### Insta360 ONE RS 4K Edition

# Insta360 ONE RS 4K Edition Action Camera Instruction Manual

## 1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Insta360 ONE RS 4K Edition action camera. The Insta360 ONE RS is a versatile modular action camera designed for capturing high-quality photos and videos in various environments, featuring a 4K Boost Lens, FlowState Stabilization, and a rugged, waterproof design.

Figure 1: Insta360 ONE RS 4K Edition camera with its modular design.

## 2. WHAT'S IN THE BOX

Upon unboxing your Insta360 ONE RS 4K Edition, you will find the following components:

- 1x 4K Boost Lens
- 1x ONE RS Core
- 1x ONE RS Battery Base
- 1x ONE RS Mounting Bracket

## Unboxing Video

Your browser does not support the video tag.

*Video 1: Official unboxing and overview of the Insta360 ONE RS 4K Edition components.*

## 3. PRODUCT OVERVIEW

### Key Components

The Insta360 ONE RS features a modular design, allowing for interchangeable lenses and components:

- **ONE RS Core:** The central processing unit with a touchscreen display, status indicator, microphone, and speaker.
- **4K Boost Lens:** A high-resolution lens capable of capturing 4K 60fps video and 48MP photos.
- **Battery Base:** Provides power to the camera modules.
- **Mounting Bracket:** Secures the assembled camera and provides mounting points for accessories.

### Main Features

- **4K 60fps & 48MP Photos:** Capture detailed videos and high-resolution stills.
- **FlowState Stabilization:** Advanced in-camera stabilization for smooth footage without external gimbals.
- **Active HDR:** Enhances dynamic range in videos, preserving details in highlights and shadows.
- **Waterproof Design:** The camera is waterproof to 16ft (5m) when assembled correctly within its mounting bracket.
- **Interchangeable Lens System:** Allows for swapping between different lenses (e.g., 4K Boost, 360 Lens, 1-Inch Wide Angle) to suit various shooting needs.

### Features Overview Video

*Video 2: Detailed explanation of the Insta360 ONE RS 4K Edition's features and components.*

