Govee H6066

Govee Glide Hexa Pro Light Panels H6066 Instruction Manual

Model: H6066 | Brand: Govee

1. PRODUCT OVERVIEW

The Govee Glide Hexa Pro Light Panels (Model H6066) are innovative RGBIC 3D hexagon wall lights designed to enhance your living space with dynamic lighting effects. These LED panels offer a unique visual experience with their three-dimensional design and customizable lighting. They feature dynamic flowing effects, 16.8 million colors, and RGBIC technology for mesmerizing color transitions. The panels are smart-enabled, allowing control via the Govee Home App, Amazon Alexa, and Google Assistant. Key features include music synchronization, various scene modes, and the ability to customize your home aesthetics with unique layouts.

3. SETUP AND INSTALLATION

Follow these steps to set up and install your Govee Glide Hexa Pro Light Panels:

1. **Prepare the Wall:** Ensure the wall surface is smooth, non-textured, and free of dirt and debris. Wipe it with a clean, dry cloth.

2. **Connect Power:** Plug the control box and power adapter into a power source.

3. **App Pairing:** Download the Govee Home App and pair your Glide Hexa Pro with the app. Follow the in-app instructions for device discovery and connection.

4. **Test Panels:** Connect each light panel to the control box to confirm all panels are working correctly. The app will guide you through this process.

5. **Design Layout:** Use the Govee Home App to design your desired layout on the canvas. You can choose from recommended designs or create your own.

6. **Connect Panels:** Plug a linking cable into a numbered slot on the first panel (as indicated by the app) and direct the cable through the appropriate slot.

7. **Mount First Panel:** Remove the covering from the back adhesive tape of the first panel. Use the included mini-level to ensure proper alignment. Press the panel firmly against the wall for 30 seconds.

8. **Continue Installation:** Click "Next Panel" in the app. Plug a new linking cable into the numbered port and slot of the second panel, as indicated by the app. Connect the end of the linking cable from the first panel into the second panel's power-in port. Repeat this process for all remaining panels until your design is fully installed on the wall, ensuring green diamonds on the panel faces are in the same

direction.

4. OPERATING INSTRUCTIONS

The Govee Glide Hexa Pro Light Panels offer multiple ways to control and customize your lighting experience:

4.1 Govee Home App Control

The Govee Home App is the primary interface for controlling your light panels. It allows you to:

- **Customize Colors:** Select from 16.8 million colors and adjust brightness.
- **Choose Scene Modes:** Access a diverse mix of pre-set scene modes for various moods and occasions (e.g., gaming, holidays, relaxation).
- **Music Sync Mode:** Activate music mode to synchronize the light effects with your audio, creating an immersive experience. You can select the direction for the lights to flow.
- **DIY Mode:** Create and save your own unique lighting effects and patterns.
- **Layout Preview:** Preview your custom designs on the app before applying them to the physical panels.

4.2 Voice Control

The Govee Glide Hexa Pro Light Panels are compatible with popular voice assistants:

- **Amazon Alexa:** Connect your Govee account to Alexa to control your lights with voice commands (e.g., "Alexa, set Glide Hexa Pro to Forest").
- **Google Assistant:** Integrate with Google Assistant for hands-free control (e.g., "Hey Google, turn on the gaming lights").

4.3 Music Mode

Experience an exclusive 3D music experience with the music mode. The panels will react to the rhythm and beat of your music, creating a dynamic light show. This feature is ideal for parties, intense game nights, or setting a relaxed ambiance.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Govee Glide Hexa Pro Light Panels, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the surface of the light panels with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or internal components.

- **Handling:** Handle the panels with care. Avoid dropping them or subjecting them to strong impacts.
- **Environment:** Use the panels indoors only. Avoid exposing them to extreme temperatures, high humidity, or direct water contact, as they are not water-resistant.
- **Cable Management:** Ensure all linking and power cables are neatly arranged and not under tension to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your Govee Glide Hexa Pro Light Panels, refer to the following common troubleshooting tips:

- **Panels Not Lighting Up:**
  - Check if the power adapter is securely plugged into both the control box and a working power outlet.
  - Ensure the control box is correctly connected to the first light panel.
  - Verify that all linking cables between panels are securely inserted.
  - Confirm the panels are powered on via the Govee Home App or the physical control button.

- **App Connection Issues:**
  - Make sure Bluetooth and Wi-Fi are enabled on your smartphone.
  - Ensure your smartphone is within close proximity to the light panels.
  - Restart the Govee Home App.
  - Unplug the power adapter from the panels for 10 seconds, then plug it back in to reset the device.
  - If using Wi-Fi, ensure your router is functioning correctly and the panels are within range.

- **Inconsistent Light Effects:**
  - Check the linking cables for any loose connections.
  - Ensure the panels are correctly configured in the Govee Home App to match your physical layout.
  - Update the Govee Home App and the panel firmware to the latest versions.

- **Voice Control Not Working:**
  - Verify that your Govee account is correctly linked to Amazon Alexa or Google Assistant.
  - Ensure your voice assistant device is online and properly configured.
  - Use the exact commands specified in the Govee Home App or voice assistant documentation.
