Jool Baby Products PTY-LDR-GRY-PREM

Jool Baby Potty Training Seat with 2 Step Ladder User Manual

Model: PTY-LDR-GRY-PREM

Brand: Jool Baby Products

PRODUCT OVERVIEW

The Jool Baby Potty Training Seat with 2 Step Ladder is designed to assist toddlers in transitioning from diapers to independent toilet use. Its thoughtful design prioritizes comfort, stability, and ease of use for both children and parents.

Key Features:

- **Perfect Potty Training Solution:** Helps your child learn to use the adult toilet independently without a separate step stool or potty insert.
- **Adjustable Height:** Compatible with almost any toilet, fitting most round and elongated seats.
- **Climb with Confidence:** Features slip-resistant texture on the steps and sturdy side handles for secure climbing. Ladder feet have grips to keep it steady on the floor.
- **Folds Compactly:** Easy for storing when not in use, with a lightweight design for easy movement.
- **Soft Cushioned Seat & Backrest:** Ensures your toddler sits comfortably.

ASSEMBLY AND SETUP

The Jool Baby Potty Training Seat is designed for quick and easy assembly. Follow these steps to set up your potty ladder:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components are present: the main seat unit, two side support legs with steps, and any necessary fasteners (usually pre-attached or snap-on).
2. **Attach Side Supports:** Align the side support legs with the designated attachment points on the main seat unit. Secure them firmly. The design typically involves snapping or screwing components together. Refer to the included diagram for precise alignment.
3. **Adjust Height:** The ladder features adjustable height settings. Locate the adjustment points on the side legs (often marked with holes or notches). Press the release buttons (if applicable) and slide the legs up or down to achieve the desired height for your toilet. Ensure both sides are adjusted to the same level for stability.
4. **Position on Toilet:** Place the assembled potty training seat onto your adult toilet. The seat unit should rest securely

on the toilet rim, and the ladder feet should be flat on the floor. The non-slip grips on the feet will help maintain stability.

OPERATING INSTRUCTIONS

Guide your child through the process of using the potty training seat to build confidence and independence.

1. **Approaching the Toilet:** Encourage your child to approach the toilet from the front, facing the potty training seat.
2. **Climbing the Steps:** Instruct your child to use the two-step ladder to climb up. Emphasize holding onto the sturdy side handles for support and balance. The slip-resistant steps provide extra grip.
3. **Sitting Down:** Once on the top step, guide your child to turn around and sit comfortably on the cushioned seat. The handles can be used for stability while sitting down.
4. **Using the Toilet:** Ensure your child is positioned correctly. The splash guard helps prevent messes.
5. **Getting Off:** After use, instruct your child to hold onto the handles and carefully descend the steps.

6. **Flushing:** Encourage your child to flush the toilet independently, if they are able to reach.

MAINTENANCE AND CLEANING

Regular cleaning will ensure hygiene and prolong the life of your potty training seat.

- **Daily Cleaning:** After each use, wipe down the seat and splash guard with a damp cloth and mild soap or a child-safe disinfectant wipe.
- **Removable Soft Pad:** The soft cushioned seat pad is removable for thorough cleaning. Gently detach it and wash with warm soapy water. Rinse thoroughly and allow to air dry completely before reattaching.

- **Deep Cleaning:** Periodically, perform a deeper clean by disassembling the unit (if necessary) and washing all plastic components with warm soapy water. Pay attention to crevices and joints. Rinse well and dry completely.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or harsh chemicals, as these can damage the plastic and soft materials.

STORAGE

The Jool Baby Potty Training Seat is designed to fold compactly for convenient storage when not in use.

- **Folding:** To fold, lift the seat unit upwards from the toilet. The side support legs will collapse inward.
- **Compact Form:** Once folded, the unit stands upright, allowing it to be stored neatly beside the toilet, in a closet, or in a small space.
- **Portability:** Its lightweight design makes it easy to move between bathrooms or transport for travel.

NO MESS, NO FUSS

The splash guard keeps things tidy & makes cleanup a breeze.

TROUBLESHOOTING

If you encounter any issues with your Jool Baby Potty Training Seat, refer to the common solutions below:

Problem	Possible Cause / Solution
<p>Seat feels unstable on the toilet.</p>	<ul style="list-style-type: none"> - Ensure the side support legs are fully extended and locked into place at the correct height. - Verify that the non-slip feet are flat on the floor and not on a rug or uneven surface that could cause slipping. - Check if the seat is properly centered and seated on the adult toilet rim.

Problem	Possible Cause / Solution
Child is hesitant to use the seat.	<ul style="list-style-type: none"> - Ensure the seat is comfortable; the soft cushion should provide adequate support. - Reassure your child and demonstrate how to use the handles and steps. Positive reinforcement is key. - Allow your child to decorate the potty seat or choose its placement (within safe limits) to increase their comfort.
Difficulty folding or unfolding.	<ul style="list-style-type: none"> - Ensure all locking mechanisms (if any) are disengaged before attempting to fold or unfold. - Check for any obstructions or debris in the folding joints.