### Visual Features

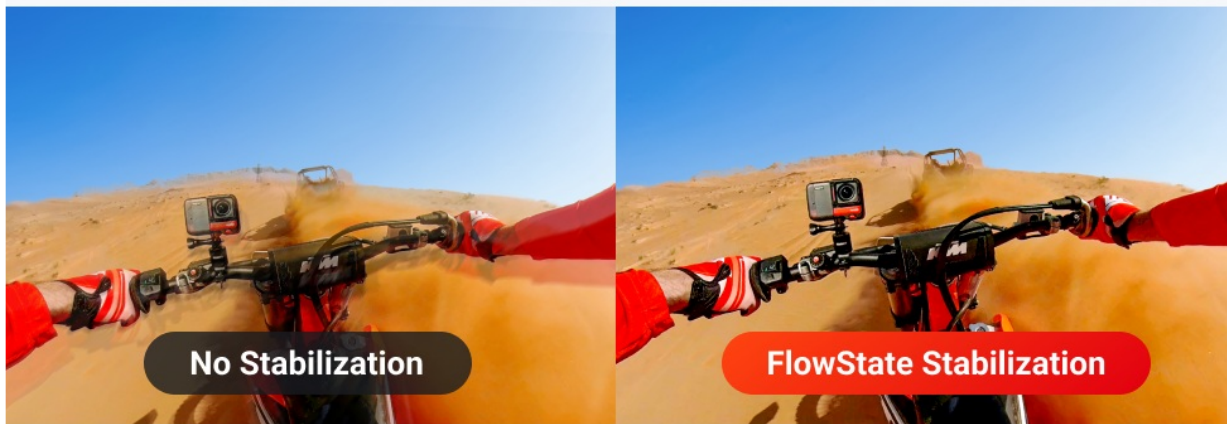

# **FlowState** Stabilization

*FlowState Stabilization in action.*

## FlowState Stabilization

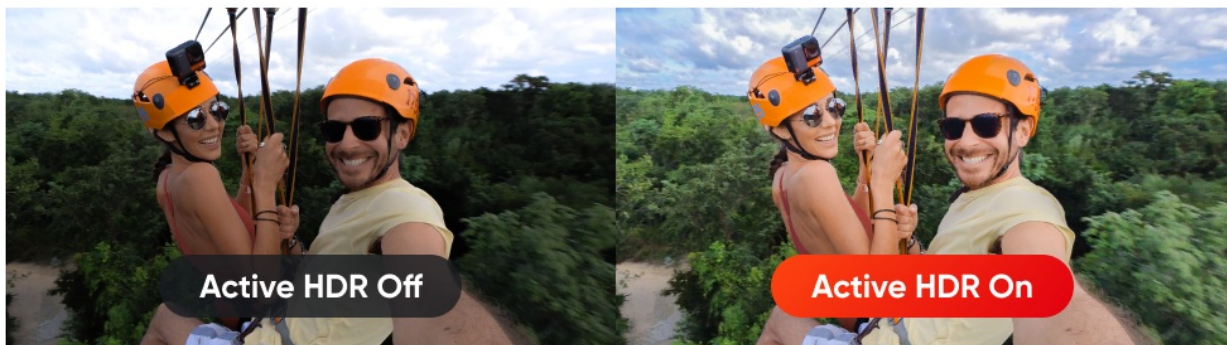

Get buttery smooth shots, no matter the action. With the new RS Core, FlowState stabilization is now built into the camera.

*FlowState Stabilization comparison.*

## Active HDR

Active HDR keeps your video stabilized as you move, revealing details in the highlights and shadows that other action cameras miss.

*Active HDR comparison.*

*Waterproof design of the camera.*

## 4. SETUP

---

### 4.1 Camera Assembly

The Insta360 ONE RS is assembled by connecting the Core, Lens, and Battery Base. Ensure proper alignment of the connection points.

1. Align the holes on the side of the lens module to the points on the Core module and press them firmly together until they connect.
2. Align the assembled Core and lens with the connecting points of the Battery Base and press them firmly together.

### 4.2 MicroSD Card Insertion

A MicroSD card is required for storing photos and videos. Use exFAT formatted MicroSD cards with UHS-I bus interface and Video Speed Class V30 rating (or higher) for optimal performance.

1. Push the lock buckle to the right to open the lock cover on the Core module.
2. Insert the MicroSD card with the label facing the front side of the Core.
3. Close the lock cover securely to ensure waterproofing.

### 4.3 Activation & Firmware Update

Before first use, the ONE RS needs to be activated via the Insta360 app. It is also recommended to update the firmware to the latest version.

1. Turn on the camera by pressing the Power Button.
2. Enable Wi-Fi and Bluetooth on your smartphone.
3. Download and open the Insta360 app.
4. Tap the camera icon at the bottom of the app and select "Connect".
5. Select your ONE RS from the detected devices and follow the on-screen instructions to confirm the connection on the camera's touchscreen.
6. If a new firmware version is available, the app will prompt you to download and install it. Follow the instructions and do not power off the camera or exit the app during the update.

### Setup Video

Your browser does not support the video tag.

*Video 3: Step-by-step guide for camera assembly, MicroSD insertion, and activation/firmware update.*

## 5. OPERATING THE CAMERA

---

### 5.1 Power On/Off

- **Power On:** When the camera is off, press the Power Button once to turn it on.
- **Power Off:** In standby mode, long-press the Power Button for 2 seconds to power off the camera.

### 5.2 Basic Controls

- **Shutter Button:** Press once to take a photo or start/stop recording.
- **Power Button:** In standby mode, press once to turn the touchscreen on or off.

## 5.3 Touch Screen Navigation

- **Swipe Left/Right:** From the center of the touchscreen, swipe left or right to select different shooting modes (e.g., Photo, Video, Timelapse).
- **Tap Q Icon:** Tap the screen just to the left of the 'Q' icon to select from preset capture modes.
- **Zoom:** Tap the screen just to the left of the magnifying glass '+' icon to bring up the zoom controls. Tap to customize Field of View (FOV) options like Ultra Wide, Wide, Linear, or Narrow.
- **Parameters:** Tap the parameters at the bottom of the screen to adjust settings like resolution, frame rate, ISO, white balance, and timer settings.
- **Media Gallery:** Swipe up from the bottom of the screen to access the Media Gallery.
- **Shortcut Menu:** Swipe down from the top of the screen to open the Shortcut menu for quick access to settings like brightness, screen lock, stabilization level, LED on/off, grid, and screen rotation.

