Belkin CCB004

Belkin BOOSTCHARGE 37W Dual Port Car Charger with PPS (Model CCB004) Instruction Manual

Model: CCB004 | Brand: Belkin

INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your Belkin BOOSTCHARGE 37W Dual Port Car Charger. This charger is designed to keep your devices powered on the go, featuring a 25W USB-C Power Delivery port and a 12W USB-A port, both supporting simultaneous fast charging. It incorporates PPS (Programmable Power Supply) technology for optimized charging with compatible devices.

WHAT'S INCLUDED

- 1 x Belkin Dual Port Car Charger
- 1 x 3.3ft USB-C to Lightning Cable

The Belkin BOOSTCHARGE 37W Dual Port Car Charger and the included 3.3ft USB-C to Lightning Cable.

SETUP

- 1. Insert the Car Charger:** Plug the Belkin BOOSTCHARGE 37W Dual Port Car Charger firmly into your vehicle's 12V accessory power outlet (cigarette lighter socket). The LED indicator on the charger will illuminate when it is properly connected and receiving power.
- 2. Connect Your Device:**
 - For USB-C compatible devices: Use the included USB-C to Lightning cable or another compatible USB-C cable to connect your device to the 25W USB-C port.
 - For USB-A compatible devices: Use a compatible USB-A cable to connect your device to the 12W USB-A port.
- 3. Simultaneous Charging:** You can charge two devices simultaneously using both the USB-C and USB-A ports.

The car charger inserted into the vehicle's power outlet, ready to charge devices.

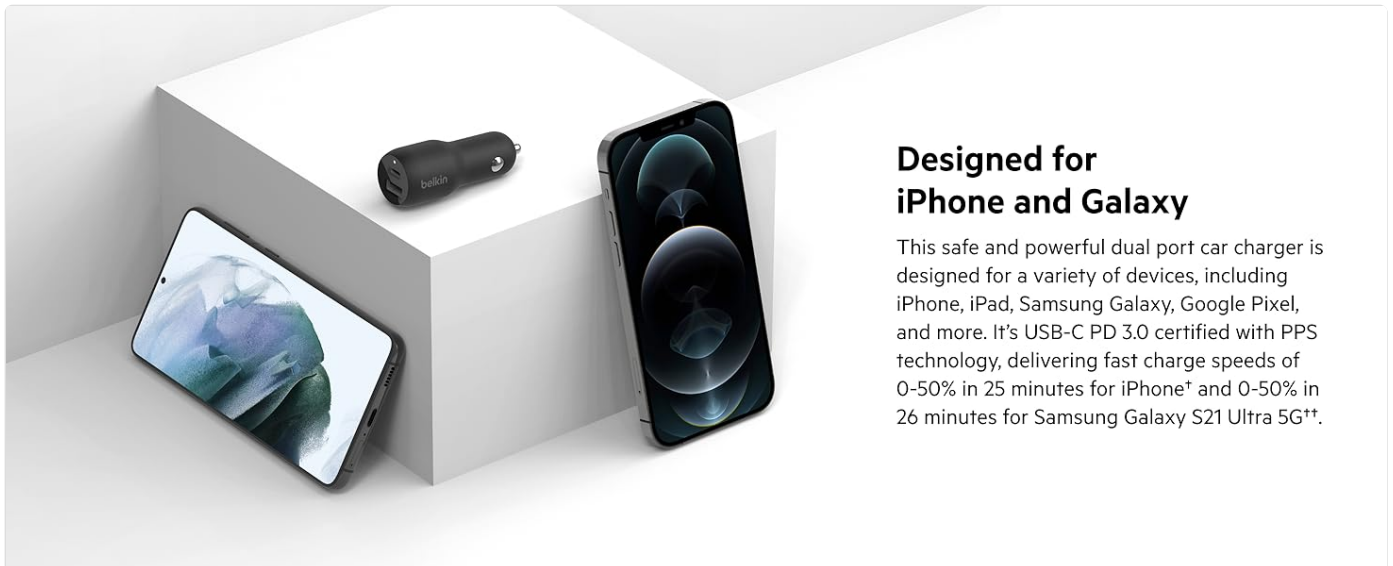

OPERATING INSTRUCTIONS

Fast Charging Technology

The 25W USB-C port utilizes Power Delivery 3.0 and PPS technologies to deliver optimal fast charging for compatible devices. This allows for dynamic negotiation of the best charging voltage, ensuring efficient power delivery. For example, it can charge an iPhone 13 Pro up to 20W and a Galaxy S22 Ultra up to 25W.

Compatibility

This charger is optimized for a wide range of devices, including Apple iPhones (iPhone 14, 13, 12 series, etc.), Samsung Galaxy phones (S25, S24, S22 series, etc.), Google Pixel phones, Huawei Mate and P series, Sony Xperia series, and Nintendo Switch 2. Always use certified cables for optimal performance and safety.

Designed for iPhone and Galaxy

This safe and powerful dual port car charger is designed for a variety of devices, including iPhone, iPad, Samsung Galaxy, Google Pixel, and more. It's USB-C PD 3.0 certified with PPS technology, delivering fast charge speeds of 0-50% in 25 minutes for iPhone[†] and 0-50% in 26 minutes for Samsung Galaxy S21 Ultra 5G^{**}.

The charger is compatible with a wide range of smartphones and devices.

LED Indicator

A small LED indicator light on the charger confirms that it is receiving power from your vehicle's accessory outlet and is ready to charge your devices.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or crimping the charging cable excessively to prevent internal damage.

TROUBLESHOOTING

Charger LED is not illuminated:

- Ensure the charger is fully inserted into the vehicle's 12V accessory power outlet.
- Check your vehicle's fuse box for a blown fuse related to the accessory power outlet.
- Test the charger in a different vehicle or power outlet if available.

Device is not charging or charging slowly:

- Verify that the charging cable is securely connected to both the charger and your device.
- Ensure your device is compatible with the charger's output (USB-C PD 25W, USB-A 12W).
- Try a different charging cable to rule out a faulty cable.
- If charging two devices simultaneously, note that total power output is shared, which might affect individual charging speeds.
