish and accurate detailing, making it a valuable addition to any collection.

SETUP

The Matchbox LEVC TX Taxi comes pre-assembled and ready for display or play. No assembly is required.

1. **Unboxing:** Carefully remove the die-cast model from its blister packaging. It is recommended to use scissors to cut around the edges of the plastic blister to avoid damaging the model.
2. **Inspection:** Before use, inspect the model for any visible defects or damage that may have occurred during shipping.

OPERATING

This is a push-and-play die-cast vehicle. It operates by manual propulsion.

- **Movement:** Place the vehicle on a flat, smooth surface. Gently push the vehicle forward or backward to make it roll.
- **Display:** The model can be displayed on a shelf, desk, or in a display case.

MAINTENANCE

Proper care will help preserve the condition and appearance of your die-cast model.

- **Cleaning:** To clean the model, gently wipe it with a soft, dry cloth. For stubborn dust, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause paint fading.
- **Handling:** Handle the model by its body to avoid bending or breaking small parts like mirrors or antennas, if present.

TROUBLESHOOTING

As a static die-cast model, operational issues are minimal. If you encounter any concerns:

- **Wheels not rolling smoothly:** Check for any debris or dust caught in the axles. Gently remove any obstructions. Ensure the surface you are using is clean and flat.
- **Minor paint chips/scratches:** These can occur with normal handling. For collectors, consider displaying the model in a protective case.

SPECIFICATIONS

Product Dimensions	4.33 x 4.33 x 1.57 inches
Item Weight	0.317 ounces
Model Number	GXM64
Manufacturer Recommended Age	15 years and up

Material	Die-cast Metal
