Thousand Chapter MIPS Adult Bike Helmet Instruction Manual

Brand: Thousand | Model: Chapter MIPS Adult Bike Helmet

PRODUCT OVERVIEW

The Thousand Chapter MIPS Adult Bike Helmet is designed for optimal safety, comfort, and style. It features advanced MIPS technology for enhanced protection, a multi-use magnetic LED tail light for visibility, and the innovative PopLock system for secure storage. Its lightweight and low-profile design ensures a comfortable fit for various head shapes.

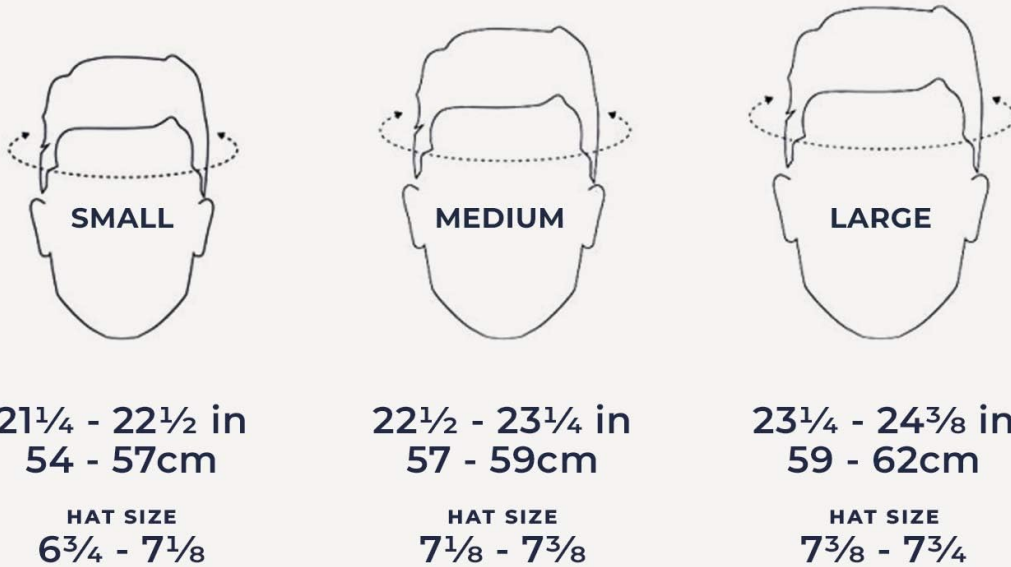

- **MIPS:** Add an extra layer of protection with integrated MIPS technology.
- **MULTI-USE MAGNETIC LIGHT:** Ride smoothly from day to night with an included 30 lumen USB rechargeable taillight that turns on automatically when magnetically attached to the helmet or multi-use adapter.
- **PREMIUM VISORS:** Reduce glare and increase your field of vision with visors in elevated finishes, including hand-painted tortoise shell, matte black, and metallic rose gold.
- **SECRET POPLOCK:** The most convenient and secure way to leave your helmet behind. Access the hidden channel behind the logo mark, and thread your U-lock or chain lock through. Backed by our Anti-Theft Guarantee.
- **ACTIVE VENTILATION:** 8 strategically placed vents actively capture airflow and pass it through the interior cooling channels – developed to keep you cool on your long rides.

SETUP

Helmet Fitting

Achieving the correct fit is crucial for helmet safety and comfort. Use the integrated dial fit system at the back of the helmet to adjust the internal sizing for a snug and secure fit. The nylon straps are also adjustable to ensure the helmet sits correctly on your head.

FIT GUIDE

Chose the wrong size? No problem!
**We will exchange your helmet
for the right size.**

US CHAPTER MIPS ADULT BIKE HELMET SIZE GUIDE

Brand Size	Head Circumference (in)	Hat Size (in)
Small	21.2 - 22.5	6.8 - 7.1
Medium	22.5 - 23.2	7.1 - 7.4
Large	23.2 - 24.4	7.4 - 7.8

Magnetic Tail Light Installation & Charging

The included 30 lumen USB rechargeable tail light attaches magnetically to the helmet. It automatically turns on when securely attached. To charge, simply detach the light and connect it to a USB power source using the provided cable. The light can also be attached to your bike using the multi-use adapter.

Ride smoothly from day to night with an included 30 lumen USB rechargeable taillight that turns on automatically when magnetically attached to the helmet or multi-use adapter.

MULTI-USE MAGNETIC LIGHT

Video: Demonstrates the magnetic attachment and functionality of the Thousand Chapter Bike Helmet's tail light, including its use on the helmet and a bike seat post.

PopLock Anti-Theft System

The Secret PopLock is a convenient way to secure your helmet. Access the hidden channel behind the logo mark on the side of the helmet. Thread your U-lock or chain lock through this channel to secure the helmet to your bike or another fixed object. This feature is backed by Thousand's Anti-Theft Guarantee.

SECRET POPLOCK

Access the hidden channel behind the logo mark, and pop your U-Lock or chain lock through. **Backed by our Anti-Theft Guarantee.**

OPERATING INSTRUCTIONS

MIPS Safety System

The Multi-directional Impact Protection System (MIPS) is an integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts. This system allows the helmet's outer shell to slide relative to the head in the event of a crash, significantly reducing the forces on the brain.

MIPS

Add an extra layer of protection against concussions and traumatic brain injury with integrated MIPS technology.

Active Ventilation

The helmet features 8 strategically placed vents that actively capture airflow. This air is then passed through interior cooling channels to help keep you cool and comfortable during your rides, especially on longer journeys.

PREMIUM VISORS

Reduce glare and increase your field of vision with visors in elevated finishes, including hand painted tortoise shell, matte black, and metallic rose gold.

Visor

The helmet includes a premium visor designed to reduce glare and enhance your field of vision. The visor is removable, allowing you to customize the helmet's appearance and functionality based on your preference or riding conditions.

MAINTENANCE

To ensure the longevity and effectiveness of your helmet, regular maintenance is recommended:

- **Cleaning:** Use a soft, damp cloth and mild soap to clean the helmet's exterior and interior padding. Avoid harsh chemicals or abrasive materials that could damage the helmet's finish or protective layers.
- **Strap Care:** Periodically check the chin straps and buckles for any signs of wear or damage. Ensure they are clean and free from debris.
- **Storage:** Store the helmet in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on top of the helmet, as this can deform its shape and compromise its protective capabilities.
- **Magnetic Light:** Keep the magnetic contacts on both the light and the helmet clean to ensure proper connection and charging.

TROUBLESHOOTING

If you encounter any issues with your Thousand Chapter MIPS Helmet, consider the following:

- **Helmet feels too tight or too loose:** Adjust the dial fit system at the back of the helmet. Ensure the chin straps are properly tightened and centered under your chin. Refer to the Helmet Fitting section for

detailed instructions.

- **Magnetic Tail Light not turning on/charging:** Ensure the light is securely attached to the helmet or adapter. Check that the USB charging cable is properly connected to both the light and a power source. Clean the magnetic contacts on both the light and the helmet. If the light has been stored for a long time, it may require a full charge.
- **PopLock not engaging:** Ensure the PopLock cover is fully removed and the channel is clear of any obstructions.
