VaVaSoo Electric Rocking Bassinet User Manual

Model: BC106C

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembling and using the VaVaSoo Electric Rocking Bassinet. Keep this manual for future reference.

General Safety Guidelines:

- This bassinet is designed for infants from 0 to 6 months old, with a maximum weight limit of 20 lbs (9 kg). Discontinue use when the infant begins to push up on hands and knees, or has reached the maximum weight, whichever comes first.
- Always place the bassinet on a firm, flat surface.
- Ensure all assembly components are securely fastened before each use. Regularly check for loose parts.
- Do not use the bassinet if any parts are missing, damaged, or broken. Contact customer service for replacement parts.
- Keep cords and small parts away from children to prevent strangulation or choking hazards.
- The bassinet features breathable mesh sides for optimal airflow and visibility. Ensure these are not obstructed.
- Only use the mattress provided by the manufacturer. Do not add extra padding, pillows, or blankets under the infant, as this can cause suffocation.
- This product is CPSC and ASTM certified, meeting safety standards for bassinets.

Suitable Age: 0-6 Months(Max: 20LBS)

2. SETUP AND ASSEMBLY

The VaVaSoo Electric Rocking Bassinet is designed for quick and easy assembly without the need for additional tools. Follow these general steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in the included printed manual.
2. **Assemble Frame:** Connect the base and support legs according to the diagrams in the printed manual. Ensure all locking mechanisms click into place.
3. **Attach Bassinet Basket:** Securely attach the bassinet basket to the assembled frame. Double-check that it is firmly seated and stable.

4. **Insert Mattress:** Place the provided mattress into the bassinet basket. Ensure it fits snugly without gaps.
5. **Power Connection:** Connect the power adapter to the bassinet and a suitable power outlet.
6. **Final Check:** Before first use, gently push down on the bassinet to ensure it is stable and all connections are secure.

For detailed visual instructions, please refer to the assembly videos available on the VaVaSoo official website or product page.

Automatic Power-Off:

- To protect the motor and conserve energy, the bassinet's electric functions will automatically power off after 45 minutes of continuous operation.
- To restart the functions, simply press the power button on the control panel or remote control.

4. MAINTENANCE AND CARE

Cleaning:

- **Fabric Components:** The fabric lining and mattress cover can be removed for cleaning. Hand wash with mild

detergent and cold water, or machine wash on a delicate cycle. Air dry thoroughly. Do not bleach or tumble dry.

- **Frame and Plastic Parts:** Wipe down the frame, plastic components, and motor housing with a damp cloth and mild soap. Dry immediately. Do not immerse any electrical parts in water.
- **Mattress:** The mattress itself can be spot cleaned with a damp cloth. Ensure it is completely dry before reinserting into the bassinet.

Storage:

- When not in use for an extended period, disassemble the bassinet according to the reverse of the assembly instructions.
- Store all components in a clean, dry place, away from direct sunlight and extreme temperatures.

Motor System:

- The bassinet features an all-in-one industrial-grade motor system designed for smooth rocking and calming music.

5. TROUBLESHOOTING

If you encounter any issues with your VaVaSoo Electric Rocking Bassinet, please refer to the following common troubleshooting tips:

- **No Power/Functions Not Working:**

- Ensure the power adapter is securely plugged into both the bassinet and a working electrical outlet.
- Check if the bassinet has automatically powered off after 45 minutes. Press the power button to restart.
- Verify that the remote control batteries are not depleted.

- **Rocking Motion is Weak or Inconsistent:**
 - Ensure the bassinet is on a flat, stable surface.
 - Check that the weight of the infant does not exceed the maximum limit of 20 lbs (9 kg).
 - Ensure no objects are obstructing the rocking mechanism.
- **Unusual Noises:**
 - Inspect the bassinet for any loose parts or connections. Tighten if necessary.
 - Ensure the bassinet is not touching any walls or furniture that could cause friction during rocking.
- **Remote Control Not Responding:**
 - Replace the batteries in the remote control.
 - Ensure there are no obstructions between the remote control and the bassinet's receiver.

If these steps do not resolve the issue, please contact VaVaSoo customer support for further assistance.