## 5.4 Voice Control

The camera supports voice commands for hands-free operation.

- **Enable Voice Control:** Access the Shortcut menu (swipe down) and tap the Voice Control icon to turn it on.
- **Commands:** Use commands such as "Take a photo" or "Start recording".

## 5.5 QuickCapture

QuickCapture allows you to start recording instantly even when the camera is off.

- **Enable QuickCapture:** Access the Shortcut menu (swipe down) and tap the QuickCapture icon to turn it on.
- **Use QuickCapture:** When ONE RS is off, press the Shutter Button to power on and start recording immediately.

## 5.6 Audio Settings

The ONE RS features three microphones for improved stereo sound. You can adjust audio settings via the touchscreen.

- **Access Audio Mode:** Go to Settings > Audio Mode.
- **Options:** Select from Wind Reduction (default), Directional Enhancement, or Stereo.
- **External Microphone:** An external microphone can be used to further enhance audio quality.

## Operating Video

Your browser does not support the video tag.

*Video 4: Learn how to operate your Insta360 ONE RS, including power, controls, and settings.*

# 6. MAINTENANCE

## 6.1 Battery Charging

The Insta360 ONE RS Battery Base has a capacity of 1445mAh.

- Use the provided Charge Cable to charge the camera via the USB-C port on the Core module.
- The indicator light will turn red while charging and turn off when the camera is fully charged.

## 6.2 Waterproofing

The Insta360 ONE RS is waterproof to 16ft (5m) when correctly assembled within its mounting bracket.

- Always ensure the lock cover for the USB-C port and MicroSD card slot is securely closed.
- When using the ONE RS in water, remember to lock the touchscreen to avoid accidental presses. Swipe up to unlock.

## 6.3 Accessories

Various accessories are available to enhance your ONE RS experience, such as selfie sticks, tripods, and specialized mounts.

- The Mounting Bracket helps reinforce connections between camera modules and ensures waterproofing.
- Use the 1/4" Camera Mount Adapter and 1/4" Thumb Screw with the Mounting Bracket to attach the camera to traditional action camera accessories like selfie sticks.

## Accessories Video

Your browser does not support the video tag.

*Video 5: Explore various accessories for the Insta360 ONE RS and how to use them.*

# 7. TROUBLESHOOTING

If you encounter issues with your Insta360 ONE RS, consider the following general troubleshooting steps:

- **Camera Unresponsive:** Try restarting the camera by long-pressing the Power Button.
- **Firmware Issues:** Ensure your camera's firmware is up to date via the Insta360 app.
- **Connection Problems:** Verify that Wi-Fi and Bluetooth are enabled on both your camera and smartphone, and that the Insta360 app is correctly connected.
- **Waterproofing Concerns:** Always double-check that all modules are firmly connected and the lock cover is securely closed before exposing the camera to water.

