2. SAFETY INFORMATION

To ensure safe operation and prevent damage, observe the following precautions:

- Keep small parts away from children.
- Do not place the camera or cords within reach of children.
- Use only the provided power adapters.
- Do not expose the unit to water or moisture.
- Avoid placing the unit near heat sources or direct sunlight.
- Ensure proper ventilation; do not cover the unit.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 1 x 5-inch Wireless Parent Unit
- 2 x Plug-in Camera Units
- 3 x Power Chargers

- 1 x User Manual
- 2 x Mounting Screws

4. PRODUCT OVERVIEW

4.1 Key Features

The HelloBaby HB6550 Baby Monitor offers advanced features for reliable baby monitoring:

- **5-inch LCD Screen:** Provides a clear view of your baby.
- **Dual Cameras with Pan-Tilt-Zoom:** Monitor multiple rooms with remote control over camera angles.
- **26-Hour Battery Life (VOX Mode):** Extended monitoring time on a single charge.
- **1000ft Range:** Maintain connection across large homes or outdoor areas (with antenna extension).
- **No WiFi, Secure FHSS Technology:** Ensures a private and secure connection, free from internet hacking risks.
- **VOX Mode (Sound Detection):** Screen activates automatically upon detecting sound, conserving battery.
- **Infrared Night Vision:** Clear video feed in low-light conditions.
- **Two-Way Talk:** Communicate with your baby remotely.
- **8 Built-in Lullabies:** Soothe your baby to sleep.
- **Room Temperature Monitoring:** Keep track of the nursery environment.

5. SETUP

Follow these steps for initial setup:

1. **Charge the Parent Unit:** Connect the parent unit to a power outlet using one of the provided chargers. Charge fully before first use (approximately 7-8 hours).
2. **Position the Cameras:** Place the camera units in your desired monitoring locations. Ensure they have a clear view of the area. Cameras can be tabletop or wall-mounted using the included screws.
3. **Power On Cameras:** Connect each camera unit to a power outlet using the remaining chargers.
4. **Automatic Connection:** The camera units are pre-connected to the parent unit. Once both are powered on, the video feed should appear automatically.
5. **Antenna Extension:** For optimal range (up to 1000ft outdoors), ensure the antenna on the parent

unit is extended.

Image: Diagram illustrating the secure FHSS (Frequency Hopping Spread Spectrum) connection between the camera and parent unit, emphasizing no Wi-Fi dependency.

6. OPERATING INSTRUCTIONS

6.1 Basic Operation

- **Power On/Off:** Press and hold the power button on the parent unit to turn it on or off.
- **Volume Control:** Use the volume buttons on the parent unit to adjust the audio level.
- **Screen On/Off:** Briefly press the power button to turn the screen on or off while the unit remains active.

6.2 Pan-Tilt-Zoom (PTZ)

Use the directional buttons on the parent unit to remotely adjust the camera's view:

- Use the **Up/Down/Left/Right** arrows to pan (side-to-side, up to 355 degrees) and tilt (up and down, up to 120 degrees) the camera.

- Press the **Zoom** button to digitally zoom in (2X) on the image.

Remote Control Wide View Monitoring

Pan up to 355 degrees side-to-side and tilt as many as 120 degrees up and down.

Image: Demonstrates the remote pan and tilt capabilities of the camera, showing 355 degrees horizontal and 120 degrees vertical movement.

Image: Shows the digital zoom feature, allowing users to get a closer view of their baby.

6.3 VOX Mode (Voice Operated Exchange)

VOX mode conserves battery by turning off the screen and muting sound until a sound is detected:

- Activate VOX mode through the menu settings.
- Adjust the sensitivity level (3 levels available) to determine how loud a sound needs to be to activate the screen.
- When sound is detected, the screen will automatically turn on, and audio will resume.
- The 3-level sound indicator on the parent unit provides a visual alert for detected sounds.

Image: Illustrates the VOX mode, showing the screen turning on when a baby cries and turning off when no sound is detected to save power.

6.4 Two-Way Talk

To speak to your baby through the camera:

- Press and hold the microphone button on the parent unit.
- Speak clearly into the microphone. Release the button to hear your baby again.

6.5 Night Vision

The camera automatically switches to infrared night vision in low-light conditions, providing a clear black and white image.

Image: Compares the camera's day vision (color) with its automatic infrared night vision (black and white).

6.6 Lullabies

Access the menu to select and play one of the 8 built-in lullabies to soothe your baby.

6.7 Temperature Monitoring

The parent unit displays the current room temperature detected by the camera. You can set alerts for temperature deviations in the menu.

6.8 Multi-Camera View

The system supports up to 4 cameras. To switch between cameras or view multiple cameras:

- Use the camera switching button on the parent unit to cycle through connected cameras.
- The monitor can display a stable view switching between cameras on one large screen, not a split screen.

Image: Depicts the ability to connect and monitor up to four cameras with the parent unit.

7. MAINTENANCE

- **Cleaning:** Wipe the monitor and camera surfaces with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** To prolong battery life, avoid fully discharging the parent unit frequently. Charge regularly.
- **Storage:** If storing for an extended period, fully charge the parent unit and store in a cool, dry place.

8. TROUBLESHOOTING

Problem	Possible Solution
No image on screen / Black screen	<p>Ensure both parent unit and camera are powered on and charged.</p> <p>Check if the parent unit screen is in VOX mode (screen off). Briefly press the power button to activate.</p> <p>Ensure the camera is within range of the parent unit.</p> <p>Try re-pairing the camera if connection is lost (refer to manual for pairing steps).</p>
Poor signal / Intermittent connection	<p>Move the parent unit closer to the camera.</p> <p>Ensure the antenna on the parent unit is fully extended.</p> <p>Avoid placing the units near other electronic devices that may cause interference (e.g., Wi-Fi routers, microwaves).</p> <p>Walls and floors can reduce signal strength.</p>
Parent unit not holding charge	<p>Ensure the charger is securely connected to both the parent unit and the power outlet.</p> <p>Use only the original HelloBaby charger.</p> <p>If the issue persists, the battery may need replacement or there could be an issue with the charging port. Contact customer support.</p>
Audio issues (no sound, static, too sensitive)	<p>Adjust the volume level on the parent unit.</p> <p>Check VOX sensitivity settings if the monitor is too sensitive to background noise.</p> <p>Ensure no obstructions are blocking the microphone on the camera or speaker on the parent unit.</p>
