PDEEY BABY-WING-12V-ADAPTER

Instruction Manual: Power Cord Replacement for 4moms Mamaroo, RockaRoo Baby Swing

Model: BABY-WING-12V-ADAPTER

INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your PDEEY Power Cord Replacement. This 12V 3A AC Adapter Charger is designed to provide reliable power to compatible 4moms mamaRoo and rockaRoo baby swings, ensuring your device operates correctly.

IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using this product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the power cord is fully inserted into both the wall outlet and the baby swing's power port.
- Do not use the power cord if it is damaged, frayed, or has exposed wires.
- Keep the power cord away from water, heat sources, and sharp objects.
- This adapter is specifically designed for 12V 3A devices. **DO NOT** use with devices requiring different voltages (e.g., 6V, 5V, 9V) or amperages, as this may damage the device or the adapter.
- **NOTE:** This power cord is **NOT** compatible with 4moms mamaRoo 3, 4moms rocker, or mamaRoo glider models. It is also not for other brands of baby swings.
- Unplug the adapter from the wall outlet when not in use for extended periods.

PRODUCT OVERVIEW

The PDEEY Power Cord Replacement is a reliable AC adapter designed to power your compatible 4moms baby swing. It features a durable 6.6-foot cable and a standard DC barrel tip round connector. The adapter incorporates a built-in smart IC chip for enhanced safety, offering over-voltage protection, over-current protection, and over-heat protection.

Image: The PDEEY 12V 3A AC Power Adapter, featuring its white casing, 6.6-foot cable, and barrel connector.

This power cord is specifically designed as a replacement for the following 4moms baby swing models and part numbers:

- mamaRoo2 / 4moms mamaRoo 2
- 4moms mamaRoo 4 Baby / mamaRoo4 / mamaRoo4 Infant Seat
- 4moms rockaRoo Baby Swing
- 2015 mamaRoo Infant Seat
- Compatible Part Numbers: P/N OH-1048B1203000U / OH-1048B1203000-U, 1048B1203000U / OH-1048B1203000-U
- Also compatible with 4moms mamaRoo model 1037, 4moms mamaRoo model 1026 / 4moms mamaRoo model 4M-005.

It is crucial to verify the connector size and voltage requirements of your device before purchase. This adapter features a DC barrel tip round connector with specific dimensions (5.5mm outer diameter, 2.5mm inner diameter) and provides 12V 3A output.

Please Note:

**Many DC Connectors are not the same size,
Pls check before buying**

DC 5.5 * 2.5 MM

SETUP AND INSTALLATION

1. Unpack the PDEEY Power Cord Replacement from its packaging.
2. Locate the power input port on your compatible 4moms baby swing.
3. Insert the DC barrel connector end of the power cord firmly into the swing's power input port.
4. Plug the AC adapter end of the power cord into a standard 100-230V wall outlet.
5. Ensure the connection is secure. The baby swing should now receive power.

OPERATION

Once properly connected, the PDEEY Power Cord Replacement will supply the necessary 12V 3A power to your 4moms baby swing. You can then operate your swing according to its own instruction manual. The adapter is designed for continuous use when the swing is in operation.

MAINTENANCE

To ensure the longevity and safe operation of your power cord, follow these maintenance guidelines:

- Keep the adapter and cable clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid bending or crimping the cable excessively, especially near the connectors, to prevent internal wire damage.
- Store the power cord in a cool, dry place when not in use.

- Do not attempt to open or repair the adapter. Refer to the troubleshooting section or contact customer support for issues.

TROUBLESHOOTING

If your baby swing is not receiving power or functioning correctly after connecting the new power cord, consider the following:

- **No Power to Swing:**
 - Ensure both ends of the power cord are securely plugged in.
 - Test the wall outlet with another device to confirm it is functional.
 - Verify that the power cord's specifications (12V 3A) match the requirements of your specific 4moms baby swing model.
 - Check the power cord for any visible damage (cuts, fraying). If damaged, discontinue use and replace.
- **Swing Malfunctions After Connecting:**
 - Confirm the power cord is compatible with your exact 4moms swing model (refer to the Compatibility section). Incorrect voltage or connector type can cause issues.
 - If the power cord appears functional, the issue might be with the baby swing itself. Refer to the original 4moms baby swing's instruction manual for troubleshooting specific to the swing's operation.

If problems persist after following these steps, please contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	PDEEY
Model Number	BABY-WING-12V-ADAPTER
Input Voltage	100-230V, 50/60Hz
Output Voltage/Current	12V 3A (36W)
Cable Length	6.6 feet (approximately 2 meters)
Connector Type	DC Barrel Tip Round Connector (5.5mm x 2.5mm)
Safety Features	Built-in smart IC chip, Over voltage protection, Over current protection, Over-Heat protection
Product Dimensions	3.54 x 1.57 x 1.18 inches
Item Weight	4.9 ounces
Color	White

WARRANTY AND SUPPORT

For warranty information or technical support regarding your PDEEY Power Cord Replacement, please contact the manufacturer directly through their official channels or the retailer from whom you purchased the product. Keep your

purchase receipt as proof of purchase.