| FAQ                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>D. Vuoi aggiornare la tua ONE R?</b><br>R: Se possiedi già una ONE R, abbiamo il design modulare dell'action cam per aggiornare le diverse parti tra gli cui obiettivi.<br><b>D. Cosa c'è di nuovo nella ONE RS?</b><br>A: Tanto! La ONE RS monta un nuovo obiettivo 4K ad alte prestazioni ed è dotata da un nuovo Nucleo, una nuova Batteria Base e un nuovo kit di Essi e Ingegneri "aggiornamenti".<br>Oltre al 4K 60FPS, c'è un aggiornamento delle versioni precedenti. Grazie a un sensore da 127.48MP, è in grado di registrare video 4K HDR a 60FPS e foto da 48MP. Sono inoltre disponibili due nuove modalità: registrare la modalità 10-dimensioni HDR con risoluzione 2.25.7 e la modalità Active HDR che registra i dettagli di luci e ombre del tutto.<br>Nucleo ONE RS: Il nuovo nucleo della ONE RS unifica un nuovo processore per FlowState rivoluzionario, registrato a più trasferimenti HDR fino a 1075 più veloci. Inoltre, un nuovo design aggiornato assicura un audio migliorato. Sono anche disponibili con il Nucleo RS, lo zoom laterale e il nuovo rigido.<br>La batteria ONE RS è il kit di montaggio. La capacità della batteria della ONE RS è del 71%, superiore a quella della batteria della ONE R. È facile il montaggio e della compatibilità per rendere alla batteria della RS. Una volta più facile da avere con il pulsante a spinnolo rigido, con il sistema di dissipazione del calore e con una superficie antiriflesso migliorata.<br>L'obiettivo della ONE RS 380 è l'obiettivo grandangolo da 1 pollice sono messi gli stessi di prima.                              |
| <b>D. È possibile utilizzare il nucleo della ONE R con l'obiettivo Base 4K?</b><br>R: Il design per l'obiettivo Base 4K con il nucleo della ONE R, prima con un aggiornamento del firmware (profondità). Con il nuovo aggiornamento, tutte le parti tutti i vantaggi degli obiettivi, tra cui un sensore di immagine da 127 con pixel da 48MP e il nuovo HDR.<br><b>D. È possibile utilizzare il Nucleo della ONE RS con gli obiettivi già in uso e le modifiche esistenti?</b><br>R: Sì, puoi utilizzare il Nucleo della ONE RS con gli obiettivi della ONE R. Con tutti i vantaggi del nuovo Nucleo, tra cui un nuovo processore, una stabilizzazione dell'immagine FlowState migliorata, trasferimenti HDR più veloci del 75%, audio migliorato, zoom laterale e video rigido. Si utilizza con un obiettivo grandangolo, così come con il nuovo video 4K HDR in modalità FlowState. Per prestazioni ottimali, il consiglio di utilizzare sia il Nucleo della ONE RS con la Batteria Base ONE RS, sia con il kit di montaggio della ONE RS.<br><b>D. Posso utilizzare la Batteria Base della ONE RS con il Nucleo della ONE R?</b><br>R: Sì, puoi utilizzare il Nucleo della ONE R e gli obiettivi con la Batteria Base della ONE RS. Tuttavia la batteria della ONE RS non è compatibile con il design di montaggio della ONE R perché di diverse dimensioni. Assicurati di acquistare la Batteria di Montaggio della ONE RS per utilizzarla con la batteria. È dotato inoltre di un nuovo pulsante a spinnolo rigido, un sistema di dissipazione del calore e con una superficie antiriflesso per il tuo obiettivo. |

| <b>ARTICOLO 1 - DESTINATARI</b><br>1.1. I requisiti che devono tutti necessariamente verificarsi a pena perdere parte alla Promozione sono i seguenti:<br>a. Essere persone fisiche (maggiorenni) senza essere iscritte nelle reti S.I.;<br>b. Essere Titolari di tessera Mediaworld Club (di seguito "MWC");<br>c. Effettuare un acquisto, durante il Periodo di Compilazione della promozione (come definito all'art. 2 che regola), presso i punti vendita Mediaworld situati in Italia (di seguito "Negliati") oppure nei punti vendita online <a href="https://www.mediamarket.it">www.mediamarket.it</a> (di seguito il "Site") oppure attraverso un ordine attraverso Mediaworld App (di seguito "APP").                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>ARTICOLO 2 - PRODOTTI PROMOZIONATI</b><br>Nell'ambito della presente promozione ("Prodotti Promozionali") sono tutti i prodotti esclusivamente con IVA al 22% e previsti in Negliata una sconto diretto in cassa pari al 30,00% sul prezzo di vendita, su Site e APP in valore di 10,00€ e applicato a partire, come con MEDIAMARKET CLUB secondo di seguito. La somma si applica sui soli prodotti disponibili nei negozi retailistici e sul Site e APP (per gli acquisti online farà fede la data del trend) ed esclusione di quelli contrassegnati nel Periodo di svolgimento di cui all'art. 3).<br>In Negliata per poter fruire della sconto cartante, il Titolare MWC deve presentare in cassa, oltre al Prodotto Promozionale, anche la propria tessera MWC Club. I Clienti non ancora iscritti potranno prendere parte all'iniziativa richiedendo la loro MWC Club direttamente in Negliata, prima di procedere all'acquisto.<br>Sul Site e APP per poter fruire della sconto digitale, i Clienti non ancora iscritti al MWC Club potranno prendere parte all'iniziativa, prima di procedere all'acquisto, scaricandosi tramite il link <a href="https://www.mediamarket.it/club">https://www.mediamarket.it/club</a> .<br>Esempio per calcolare lo sconto dell'IVA: Prezzo Prodotto 1.000€, al netto di Iva 22% = 82,97€ K € 1.000: 2,22) pari al 30,00% di sconto. |
