MERITLINE 156E

MERITLINE Twin Over Twin House Bunk Bed Instruction Manual

Brand: MERITLINE | **Model:** 156E

Product Overview

The MERITLINE Twin Over Twin House Bunk Bed is designed to provide a comfortable and engaging sleeping and play area for children. This bunk bed features a unique playhouse-shaped frame with a pitched roof and window sections, fostering imagination while offering a secure sleeping environment. Constructed from high-quality solid pine wood, it ensures durability and stability for long-term use.
Key features include:

- **Playhouse Shaped Frame:** Features a pitched roof and wall section with a window, allowing for creative decoration.
- **Sturdy Construction:** Crafted from high-quality solid pine wood with solid slats for enhanced support and stability.
- **Security Guarantees:** Low bunk bed design is suitable for younger children, and full-length guardrails on the upper bunk prevent accidental falls.
- **Comfortable and Fun Space:** Creates an exhilarating experience for both sleep and playtime.
- **No Box Spring Needed:** Includes slats, allowing mattresses to be placed directly on the frame.

Setup and Assembly

Assembly of the MERITLINE Twin Over Twin House Bunk Bed is required. The product is shipped in two packages and includes all necessary hardware and clear instructions. It is recommended to have at least two adults for assembly to ensure safety and efficiency.

Before You Begin:

- Unpack all components and verify against the parts list provided in your package.
- Ensure you have adequate space for assembly.
- Gather necessary tools. While a small tool is provided, a power drill with appropriate bits may expedite the process.
- Handle all packages with care during delivery and unpacking to prevent damage to components.

Assembly Steps:

1. **Identify Components:** Lay out all wooden pieces and hardware. Refer to the included instruction manual for a detailed parts diagram.
2. **Assemble Main Frame:** Begin by connecting the main frame components according to the numerical sequence in the instructions. Ensure all connections are secure but do not overtighten until the frame is fully aligned.
3. **Install Slats:** Securely attach the wooden slats to both the upper and lower bunk frames. These slats provide mattress support, eliminating the need for a box spring.
4. **Attach Guardrails and Ladder:** Install the full-length guardrails on the upper bunk and securely attach the ladder. Verify that all connections are tight to ensure safety.
5. **Construct Playhouse Structure:** Assemble the roof and window sections of the playhouse frame. Attach these to the main bunk bed structure as per the instructions.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts. Do not overtighten to avoid damaging the wood.

Operating Instructions

This bunk bed is designed for safe and comfortable use by children. Adherence to the following guidelines will ensure optimal performance and safety.

General Use:

- **Mattress Placement:** Place twin-sized mattresses directly onto the provided wooden slats. No box spring or foundation is required.
- **Weight Capacity:** Do not exceed the recommended weight limits for each bunk. Exceeding the weight limit may result in product failure and potential injury. Refer to the Specifications section for detailed weight capacities.
- **Ladder Use:** Always use the integrated ladder for accessing the upper bunk. Ensure children are supervised, especially when using the ladder.
- **Guardrails:** The full-length guardrails on the upper bunk are crucial for preventing accidental falls. Ensure they

are always securely in place.

- **Playhouse Features:** The integrated roof and window sections are for decorative and imaginative play purposes. Do not climb on the roof or use the window shelves for heavy items.

Maintenance

Regular maintenance will help preserve the quality and longevity of your MERITLINE bunk bed.

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the wood finish.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity and prevent wobbling.
- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight, which can cause warping or fading.
- **Pinch Points:** Be mindful of potential pinch points, especially around the ladder and moving parts, during

cleaning or adjustment.

Troubleshooting

If you encounter any issues with your MERITLINE bunk bed, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware or improper assembly.	Ensure all screws and bolts are fully tightened. Review assembly instructions to confirm all parts are correctly installed.
Difficulty during assembly (e.g., parts not fitting).	Misalignment of parts or incorrect orientation.	Double-check the instruction manual for correct part orientation and sequence. Do not force parts; gently adjust alignment. If materials buckle, contact customer support.
Missing hardware or instructions.	Packaging error or items overlooked during unpacking.	Thoroughly check all packaging materials. If still missing, contact MERITLINE customer support immediately with your product model and purchase details.
Squeaking noises.	Loose connections or friction between wood components.	Tighten all hardware. If squeaking persists, a small amount of furniture wax or silicone spray can be applied to contact points (avoiding areas that bear weight).

Important Safety Note: Exceeding the stated weight limit for the bunk bed may result in product failure and potential injury. Always adhere to the maximum weight capacities listed in the Specifications section.

Specifications

Feature	Detail
Size	Twin over Twin
Product Dimensions	77.4"L x 41.7"W x 83.2"H
Color	Grey
Finish Type	Wood
