3. GETTING STARTED

Charging the Device:

Before first use, fully charge the voice recorder. Connect the device to a USB power source (e.g., computer USB port, USB wall adapter) using the provided USB cable. A full charge typically takes about 2 hours. The indicator light will show charging status (refer to the device's LED indicator guide in the manual for specific light behaviors).

Power On/Off:

To power on the device, slide the power switch to the 'ON' position. To power off, slide the switch to 'OFF'.

4. BASIC OPERATION

One-Touch Recording:

The Vandlion V13 features a convenient one-touch recording function. Simply slide the recording switch to the 'REC' position to start recording. To save the recording and stop, slide the switch to the 'SAVE' position. During recording, there is no sound or light emitted from the device.

Voice Activated Recording (V.O.R.):

The voice activation feature allows the recorder to start recording automatically when it detects sound and pause when silent or at low volume. This feature is OFF by default. Refer to the detailed manual for instructions on how to activate and configure voice activation settings. *Note: Do not use voice activation for critical occasions where continuous recording is essential.*

Playback with Headphones:

To listen to your recordings directly from the device, ensure the recorder is off and saved. Connect the included headphones to the device. You can then play back your recording files. During playback, briefly press the play button to pause. Long-press the previous/next track button to fast forward or rewind.

Playback With Earphone

Can also connect to your Android phone/computer

5. ADVANCED FEATURES

File Management:

You can easily play, delete, rename, or transfer recording files by connecting the device to a Windows PC, Mac computer, or Android phone. Simply connect the recorder using the appropriate USB cable or adapter. The device will appear as a removable disk, allowing you to manage your files.

6. MAINTENANCE AND CARE

- Keep the device dry. Avoid exposure to moisture or liquids.
- Do not expose the device to extreme temperatures (hot or cold).
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Avoid dropping or subjecting the device to strong impacts.
- Store the device in a clean, dust-free environment when not in use.

7. TROUBLESHOOTING

Common Issues and Solutions:

- **Device not recognized by computer:**
 - Ensure the USB cable is securely connected to both the recorder and the computer.
 - Try a different USB port on your computer.
 - Restart your computer and try connecting again.
 - Ensure the device is powered on when connecting to a computer for file transfer.
- **Difficulty starting a recording:**
 - Ensure the recording switch is firmly slid to the 'REC' position.
 - Check if the battery is charged. If the battery is low, the device may not initiate recording.
 - Verify that there is sufficient storage space available on the device.
- **Poor recording quality:**
 - Ensure the microphone is not obstructed.
 - Record in a quiet environment to minimize background noise.
 - Keep the recorder within an optimal distance from the sound source.

- **Cannot hear playback through headphones:**
 - Ensure headphones are fully plugged into the correct port.
 - Check the volume level using the control unit.
 - Test with another pair of headphones to rule out faulty headphones.
