Accutime AVG4706

Accutime AVG4706 Avengers LED Watch User Manual

Model: AVG4706 | Brand: Accutime

INTRODUCTION

This manual provides instructions for the Accutime AVG4706 Avengers LED Watch. Please read this manual carefully before using your watch to ensure proper operation and to maximize its lifespan.

SETUP

Unboxing and Initial Inspection

Upon receiving your Accutime AVG4706 watch, carefully remove it from its packaging. Ensure all components are present, including the watch and this instruction manual.

branding.

Adjusting the Strap

The watch features an acrylic strap approximately 21.7 cm long with 7 adjustment holes. To adjust the strap:

1. Place the watch on your wrist.
2. Thread the strap through the buckle.
3. Select the hole that provides a comfortable and secure fit.

OPERATING INSTRUCTIONS

Displaying Time and Date

The Accutime AVG4706 watch features an LED digital display. To view the time and date:

- Press the button located on the side of the watch casing.
- The LED display will illuminate, showing the time (hours, minutes), seconds, month, and day.
- The display will automatically turn off after a few seconds to conserve battery life.

Setting Time and Date

The watch supports both 12-hour and 24-hour time systems. All settings are adjusted using the two buttons located on the right side of the watch casing.

1. **Accessing Settings:** Press and hold the top button until the display starts flashing.

2. **Adjusting Values:** Use the top button to cycle through the values (e.g., hours, minutes, month, day).
3. **Confirming Selection:** Use the bottom button to confirm the current value and move to the next setting.
4. Repeat steps 2 and 3 until all desired settings (hours, minutes, seconds, month, day, 12/24-hour format) are configured.
5. The display will exit setting mode automatically after a period of inactivity or once all settings are confirmed.

MAINTENANCE

Battery Information

The Accutime AVG4706 watch is powered by an integrated CR2032 button cell battery. This battery is designed for long life due to the automatic display shut-off feature.

- The battery is **not rechargeable**.
- The battery is **not replaceable** by the user. Attempting to replace the battery may damage the watch and void any implied warranty.

Cleaning

To clean your watch, gently wipe the display and strap with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the watch's finish or display.

Storage

When not in use, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Display not illuminating:**
 - Ensure the button is pressed firmly.
 - If the display still does not illuminate, the battery may be depleted. As the battery is not replaceable, the watch may have reached the end of its operational life.
- **Incorrect time/date:**
 - Refer to the "Setting Time and Date" section to re-adjust the settings.

SPECIFICATIONS

Feature	Detail
