5. MAINTENANCE AND CARE

5.1 Fabric Care (Corduroy)

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild soap solution and a damp cloth, then blot dry. Test any cleaning solution on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use bleach or abrasive cleaners, as these can damage the fabric.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading.

5.2 Frame Care

- Wipe the metal frame with a soft, damp cloth as needed.
- Ensure all moving parts of the adjustment mechanism are free from obstructions.

6. TROUBLESHOOTING

6.1 Backrest Adjustment Issues

- **Problem:** Backrest does not lock into position.
- **Solution:** Ensure you are pushing the backrest fully forward to disengage the lock before reclining to a new position. Listen for the distinct clicks indicating it has locked.

6.2 Stability Concerns

- **Problem:** Sofa feels unstable.
- **Solution:** Verify that the sofa is placed on a flat, even surface. Avoid placing it on uneven flooring or thick, plush carpets that might cause instability.

6.3 General Wear and Tear

- Over time, the foam padding may compress slightly. This is normal and does not affect the functionality of the product.
- Minor creaking sounds from the metal frame during adjustment are normal.
